IN THE CIRCUIT COURT OF THE STATE OF OREGON, FOR WASCO COUNTY.

NELLIE B. WEINSCHENCK, Plaintiff
versus
F. W. WEINSCHENCK, Defendant

To F. W. Weinschenck, defendant above named:

In the name of the state of Oregon: You are hereby required to appear and answer the complaint filed against you in the above entitled suit on or before six weeks from the 14th day of September, 1905, to wit, on or before the 26th day of October, 1905; and if you fail so to answer the plaintiff will take judgment and decree against you for want thereof, according to the prayer of said complaint, namely, that the bonds of matrimony now existing between plaintiff and defendant be forever dissolved, and that plaintiff be awarded the custody of the minor children mentioned in the complaint herein, and that she be allowed to resume her maiden name of Nellie Bialock, and for such other relief as to the court shall seem meet. This summons is served on you by publication thereof once each week for six consecutive weeks in the Hood River Glacier, a weekly newspaper published in the city of Hood River, in said Wasco county, Oregon, by virtue of an order made and entered herein on the 18th day of August, 1905, by Honorable W. L. Bradshaw, judge of sa d court. The date of said order is August 18, 1905, and the date of the first publication of this summons is September 14, 1905.
A. A. JAYNE,
o26 Attorney for Plaintiff.

SUMMONS.

IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR COUNTY OF WASCO:

JUDITH R. WELD, Plaintiff
versus
AUGUSTUS WELD, Defendant } Suit for Divorce

To Augustus Weld, the above named defendant:

In the name of the state of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled suit, within six weeks from the 16th day of September, 1905, said day being the first day of the publication of this summons, and if you fail so to answer, for want thereof the plaintiff will apply to the court for the relief demanded in her complaint aforesaid, filed in said cause, for to-wit: A decree of divorce dissolving the bonds of matrimony existing between the plaintiff and defendant in said cause, and for restoration of plaintiff's former name, and for her costs and disbursements in this suit.

This summons is published by virtue of an order of Honorable A. E. Lake, county judge of the county court of Wasco county state of Oregon, dated the 7th day of September, A. D. 1905, which order specifies and provides six weeks and seven insertions publication in the "Hood River Glacier" a weekly newspaper published weekly in said county and state, as the time and paper in which said summons shall be published.

Dated Hood River, Oregon, September 8, 1905.
JOHN LELAND HENDERSON,
o21 Attorney for Plaintiff.

NOTICE FOR PUBLICATION.

Department of the Interior, Land Office at The Dalles, Oregon, Sept. 12, 1905.

Notice is hereby given that the following-named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before Geo. T. Prather, United States commissioner at his office in Hood River, Oregon, on October 24, 1905, viz.:

ALFRED M. ROOP,

of Mosier, Oregon, on H. E. No. 7417, for the SE¼ SE¼ Sec. 3 and N½ NE¼ Sec. 10, Tp. 2 N., R. 11 E., W. M.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz.: Frank Ginger and Larkin Lamb, of Mosier, Oregon; Porter Saltzman and B. F. Shoemaker, of Hood River, Oregon.

21sep19 MICHAEL T. NOLAN, Register.

NOTICE FOR PUBLICATION.

United States Land Office, at The Dalles, Oregon, Aug. 31, 1905.

Notice is hereby given that the following-named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver, at The Dalles, Oregon, on October 11th, 1905, viz.:

NELSON O. BILLINGS,

of Hood River, Oregon, on H. E. No. 12946, for the NW¼ SW¼, SW¼ NW¼, and lots 7 and 8 of Section 3, Tp. 1 N., R. 11 E., W. M.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz.:

Lester Grene, Harry Kemp, Omar M. DeWitt and James Stranahan, all of Hood River, Oregon.

s7o5 MICHAEL T. NOLAN, Register.

IN THE COUNTY COURT OF THE STATE OF OREGON FOR WASCO COUNTY.

In the matter of the estate of Daves Divers, deceased. Citation.

