

ODELL MANY REAL ESTATE TRANSACTIONS MADE

By Roswell Shelley. Odell, East Hood River Valley, Nov. 29.—Buyers and sellers are getting together at Odell lately. The following real estate transactions are reported in the last few days. Mrs. Hattie E. Crockett sold 40 acres. Geo. T. Frather, 20. John Kroger, 10. Mrs. H. M. Fook, one. Some of the purchasers are unknown to the writer but the sales mean that the land will be improved and an increase in the population of this section. We have already said and repeat again that Odell is an inducement to offer the home seeker in the quality of the soil, the abundance of natural water, the protection from the heavy winds and on account of its wonderful scenic beauty, and still there are bargains. The writer of these notes now offers a snap. The very best bargain in the Valley consisting of 40 acres, good improvements, 700 trees almost ready to bear, 15 acres cultivated with 40 more ready for the plow. Situated one mile south of Odell on the Mount Hood road. For price and terms see the Little White Store.

Also 40 acres one half mile east of the Pine Grove school house with new \$700 cottage. Price, \$125 per acre. The Friday evening literary promenade to be the attraction along the line of winter entertainment. Last Friday evening the house was crowded and there was something doing. Even the critic found a job. The question box should prove an interesting feature. But it is my opinion that to get benefit from a question box, the questions should be given out a week in advance. Then questions of vital interest should be discussed and the public benefited.

One day last week business called me to the home of John Kroger. Mr. Kroger is an old timer here and of course picked a nice location and to day has one of the nicest homesteads in this section. The homestead is a luxury, overlooking the valley adjacent to Odell and enclosed with evergreen hills. Most of the year's of John's residence here were spent alone on the ranch but Mrs. Kroger who has only been here about three years is very content with her lot in their comfortable country home. Many changes have been wrought during the years of the residence of these pioneers but now modern civilization is upon them and with the advantages of the telephone, the rural delivery of mails and the near approach of the rail road at their door. The fellow with the country home in the land of the big red apple is a king. Mr. Kroger has a desirable and valuable place. We do not envy these sturdy pioneers but rather congratulate them upon their comfortable lot in life.

Messrs. Smith and Wood of Wood & Smith Bros., grocers of Hood River were out here last Sunday afternoon at Odell. This was Mr. Smith's first look at Odell and he was pleased with the location.

Last week the Glacier had a want ad, a neighbor of ours wanting a second hand back. Within one hour after the Glacier found its way into the mail box of another neighbor, he was at the Little White Store to sell the back. The purchase was soon made and the deal closed. It pays to advertise. These are strenuous days for the writer. All the day light hours are employed and there comes times in the life of a correspondent when he would almost as soon submit himself to the whipping post law as to drum up items that are worthy of space in a valuable paper like the Glacier. The Odell correspondent has for more than three years hustled up the happenings and placed them in cold type and oftentimes under circumstances so discouraging that in matters of his own he would have balked. We have often requested aid in the matter of keeping Odell to the front by our neighbors and just as often have we been disappointed. Many things are happening that are worthy of notice all the while. So I say again help us out. Keep Odell to the front. We will soon have a railroad and a free bus to the Odell. Who will be the proprietor? There is one of the four corners of Odell left which would prove a desirable site for a hotel and food stable. Better get in on the ground floor. A hint to the wise is sufficient.

BARRETT. The Stranahan boys were busy picking apples last week at C. E. Marklams. Suppose C. E. has a nice crop of apples this year. Howard Shoemaker, with his force of men and stump puller, is clearing up a piece of land for his Pa. We are informed that Howard is doing fine work. You of course the boys can do good work. Another new house going up on Rockford avenue. Only a little while and we will have electric lights in our suburbs. Thomas Goss on Methodist Lane, is building a nest fire place in his new house. Suppose the fir knots will soon be burning to give warmth and comfort to father and daughter when snow is flying. C. True has been a busy man during the past week hauling lumber from the planer for the new house on Rockford avenue. F. Davenport, sr., was seen flying through our streets one day last week on a gray horse. We wonder if there was a fire somewhere. G. Camp bought a new truck wagon last week. Rolly Phelps bought the second hand truck of George. Now Rolly wants to sell his light wagon and says he will sell it cheap for cash. Thomas Sheare swapped horses last week. Tom gave \$10 and his evening shadow for a young cayuse of a dandy grey, russet color. This horse cannot get lost because he is of no regular color. Your correspondent received a letter from Supt. Gardner of the Boys' and Girls' Aid society, Portland, reminding us that the day of Thanksgiving was near and suggested that your correspondent solicit the near neighbors to see if they would contribute something for the Aid society. Am pleased to say that the effort was not in vain.

