

HOOD RIVER GLACIER
Issued every Thursday by
ARTHUR D. MOE, Publisher.
Terms of subscription—\$1.50 a year when paid
in advance.
THURSDAY, OCTOBER 5, 1905.

The fanaticism of the silver agitators was overcome by a campaign of education on the money question; just such a campaign will be conducted in a few years on the subject of the tariff. Tariff reform will come sooner or later.

The fair management aimed for 100,000 attendance on Portland day last Saturday. The admissions at the close of the day numbered 85,133. Hood River aimed at 1000 for her day, and the actual results were almost half as much again. Hood River still leads.

The Pendleton Tribune states wisely enough that the present congressman is out of the running, and goes on to say that Eastern Oregon should have the congressman this time. If you think you have a good man to put out, for only six months remain until the primary nominations.

Hood River apples are nearly the whole thing at the state exhibit as they are in the Wasco county booth at the exposition. The Wenatchee valley puts up an excellent display of Betteheimers, Wolf Rivers and Gloria Munds, but when it comes to the apples of quality, Newtowns and Spitzenburgs, Hood River shines out above all the rest of the Pacific Northwest.

Hood River has two good friends in A. L. Craig and R. M. Hall of the O. R. & N., both of whom took personal interest in seeing that Hood River day at the exposition was made a great success. Mr. Hall accompanied the excursion from Hood River to Portland, while Mr. Craig and his assistant met the apple growers on their arrival at the Union depot. Both these men are proud of our little city and fruitful valley.

Mr. Hill stated the other night in Portland that his road was not coming down the north bank just for the fun of it; there is business here for his road. But the people of Oregon will be expected to meet him part way with a deepened channel from Portland to the sea. Government assistance is required in this work, and it behooves us to see that business interests rather than sentiment predominate in next year's selection of congressmen and a United States senator.

"Even the record of enterprising Hood River was broken," is the way the Oregonian tells of the Walla Walla excursion of Tuesday, when that city sent down 1100 visitors to the exposition. Hood River had 1015 aboard the special train, and the 150 or 200 who went down the day before on the boat and cars should not be overlooked. There is a touch of pride in the mere comparison of Walla Walla's crowd to that furnished by Hood River, but it should be remembered that Hood River has a population of 1808, while that of the southeastern metropolis is between 15,000 and 18,000. Other towns will have to go some to outdo Hood River.

BEST APPLES ENGLAND GETS

The demand this year for fancy Hood River apples is in excess of the supply. Mr. Shepard of the apple growers' union is in receipt of a letter from a prominent dealer in Liverpool, who regrets that he cannot get all the Newtowns he wants this year, but he is pleased to know that this valley will be producing those apples by the hundred thousand bushels in a few years. "The Hood River Newtowns are the finest apples which reach this market," writes the Liverpool merchant. Other dealers send in similar letters.

Mr. Shepard was asked the other day if he considered that the market for Hood River fancy fruit would ever be over supplied until it would not pay to grow apples here. By a process of deductive argument, the manager of the local apple growers' union stated that if 1000 cars of apples were distributed in England and Germany, whose combined population exceeds 100,000,000 people it would mean only one car to every 100,000 people. "And do you think that one car of apples in a city the size of Portland would swamp the market," asked Mr. Shepard in return.

The union is sending a car of Northern Spy apples this month to the fancy trade in New York city. This is something new in the apple business to be sending Spies to the Atlantic coast. This and similar varieties have heretofore been marketed solely on the coast.

The present heavy rains are displeasing to the farmers, as it gives the Spitzenburg apples little time to color properly. The winter apples are now ready for gathering. Many of the growers will make two pickings, taking only the matured fruit the first time, and giving the greener apples a longer time to ripen.