To John Divers, James Divers, Newtown H. Divers, May D. Sellinger, Joel Divers (of Joseph Divers), William Divers, Julia Estey, Perry A. Divers, John Henry Divers, Lucy Divers, Cora Straight, Mrs. James English, and Beatrice English, and the Trustees of the Pine Grove M. E. church, heirs and devisees of Daves Divers, deceased, and all other unknown heirs, devisees and legatees of said deceased, greeting:

In the name of the state of Oregon; You are hereby cited and required to appear in the County Court of the state of Oregon for Wasco county, at the November term of said court, at the court room thereof, at Dalles City, in said county, on Monday, the 6th day of November, 1905, at 2 o'clock in the afternoon of that day, then and there to show cause, if any exist, why an order of sale should not be made of the real estate sought to be sold in accordance with the prayer of the petition of the executors, W. E. Neff and M. P. Neff heretofore filed in this cause, and which said real estate is situate in Wasco county, Oregon, and described as follows, to wit:

Commencing at the Northwest corner of the Northeast quarter of section 27, in Tp. 2 north, range 10 east of the Willamette meridian; running thence south 10.26 chains, thence east 14.63 chains; thence north 10.26 chains, thence west 14.63 chains to the point of beginning, containing 15 acres, more or less.

This citation is issued by order of the county court of Wasco county, Oregon, by Hon. A. E. Lake, county judge, entered on the 2nd day of October, 1905, and publication is made in "The Hood river Glacier," a newspaper of general circulation published weekly in said county and state, and publication is so made in compliance with the terms of said order for four successive weeks, the first publication of this citation the 2nd day of October, A. D. 1905.

Witnesses the Hon. A. E. Lake, judge of said county court, with the seal of said court affixed, this 2nd day of October, 1905.
SIMEON BOLTON,
oct5 nov2 Clerk.

NOTICE OF SALE OF BONDS.

Notice is hereby given that the Board of Directors of the Hood River Irrigation District in Wasco county, Oregon, will sell the bonds of said district in the sum of $60,000.00 on Tuesday, the 24th day of October, 1905, at the hour of 10 o'clock a. m., at the office of said Board of Directors at the residence of J. H. Shoemaker in said district, and that sealed proposals for said bonds will be received by said board at said place for the purchase of said bonds until the day and hour above mentioned, at which time, the board shall open the proposals and award the purchase of the bonds to the highest responsible bidder, the board reserving the right to reject any and all bids, bids to be accompanied by a certified check for 10 per cent of the amount of the bonds for which the bid is submitted.

Said bonds shall be payable in money of the United States, in 10 series, as follows, to wit: At the expiration of eleven years, five per cent of the whole number of said bonds; at the expiration of twelve years, six per cent; at the expiration of thirteen years, seven per cent; at the expiration of fourteen years, eight per cent; at the expiration of fifteen years, nine per cent; at the expiration of sixteen years, ten per cent; at the expiration of seventeen years, eleven per cent; at the expiration of eighteen years, thirteen per cent; at the expiration nineteen years, fifteen per cent; at the expiration of twenty years, sixteen per cent; and shall bear interest at the rate of six per cent per annum, payable semiannually, on the first day of January and July of each year. The principal and interest shall be payable at the place designated in the bonds and bidders are given the option of having said bonds payable at Portland in the state of Oregon, or in the city of New York in the state of New York, and said bonds will be issued in accordance with the election of the successful bidders. Said bonds shall be each of the denomination of not less than $100 and not more than $500 and shall be negotiable in form and coupons for the interest shall be attached to each and signed by the secretary.

Dated at Hood River, Oregon, this 19th day of September, 1905. J. H. SHOEMAKER,
s21 o26 Secretary.

Notice.

I will give $25 for the arrest and conviction of anyone who attempts to shoot any dogs or cattle belonging on my premises.
o26 E. H. SHEPARD.

ANNUAL MEETING DITCH COMPANY

BOARD OF DIRECTORS ELECTED

Large Attendance of the Stockholders —Secretary Nickelsen Makes Complete Report.