We called on the following who willingly contributed: J. J. Gibbons, box apples; L. Dart, sack spuds; Mrs. E. Ingalls, sack spuds and can fruit; Rockford, sack spuds and can fruit; Stranahan Bros., box apples; D. B. Labbe, sack onions; E. M. Camp, sack vegetables; A. J. Emerson, fruit; Mrs. A. Howe, sack spuds, box apples and can fruit. We desire to thank these kind friends of the little ones, and let us ever remember that your gifts will make many little hearts glad, for the Master said: "Inasmuch as ye have done it unto me, ye have done it unto me." Rockford has apple paper, both wrapping and lining. You can get any quantity, no matter how small the order.

We heard of a man leaving a pair of pants by the roadside. Do not know whether he had too much pants on or whether he got scared and the pants became so heavy as to impede his flight, but accidents will happen in the Crapper district. Charley and George Camp left on Sunday for Leoni, where they have a contract to load several cars with four-foot wood. Those boys will be back here if there is any to be had in the country.

Report of Barrett school for month ending November 24, 1905: Number of days taught, 20; number of days' attendance, 2819 1/2; number of days' absence, 104 1/2; number of times tardy, 7; percentage of attendance, 93.40; punctuality, 92.72; average, 98.18; total enrollment for term, 163; enrollment for month, 152; average daily attendance, 141. C. D. Thompson, principal.

MOUNT HOOD. The directors of school district No. 6 met last Saturday night and decided to have a special school meeting the second Saturday in December to vote a special tax. W. S. Gribble had the misfortune of spilling a can of cream as he was on the road to town last week. W. B. Davidson has taken the contract of clearing five acres for R. J. McIsaac on the west side. E. W. Gribble, Charlie Davidson and Mr. Hood are having some land surveyed so they can build some fences and make other improvements that go to show they have faith in the Upper valley. G. C. Roff has let a contract for grubbing about 20 acres at \$30 an acre. He is another who has great faith in the prospects of the near future.

Miss Wigle, who has been staying at the home of T. H. Larwood for some time is now keeping old maid's hall with Miss Nan Cooper on Miss Cooper's homestead. O. Fredenburg hauled 250 or 300 boxes of apples for H. F. Davidson this week. It snowed Monday night enough to cover the ground just a little more and the young folk can coast down hill these long winter nights to pass away the merriest part of life. R. N. Gribble has purchased 20 acres from his brother, E. W. **GILMER.** Mr. Hottman's little son Johnnie was taken with croup Monday night and

was very sick. They phoned for his father to come home; he was working at White Salmon on his horse, and he brought some medicine from the doctor and the child is better now. C. M. Douglas went to Portland Monday, returning Friday. J. L. Hottman has his house finished and will move to White Salmon for the winter next week. Miss Lida Williams of Huum is improving slowly from her sickness of November. Mr. and Mrs. Shean have gone to spend the winter with their son at Goldendale since, the loss of their daughter Nellie. Mr. Thomas Hansen had a fine driving horse hurt by getting his leg broken while in the pasture up at Glenwood, on Mr. Thealing's place. Preacher Brown of Gilmer has been holding protracted meetings at Glenwood.

ORDINANCES ARE AGAIN PASSED An adjourned meeting of the Common Council was held Monday evening to reconsider the ordinance passed by that body recently giving it power to make assessments for the proposed sewer. Council was called to order by Mr. Land, Mayor Hottman being absent. Messrs. Bailey, Moss, Early, McDonald, Mayes and Nickelsen were present. Mr. Early moved that the report of the sewer committee accepted Nov. 20 be reconsidered as there were some corrections to make in it. Carried. He then read the corrections which were accepted by council and the report of the sewer committee as amended was put on its final passage, and carried by a unanimous vote. Mr. Early then moved to amend the ordinance as passed Nov. 20 to conform to the report of the sewer committee. Carried. Mr. McDonald moved that the ordinance be put on its final passage and there being no objection, the roll was called each member voting "aye."