Exceeded Their Expectations.
As E. A. Franz was coming down the street the other day, he noticed a couple of well dressed Easterners gazing at Mount Adams and the Columbia River. As they were conversing in German, he stopped up and introduced himself. The strangers exchanged the compliment and explained that they were in Portland from New York, where they had heard so much of Hood River, and being so near when at the fair, decided to see for themselves what there really was here.

Their names were Ernest Hoffman and Fred W. Buech. They were surprised at grand beauty of the scenery, and declared that the way the fruit ranches here were viewed from the forests beat anything they ever saw.

and was soon sound and well. "I use it in my family," writes G. J. Welch, of Tekonsha, Mich., "and find it perfect." Simply great for cuts and burns. Only 25c at C. N. Clarke's drug store.

FINE SHOWING FIRST MONTH

Superintendent Wiley feels highly gratified over the results of the first four weeks of school. He has just completed his report for the month ending September 28, and finds that all the grades have "made splendid showing." The attendance has been splendid. The enrollment on the opening day was 410, and what is remarkable the average for the 18 days of school is the same, 410.

The superintendent's report shows: The number of days taught, 18; enrollment first day, 410; total enrollment, 455; number of cases of tardiness, 27; average number belonging, 424; average daily attendance, 410; percent of attendance, 95.7; percent of punctuality, 99.8.

The rooms of Miss Mathews and Miss Poole, first and second grades, have no tardy marks. The same is true of the 4th and 5th grades taught by Miss Koch.

The number of pupils enrolled in each grade is as follows: Miss Poole, second, 31; Miss Rowman, first, 43; Miss Hicks, second and third, 49; Miss Wright, fourth and fifth, 43; Mr. Everett, sixth and seventh, 38; Miss Dietz, third, 29; Miss Copple, fourth and fifth, 29; Mrs. Roche, fourth and fifth, 27; Miss Stewart, sixth and seventh, 33; Mrs. Gove, eighth, 41; High school, ninth, tenth and eleventh, 57—total—455.

The high school, with an enrollment of 57 is doing splendid work. The superintendent, who is proud of this department of the school. The 2215 physical laboratory for the high school has been delayed between here and Chicago, but Mr. Wiley hopes to have it in place in a few days. This laboratory is one of the best in the high schools of the state.

A 10 inch fire gong has been placed in the Park street school, and practice in fire drills will begin at once. Seating capacity in the Heights school is already overworked, and additional desks will have to be ordered.

If the increase in attendance keeps up at the same rate as it did last year, Superintendent Wiley expects to see a total enrollment of 600 pupils before the close of the term.

Institute at The Dalles Saturday.
J. T. Neff, the county school superintendent, will conduct a local institute in The Dalles, Saturday afternoon. The program for the afternoon is as follows:
Lecture exercise by Miss Tillard of The Dalles, and her class of primary grade; Language in the grades by Superintendent Landers; Arithmetic in the grades by W. A. Wiley of Hood River; History in the grades by Mr. Cruse; Miscellaneous topics.

It is Mr. Neff's idea that the principals of the various county schools do the instructing at these local institutes. Mr. Neff says that these get things more systematized in the country districts. As Principal Wiley expressed it, it is not so important how much work the teachers accomplish, as how well and thorough it is done.

It has been arranged that such local institutes shall be held at Tygh Valley, October 14; at Dufur, October 8, and at Odell, November 11.

RIVAL SURVEYORS REACH UNDERWOOD

Marion S. Smith, member of the general merchandise firm of Smith & Clark at Underwood, who was in the city, Tuesday afternoon, says that he has been out to Underwood on the north side the past few weeks. As Mr. Smith was leaving on the ferry, a crew of Northern Pacific surveyors reached Underwood from the West. A few days ago a crew of the O. R. & N. went the other way.

C. O. Williams, the county surveyor, completed the survey for the state wagon road through Underwood section of Skamania county last week. Piling has been secured for the road work, work on which will begin as soon as the pile driver arrives. The government fish hatchery men are making a remarkable catch of salmon, having so far gathered 1,000,000 eggs.