The annual meeting of the Farmers' Irrigating Co. held last Saturday in Artisans hall, was largely attended, there being 807 2-3 shares represented out of a total of 1612 3. A number of the speeches were not strictly to order, but they added interest to the session, and served to prove that water meetings are not always dry.

After Lee Morse had moved that the report of Secretary Nickelsen, as just read, should be adopted, A. Guigurd suggested that the books of the company should be audited, inasmuch as there has been sensations of late in matters of high finance in all parts of the land.

There was a willingness on behalf of the officers to have this done, and George Knowles moved to amend the motion of Mr. Morse, that the report be referred to a committee appointed by the chairman and if this committee after investigation concluded that the books of the company should be audited by an expert, they would have the power to secure the services of such an expert, and that his report be published in full.

The motion prevailed and Chairman Blowers named on this committee George Knowles, Lee Morse and A. Guigurd.

Lee Morse then suggested that July 1 was an inconvenient date for many of the water users to pay their rent, and he would have the date shifted to August 1, and permit those who cannot pay on time to to pay interest rather than have their water shut off.

Benson then had an extended story to relate of the difficulties encountered by him as manager last year, when the reorganized company undertook to bring order and a good ditch from chaos and a delapidated irrigating system.

A. C. Staten had a few words in reply, and suggested that Charles Reid be permitted to make an explanation of certain points of the controversy. Mr. Reid also stated that he did not consider the bridge over Hood River sufficiently strong to remain intact for another summer. It might last, said he, but the risk is great.

The following nominations were then made for members of the board of directors: A. S. Blowers, A. C. Staten, M. H. Nickelsen, C. D. Thompson, Fred Miller, Lee Morse, Charles Reed, J. W. Anderson, Ralph Ellis, A. Butts, R. Wallace, S. Cochran, E. N. Benson, A. Guigurd.

A number declined. Lee Morse and H. C. Batcham were named as tellers, and after a tedious count of the ballots, requiring nearly two hours, it was found that the following seven had received the highest number of votes and were duly declared elected members of the board of directors of the Farmers' Irrigating Co.

A. S. Blowers, M. H. Nickelsen, Fred Miller, Lee Morse, A. Butts, R. H. Wallace, A. C. Staten.

The vote on the various candidates was as follows: Blowers 784 2-3, Nickelsen 747, Thompson 522 2-3, Miller 693, Morse 781, Anderson 555, Guigurd 261 2-3, Butts 691 2-3, Wallace 572 3-3, Cochran 139 2-3, Benson 272, Staten 722 2-3.

The newly elected board met in the rooms of the Commercial club Monday afternoon and organized with the election of the following officers:

A. S. Blowers, president; R. H. Wallace, vice president; M. H. Nickelsen, secretary; Leslie Butler, treasurer; A. C. Staten, manager.

Secretary Nickelsen's report, covering the period between October 1, 1904, and October 7, 1905, showed the finances of the company to be as follows:

RECEIPTS

McDonald & Heinrich, mdse	60 95
C. N. Reed, powder	5 00
F. W. Mulkey, attorney's fee	150 00
S. A. Skinner, labor	1 00
R. Rodgers, labor	1 00
John Kelley, labor	1 00
F. H. Blagg, labor	16 00
R. Davis, labor	9 50
Wm. Nelson, labor	7 25
Joe Purser, labor	5 25
E. H. Hartwig, right of ways	6 50
G. T. Prather, hall rent	2 50
I. C. Nealeigh, damage	100 00
H. J. Cook	33 00
	$465 48

These bills were reported:

Directors' bill	$ 208 00
Ganger's salary	150 00
Oregon Lumber Co.	399 50
Overdraft	819 20
	$1,576 70
Bills of 1904, total	1,792 18
1904, Oct. 13, bills reported payable	$3,368 88
Collected	1,717 49
Balance to collect	$849 05

Bills paid of 1904	$1,792 18
Collected	1,717 49
Paid out over collection	$74 69

Total shares sold, 1488⅛.
About 80 inches has not been used.

