

SAYS HOOD RIVER BOYS ARE WELL BEHAVED

THOMAS S. HANDSAKER, CHRISTIAN EVANGELIST.

By D. N. B.

THOSE tent meetings are proving very interesting and are drawing good audiences. There was an old fashioned basket dinner disposed of at the tent Sunday and a very enjoyable time was experienced by all who partook of the good things the ladies provided for the occasion. The only thing to be regretted was that Sunday does not come every day. Some people are in the habit of slandering our boys and young men by saying

they are rude, boisterous, rough, ill-mannered, etc., but the management of these meetings wish to go on record as stating the fact that in all their experience they have met no more gentlemanly, orderly or genial lot of young men and boys than they have met in Hood River, and that they esteem it an honor to have these boys and young men attend the meetings. They have been universally correct in their behavior and are especially invited to attend all meetings.

TO REMOVE PORCHES FROM THE STREETS

Following is the ordinance regarding street obstructions as passed by the city council last week:

Ordinance Number 99:
An ordinance to prevent the obstruction of streets, alleys or parks in the city of Hood River, state of Oregon; to provide for the removal of such obstructions; to provide for punishment for the violation of any part hereof; to declare certain obstructions nuisances; to make the cost and expense of removal by the city in certain instances, a lien upon the abutting property; to repeal all ordinances or parts thereof in conflict herewith. The city of Hood River does ordain as follows:

Section 1. No portion of any building or erection shall be allowed to be in or to project over or into any street or sidewalk, alley or park; provided that this section shall not apply to the loss of eaves or cornices projecting not to exceed six inches, or to cornices or projections placed at least ten feet above the top of the sidewalk, but such projection or cornice shall not extend more than three feet over the sidewalk.

Section 2. No wooden awning or porch shall be permitted within the present fire limits of the city, bounded north by the railroad right of way, east by center line of Front street, south by center line of State street, and west by center line of Fifth street, except such as are supported by iron brackets, and in the judgment of the committee on streets and the street commissioner, are in good order and at a suitable height above the sidewalk; nor shall hereafter be erected in any other portion of the city, without the written permission of the said street committee and the said superintendent of streets or street commissioner. Cloth awnings, when desired, shall not be less than eight feet above the top of the sidewalk and shall be supported upon iron arms or posts to permit such awnings to be folded up against the building, the lowest portion of said arms or supports to be at least nine feet above the top of the sidewalk.

Awnings and porches in the portions of the city where permitted to remain, and extend over the sidewalk by the provisions of this ordinance shall be so constructed at the intersection of streets that no upright or supporting post shall stand upon the sidewalk, crosswalk or roadway within the space included between the said lines of the intersecting streets. No awning, shade or balcony shall extend beyond the line of the curb, and all posts used for supporting awnings shall be placed at least six inches inside the center line of the sidewalk curb.

Section 3. No person owning or occupying any building or premises, or other person, shall place or cause to be placed or maintained, or suffer upon the street or sidewalk, or permit to be placed, maintained or removed, in front of such building or premises, or any building or premises, any sign, advertisement, or flag, except upon holidays, election days, and days of public parade.

DR. FENNER'S KIDNEY and Backache CURE

All diseases of Kidneys, Bladder, Uterus, Gravel, Rheumatism, Backache, Heart Disease, Dropsy, Female Troubles.

per as for street improvements. Section 11. It is hereby made the duty of the street commissioner, and should there be no street commissioner, then of the city marshal, to see that the provisions of this ordinance are strictly enforced; and he shall forthwith notify the owner or occupant of any building or premises having any part or all of, an erection, or awning, or porch, or other projection or obstruction from the building in a street, alley, highway or park, contrary to the provisions of this ordinance, to remove the same immediately, or conform them to the requirements of this ordinance, and that the same is a nuisance and cannot be tolerated, and if he or they fail so to do within thirty days after receiving such notice, such officer shall at once proceed to abate said nuisance, and shall tear down said awnings, porches, erections, or other obstructions, and remove the same from the street or streets, alley or alleys, park or parks, highway or highways, and he shall have full power at any and all times to remove any and all obstructions from the streets, alleys, highways or parks wherever and whenever found.

Section 12. That all ordinances and parts of ordinances in conflict with this ordinance, in so far as they are inconsistent herewith, are hereby repealed.

Destroy Fruit, Destroy Pest.
J. L. Dumas, who owns a fruit ranch near Dayton, Wash., says the growers are going to try this year to get rid of the pests which have cost them thousands of dollars. He says:

"We will have no fruit at all in our section. In my orchard not more than 500 apple trees had any fruit on them, and these had but few apples, which we have destroyed. Other fruit growers in that section are destroying their apples now, for the crop is insufficient to pay for saving, and by destroying the apples now we destroy the crop of codling moths, and the orchards will be free from these pests for two or three years. I think fruit growers should be informed of this method of destroying these pests. Now that there is an unusually light crop it is an opportune time to rid this country of the moths. These worms will be hatched as moths in a short time, probably three weeks. Then, if there are no apples for them to feed on, they will die, and it will be several years before a new crop of moths will be produced. This is an easy and inexpensive method of destroying these pests, which are the greatest drawbacks to the fruit industry of this section."

Among the Real Estate Men.
During the past few days the following transfers have been made in real estate:

W. J. Baker reports the sale of Mrs. James Graham's residence to J. R. Namsenmaker of Heppner, consideration, \$500.

G. W. Phelps, to Bert Van Horn, 40 acres; consideration, \$110 per acre. C. A. Dano reports the sale of Adolph Grossers' East Side ranch to Hans Gustaf of Dayton, Minn., 42 acres; consideration, \$9,000.

A. P. Morse to R. J. Wilcott of Devil's Lake N. D., 12 acres; consideration, \$5,300. This old Sherman Young place includes stock and tools belonging to the place.

S. H. Cox on the West Side, 15 acres to W. H. Bishop, from Warm Springs; consideration, \$4,700. G. D. Boardman to R. J. Wilcott 10 acres, consideration, \$1,800.

Lot and a half from L. A. Morse to Yates and Otten; consideration, \$—-. This gives Messrs. Yates and Otten frontage on both Oak and State streets.

Three Jurors Cured.
Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says: "While there I ate some fresh meat and some meat and it gave me cholera morbus in a very severe form. I never was more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Cholera, Cholera and Diarrhoea Remedy instead, saying that I had what I sent for, but I sent this medicine was so much better he would rather send it to me in the box I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us. For sale by Williams' Pharmacy."

Heavy Yield of Alfalfa.
Six and a half tons of alfalfa an acre is what a field on the Agricultural college farm yielded this year. For the past four years the average yield has been 4½ tons an acre. In four cuttings of alfalfa the two-acre tract on the college farm field the highest yield ever obtained heretofore was 25,744 pounds.—Portland Journal.

Many of our Hood River ranchers would do well to try this crop, especially if interested in dairying or raising pigs. Some have tried alfalfa on a small scale and report it much more profitable than any other forage crop.

Are You Engaged?
Engaged people should remember, that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years, my wife suffered intensely from dyspepsia, complicated with torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." C. N. Clarke, druggist, sells and guarantees them, at 4¢ a bottle.

When you buy a Wagon buy a RUSHFORD

because

The Rushford is built for sturdy use, of the right stuff and in the right way—the wagon for the hardheaded farmer who rightly wants full value for every dollar. It's a wagon that stands the racket—has more real strength and wear than you ever saw for the same money; and yet a Rushford Wagon is neither over-heavy nor clumsy.