A crew of about 12 men are employed by the fish commission at the mouth of White Salmon, under the supervision of Mr. Spurgeon, who has been engaged in this work for a number of years. A hatchery has been established on the flat, about a mile east of the mouth of the stream. Fish are also being caught in the Little White Salmon.

About \$1,000 will be expended by the people of Underwood in the erection of a low water wharf. The Regulator Line has kindly consented to loan a pile driver for the work, while a number of the farmers on the mountain side have contributed piling, among them being Fred Luthy, Harry Olson and E. C. Goddard. Others will contribute their share in money and labor.

Mr. Smith says the line run by the O. R. & N., surveying crew extends close to the water's edge, while that being made by the Northern Pacific people runs a hundred feet or more above the Olson hotel. If this line should be followed, the chances for a depot at Underwood are not the best. It would also mean a high bridge over the White Salmon.

Mrs. Olson's hotel is about completed, meals being served there already. Quite a number of people from Trout Lake are making the trip to Underwood, to do their trading, and the prospects are good for a splendid fall business, says Mr. Smith.

Lewis and Clark Fair Notes.
Wednesday, October 11, will be the third day at the Lewis and Clark fair, and the day will be fittingly celebrated.
J. J. Underwood, home commissioner at the Lewis and Clark exposition, has not received from Alaska a specimen of tin ore weighing 60 pounds. The specimen contains 60 percent tin, and is worth twenty cents a pound.
The total admissions to the Lewis and Clark exposition up to September 27 was 2,086,545. It is expected that the grand total will be not less than 2,500,000, a better record than ever before was made by an enterprise of similar magnitude.
The Lewis and Clark exposition closes at half past 11 o'clock Saturday night, October 14. It was originally intended that October 15 should be the closing day, but as this date fell on a Sunday, the change was made. The fair has been a tremendous success.

The PARIS FAIR

Never Undersold Hood River's Bargain Store One Price to All

The Paris Fair is headquarters for all kinds of Rubber Goods. We can supply you with anything you want in this line, from the smallest child's rubber up, and the prices are the lowest. We carry the largest line of Ladies', Misses and Children's Ready-made Coats, Capes and Jackets to be found in the City.

Ladies' Suits from \$5.00 up

The Paris Fair

The Home of Low Prices.

W. Y. JOHNSON SELLS TO A MONTANA MAN

W. Y. Johnson of the East Side has bargained to sell his home place, and will leave shortly on an extended trip throughout the East. The circumstances of this sale are interesting and worthy of note.

C. A. Dano, the real estate man, was conversing with a couple of East-side fellows on Tuesday morning, when Mr. Johnson happened along and was introduced to a Mr. Davis of Montana.

"I want to reside in Montana," replied Mr. Johnson, "what part do you come from?"

"From Deer Lodge," replied Mr. Johnson. "Yes; why I used to run a dairy ranch near there 25 years ago," said Mr. Johnson.

"What! Are you the gentleman who sold to Brazil Lynch? Why, I have owned that very same farm for over 20 years."

And the two men were mightily glad to meet each other. Mr. Reed, a banker of Deer Lodge was with Mr. Davis, and the party at once got down to the valley. After viewing Mr. Johnson's farm, Mr. Davis agreed to purchase it for the same as the purchase price of \$6500, making a deposit of \$2000 to bind the bargain.

In relating the sale of his Montana farm to Mr. Lynch about 25 years ago, Mr. Johnson says he sold out there because he wanted to get near a good school. Lynch arrived at his home on a Saturday afternoon, and hearing that the farm was for sale, called until Johnson came home, and the next day walked over the farm.

Johnson had made up his mind to reserve a fat hog and a barrel of suet, which he sold the farm, and was willing to give \$3000 for the place if Johnson would throw in the hog and the suet.

"I'll do that if you will pay the \$13 taxes due on the property," replied Johnson. "Agreed," said Lynch, "and here is \$20 to bind the bargain."