At a business session of the directors Monday afternoon, Treasurer Butler submitted the following report:

DEBITS

Oct. 10, 1904—Debit balance to bank	$ 781 65
Paid out on checks	9,448 94
Paid interest on bonds	770 00
Paid interest on bonds	770 00
Paid note to Butler & Co.	3,000 00
Paid interest on note	141 75
Paid interest on debit bal. at bank	22 95
Total	$14,927 29
Oct. 5—Present debit balance	393 40

CREDITS

Received from payments on stock, interest on stock and maintainance fees	$11,593 89
Note to Butler & Co.	3,000 00
Balance	393 40
Total	$14,927 29

Itemized statements have been filed with the secretary monthly, from which I have taken the above totals.
LESLIE BUTLER, Treasurer.

LEAGUE MEETS NEXT JANUARY

The mid-winter meeting of the Oregon Development League will be held in Portland, January 13 and 14. President E. L. Smith and Secretary Tom Richardson conferred last week and decided this the best time for the convention.

It has been decided by the state Horticultural society to meet the two days previous to this, on the 11th and 12th. This should give members of the Development league an opportunity to see the Hood River fruit display at the meeting of the horticultural society, when prize cups will be given for the best exhibits.

It is the intention of the officers of the development League that the Oregon Press Association shall convene in business session at the same time as, the league. A special effort will be made to secure a large attendance of the newspaper men of the state.

PLEASED WITH LEAD ARSENATE

That J. W. Perkins, of Medford has met with splendid success in the use of the arsenate of lead spray for the codlin moth is attested by the following letter from Mr. Perkins to Mr. Smith:

"We used the arsenate of lead spray exclusively in our orchard for both pears and apples. The result was all we had hoped for. There are practically no worms—not one-half of one per cent., and the foliage of the trees was not injured the slightest. We will use no other spray for the codlin moth from now on."

The arsenate of lead spray was used by Mr. Perkins at the recommendation of Mr. Smith of Hood River who is correspondingly gratified at the success of the experiment.

The same spray has also proven a great success in Hood River. One or two of the orchardists got hold of an impure mixture and the foliage was burned, but wherever the proper mixture was used, there are very few worms in the orchards. Chris Detham used this spray as did Mr. Vanderbilt of the Beulah Land orchard, and wormy apples are a rare article in these orchards.

Mr. De ham sprayed but five times with the arsenate of lead spray, whereas he would have had to use the old spray eight or nine times to secure nearly as good results. Mr. Detham is well pleased with the experiment, as is Mr. Smith, who will recommend no other spray to the fruitgrowers of the state.

The Apple Growers union will endeavor hereafter to secure this spray in carload lots for their members.

Chris Detham who has made a thorough test of the arsentae of lead spray does not expect to have over two per cent. of wormy apples this fall, while one of his neighbors who used the old formula for the codlin moth finds a great many worms in the apples. Mr. Detham made five spray, whereas had he used the old spray it would have required eight or nine sprayings to secure nearly as good results. The cost of arsenate of lead is no more than other sprays.

Smashed 'Em a la Carrie Nation.

Stevenson Pioneer.

Carrie Nation in Cascade Locks—No it was only the foreman of the wrecking crew, engaged in removing the freight wreck, which was obstructing the moving of trains, who, when he found his men were deserting and drinking in one of the saloons resorted thither in Carrie Nation style and demolished the saloon furniture. The proprietor could not complain for he was doing the business in a dry town.

Wards Off Pneumonia.

All coughs, colds and pulmonary complaints that are curable are quickly cured by One minute Cough cure. Clears the phlegm, draws out inflamation and heals and soothes the affected parts, strengthens the lungs, wards off pneumonia. Harmless and pleasant to take. Sold by G. E. Williams.

BEST METHODS APPLE CULTURE

SHEPARD GIVES VALUABLE ADVICE

Various Processes Which Have Brought Success to Hood River Growers.

