Hood River Apples in England.

A private letter to A. L. Mason from a customer in England says that they are "watching for the reappearance of the celebrated Hood River apples, and glad to have them again." He states that the crop in England this year is very poor, and that our Yellow Newtowns are now quoted at from \$5 to \$7 a box.
Mr. Mason sent him a double or twin apple last year, and he now has a note or two out of your paper as regards packing and handling fruit. The way you send your soft fruit, berries, etc., into mine and other cities, must continue to be the best in the world. The English fruit often arrives in worse condition after 100 miles journey than does your fruit after traveling half around the world. Hope the Apple Growers' Union continues to prosper.

The Cambridge, Ohio, Gazette, says Chas. Davidson, offers one year's subscription free to the person who brings the largest ear of corn to that

office, of this year's crop. The "Bad Deacon" Davidson says that that is a scheme of the editor to get enough corn brought to his office to fatten his next year's pork. He says Editor Bell knows the delinquent list will be large next year, for the Baptists and Methodists joined hands with the good old whiskey democracy and elected a governor there this year. When he belonged to the party, the "Deacon" says, the campaign cry was "much corn, much whiskey; much whiskey, many democrats, and lots of offices. 'How the world do move,' adds the "Deacon."

Home Team Defeated.
The Hood River football team left here last Sunday morning for Carson where they played the team of that town. The party went by the steamboat Major on which they had secured transportation and were accompanied by quite a number of admirers of the game from this city.
The game was played in two halves of 30 and 25 minutes each, the usual intermission of ten minutes.
The team at Carson put up a pretty good game and are all big men.
On five bucks the home team had the best of it and the score should have been a tip, if the Carson team scoring five points on a fumble which was allowed them by an umpire who did not understand the game.
The play was hard and fast and at the end of the game both eleven were played out. The final score was 10 to 5 in favor of Carson.

HOOD RIVER WILL HAVE NEW HOSPITAL.
The Cottage Hospital association has bought the large residence erected by S. H. Cox some time ago and it is the intention to transform it into a modern up-to-date hospital.
The association secured the property from Mr. Offield through the agency of Chas. Dano. Mr. Offield is a resident of Washington, living about 30 miles from Lewiston across the Idaho state line and bought the property originally as an investment.
The new hospital management will remodel the interior of the building slightly in order to make it conform to the needs of an institution of this character. A laundry will be established in the large basement, where the kitchen will also be placed. On the first floor will be the offices and reception rooms. The operating room will occupy the front room of the second floor which will likewise contain a ward for patients. On the third floor the nurses and help in the hospital will have quarters. There will also be some rooms in the new hospital for private patients if they desire them.
The building is admirably adapted to this purpose and can easily be made into a hospital that will be adequate to the needs of this city for some time to come. The back of the building commands a fine view of the Columbia river and the mountains in the background and there are two verandas located there on which patients could while away their enforced idleness very comfortably.
The building is at present partly furnished and it is understood that the purchase included the furniture. It is now partly occupied, Mr. and Mrs. Otten having rooms on the first floor.