MAN KILLED WHILE UNLOADING PILING

Frank McGovern was crushed to death Tuesday morning while unloading piling for the trestle work of the Mount Hood Railway just east of the O. R. & N. depot. McGovern was assisting to unload the piling when the bracing of the load gave way and ten tons of logs fell upon the young man, crushing his life out instantly.

McGovern was about 31 years old. He was formerly a member of a K. of P. lodge in San Francisco, and messengers to that city have failed to locate relatives. McGovern, it seems, had been shanghaied from Portland several months ago, and as soon as he escaped from China, made his way to Portland, and thence to Hood River, where he secured work with Tilton, the contractor of the Mount Hood railroad.

His body lies in the Bartmess undertaking parlors, awaiting instructions from relatives, should they be found.

Organize a Junior Guild.
A number of young ladies met with Miss Baker Monday evening, September 25, to organize what will be known as the Junior St. Mark's Guild. Mrs. Tilton, the contractor, will be in charge of the coming year; President, Miss Dano; vice president, Miss Headley; secretary, Miss Walton; treasurer, Miss Baker.

The Guild will work in the interest of St. Mark's Episcopal mission in Hood River and starts with about 15 members. Any young ladies of this city who care to join the organization will be heartily welcomed. An interesting meeting was held with Miss Dano last Monday evening, and the next meeting will be with Miss Headley on Monday, October 9, at 7:30.

Initial Dance of the Season.
The first dance of the season will be given by C. R. McCulley on Friday evening, October 15. Mr. McCulley's dances last season were a decided success. A large attendance will, therefore, be expected on Friday evening of next week. Tickets, \$1.00.

Hot Bread
Made from White River and Golden Crown Flour is easily assimilated. This is good tidings to those to whom that delicious feast of childhood is but a memory.

It is because every tiny particle of White River and Golden Crown Flour has been treated by electrified or ionized air that it is more easily digested and absorbed by the stomach.

The treatment frees the flour from certain oily properties of the hard wheat, while retaining all of its nutrition, and leaves it whiter, lighter and more wholesome than any other flour.

TO BUILD SAWMILL NEAR GOLDENDALE

Special to the Glacier.
Goldendale, Wash., Oct. 4.—The Klackit White Pine Lumber Co. will build a large mill here in the near future, and will construct a railroad to the timber to haul the logs to the mill. This will be a great improvement for Goldendale, as it will give employment to a number of men.

Commissioner J. P. Egan of White Salmon and John Weyer, the popular road supervisor of District No. 4, are in town on business before the commissioners who are in session this week. The commissioners will be in session for about two weeks, and a great deal of business will come before the board in that time.

C. D. Moore is in town on business before the board. The matter of the White Salmon ferry road will be up before the board, and Mr. Moore is here to represent his side of the business.

Superior court will convene next Tuesday. There will be no jury in attendance this term.

The numerous rains have brought the fall wheat up and grass is starting on the hills, making feed for the stock.

W. S. Warwick is in Spokane this week on business.

PREPARING FOR LECTURE COURSE
The advertising matter for the coming musical and lecture course to be given this fall and winter has been received from the Great Western Lyceum Bureau of Salt Lake City, Utah.

The first entertainment of the series will be given October 18, when the Parland-Newhall company will present a most varied and unique program. Messrs. Parland and Newhall have both been identified with leading quartets and have had wide experience in bell ringing.

In December, Dr. F. C. Bruner of Chicago will lecture. Dr. Bruner is a popular speaker and pupil teacher. His lectures are highly popular with hundreds of old soldiers and every Grand Army man will want to hear him. He is a member of Grand Lodge No. 144, of Chicago and also belongs to the Rock River Conference of the Methodist Episcopal church, Illinois.

Wood For Sale

All Kinds at Lowest Market Price. Prompt delivery, phone, Murray Kay.

For Sale

MISCELLANEOUS.