Hood River, Or., Oct. 17.—Editor Glacier: As there are a great many new people engaging in the fruit industry in the valley, it occurs to me that a few suggestions may be of value to them. While our growers very generally know not only all I may say in this article and many of them a great deal more, nevertheless there are quite a few who, with a little care could improve their work and save themselves a great many dollars.

Of course everyone who knows anything about the fruit business knows that thorough culture and spraying are absolutely necessary. I asked Professor VanDeman, for a long time the government pomologist, this question: "You have been all over the valley and have seen our spraying, thinning, pruning and cultivation; in which do we do the best and in which are we the most deficient?" He replied as follows: "Your cultivation is excellent; your spraying good; your thinning and your pruning are your two weakest points."

There are but few of us who properly thin. According to experienced people who have made practical tests and according to expert opinion of our experimental station men who make this business a study, apples should be thoroughly thinned. The general rule may be covered in one sentence: Apples should be thinned so that they do not hang closer together than four to six inches, and no two apples should touch.

In reference to spraying, I think I may be justified in saying that all those who have used the arsenate of lead, otherwise known as disparene, this year have secured better results than they had in the past with either the Paris green or the white arsenic; and, furthermore, I think I am justified in saying that those who have used the disparene have cleaner crops of apples than their neighbors who have used white arsenic this season. While I do not assume to be authority on spraying, it is my opinion from the practical tests made by Chris Detman that five sprayings, if properly applied and at the right time, are all that are necessary. However, the man who sprays every two weeks is certainly playing a safe game.

The most important spraying is when the blossoms just begin to fall, which should be followed with another spraying in about 10 days to two weeks. At this time it is necessary to apply a very high pressure in order that the poison may be forced into the blossom end of the apple for the reason that this is the point where the first brood begins its attack. Some people suggest the Bordeaux nozzle or Valmorce for this spraying, as you can secure more force than with a nozzle making the mist spray. For the latter spraying when the apples attain size it is necessary to thoroughly coat the apple, and the mist spray does this most perfectly.

There is one point to which I should have called the grower's attention, and that is the general rule that some people follow of spraying a tree until it drips. As I understand it, the proper idea is to spray a tree until the apples are thoroughly coated and to avoid the dripping. If too much spray is applied it collects in drops and the drops in forming pull the spray off from the surface of the apple surrounding the drop, leaving a part of the surface of the apple exposed. There is another feature in connection with spraying so as to form drops, and that is in reference to the red apple. This is especially true where considerable lime is used in the white arsenic spray. These drops form a thick chunk of spray matrial which prevents the sun from reaching the surface of the red apple, making the apple when wiped show light spots where a drop of spray has collected. Endeavor to thoroughly cover the apple, forming as few drops as possible.

There are three general styles of pruning, the vase shape, the crotch, and a training to a central shoot, all of which have advocates. The vase shape certainly makes a very pretty tree and I do not know of a prettier looking nine-year-old orchard than A. I. Mason's. The crotch shape does not seem to me to be a very desirable method for the reason that it necessitates props, and if a man does not get his props up when a tree is thoroughly loaded one-third or one-half of his tree may split down and spoil the tree. If you prune to a single shoot, running the braches out so as to hang down all around when you have a crop, should a limb break you will not lose half of your tree. The tree can be built up into what is known sometimes as the two and three-story tree. A tree should be branched as near the ground as possible and so as to permit cultivation.

The best part of a tree on which to grow apples is down near the ground for two reasons. In the first place you will have better apples and larger, and in the second place they will be easier to pick; and I might add a third reason and say that your trees are less likely to break down from the weight of the crop.

In reference to cultivation there is little to be said with regard to improving our condition, as we already do excellent work along this line. Usually our best cultivators use a disk or Cutaway in the spring, keeping up a dust mulch later in the season with either a Kimball or an Acme. By this method a man can conserve moisture so that it will not be necessary to irrigate until sometime later in July or possibly the first of August.

I am a firm believer in irrigation, at the same time I believe in as little irrigation as possible and am an earnest advocate of conserving moisture by cultivation. By this method a man will accomplish two things; he will force the roots down into the ground so that they will tap more soil and root his tree more firmly so that it is