BY THE WAY A man always sympathizes with a homely boy. Sound judgment is responsible for a lot of silences. Enthusiasm always starts off well, but always starts a leak. When a man becomes too shiftless to give advice he has reached the limit. Most people meander down the path of life and never realize their unimportance. A doctor is found to lose a few patients occasionally, but that's because they refuse to do as he tells them.—Chicago News. Prince Louis of Battenburg spent 12 hours with a New York dentist, who filled four teeth and put in an artificial one, and charged the price \$1000. Theodore Roosevelt, jr., had his nose broken six weeks since during a boxing match, and November 25 was carried disabled from the Yale football field. The postal deficit for the year ending June 30, 1905, was \$14,572,584. The pneumatic tube service will receive special attention during the extension and development of the service during the next two years. In a free-for-all fight in a Butte saloon unknown parties fatally stabbed John Black, a stranger Black, during the early stages of the mix-up had licked four men bareheaded. He was a multiple roustabout from the lower Mississippi. For the fourth time in two years the Maple Leaf saloon at Van Asselt, Wash., has been held up. At one previous holdup a jockey named Smith killed the robber, who was never identified. At another holdup a robber killed the Australian patron of the saloon, named De Smith. John F. Logan, a Portland attorney, undertook to locate the heirs of John Burns, a Hoquiam, Wash., 1-gger, who left a fortune. Among the heirs was "Kate Burns, a public school teacher in Chicago." Investigation disclosed that the executor of the will of Burns, the late court-say is all the more marked on that account.—Astoria News-Herald.

MAKES WEAK WOMEN STRONG AND SICK WOMEN WELL Forty years ago, Dr. Pierce searched Nature's laboratory for a remedy with which to supplant the ignorant and vicious methods of treatment, with alcoholic stimulants, then in vogue, and still so commonly prescribed, and advised for woman's peculiar ailments. Nature abounds with most efficient remedies, and in Lady's Slipper root, Black Cohosh root, Golden Seal root, Dr. Pierce found medicinal properties, which when extracted and preserved by the use of chemical pure glycerine, have proven most potent in making weak women strong and sick women well. It contains no alcohol, no opium, no patent medicine, nor a secret on either. "I was suffering with nervous headache, pains in the back and dizziness, so that at times I had to lie down for hours before I could raise my head," writes Mrs. Mary M. Thomas, of 317 Winston Street, Los Angeles, Cal., who writes: "I first used a bottle of Dr. Pierce's Prescription, and I was so pleased with the results, that I bought a second until I was restored to health and strength. I shall never be without this great medicine, and shall take a few doses when I do not feel strong." One of the principal uses of Dr. Pierce's Prescription is the treatment of prospective mothers for the time of trial and danger that comes when a child is born. The "Prescription" is strengthening and invigorating and lessens pain and danger. It insures the perfect health of both mother and child. Every woman should know these things before she really needs to know them. There are many things in Dr. Pierce's Common Sense Medical Adviser, that every woman ought to know. This celebrated work reached a sale of 65,000 copies at \$1.50 each. The expense of production having thus been covered, it is now being given away. A copy will be sent to any address on receipt of 21 one-cent stamps to cover cost of mailing only, or in cloth binding for 51 stamps. Address Dr. R. V. Pierce, Buffalo, N. Trout for Lost Lake. Some time ago Robert Leasure of Mount Hood sent a communication to U. S. Fish Commissioner Bowers at Washington, asking him for a shipment of trout with which to stock local waters. A few days ago he received word from the commissioner that his request would be granted and that the trout would be shipped in the spring. They will be of the rainbow variety and will be placed in Lost Lake. **Elected Officers.** The Gold Run Mining company held its annual meeting last week at Vancouver and elected the following officers: S. Theory and Practice. "Yes," said the man in the waiting room at the station, "above all other qualities I admire honesty. Your clever man is more often unscrupulous than not. Deeds of daring are invariably prompted by a lucky impulse and the thirst for fame, while your brave man is never without his share of conceit, Philanthropy and pomposity, too, should in many cases be spelled the same way. No, my friend, there is nothing that will stand the rough wear and tear of this life like honesty, and my constant watchword to my little sons here is, 'Be honest, and you can snap your fingers at the world and its verdict.'" Then he went to the booking office and procured two half tickets for the little sons (aged sixteen and seventeen respectively). **Warned.** "She told me that I might hope." "Better look out!
