C. S. Smith writes to the Glacier from Minneapolis: "We are having a little winter weather here, as you will note from clipping from this morning's Minneapolis Tribune, which I enclose. This is only a tendency to make one want to seek a warmer climate, and I trust I may be able to see your section of the country before spring, and should it equal all you claim it is, may locate there." The clipping referred to states that over five inches of snow fell Sunday, Oct. 29.

Although the Light & Power company has offered a reward of $200 and has been diligently searching for evidence against the vandals who interfered with the working of the electric light service Hallowe'en night, it has found no clue to the perpetrators of this dangerous act. It is to be hoped, however that they will be apprehended and brought to book as a warning to those who might in the future try this trick again.

Manager Shepard of the Fruit Growers Union, has been having some experiments made during the past week toward improving the already excellent method of packing apples as practiced in the Hood River Valley. It is found that by placing the paper on the apples so as to allow the unused part to come on the bottom of the fruit it forms a pad, thus almost eliminating any possibility of bruising.

W. B. Cole was in from Trout Lake Friday on his way to Portland. Roman Rosso, an Italian employed on the construction of the Mount Hood Railroad, is the proud father of twin boys, born since the last issue of this paper. We are pleased to note that Mrs. Rosso and children are doing as well as could be expected. It is suggested that one of the infants be named Spitzenburg and the other Newtown, but whether the dusky son of Italy will entertain this suggestion is of course a matter of conjecture.

The Glacier is the recipient of a curiosity made with a jack knife in the hand of W. A. Jones, of Wheeler, Porter county, Ind., and left at this office by Charles Waters of White Salmon. Mr. Jones is visiting his brother-in-law, Dr. Swartz, at White Salmon, is a retired farmer, and took up this interesting work about four years ago as a pastime.

E. G. Jones, of Appleton, Wis., is spending a few days in town. He formerly lived at Hood River and has not been here in 13 years.
