> Tomorrow Evening's Lecture. From the Tyamnite we take the ollowing item r garding Frank Bru-

ner, who is to lecture here December is at the opera house:

Advocated by Supt. Neff and Prof. Wiley-Would be Economical and Bring Desirable Residents

w. M. KATIE NIERMAN

of Totalatin, county of Washington, state of corgon, avery stateseast No. Sex field September 18, 18, 20 of Pertiand, county of Multinomals, attact of the meeting was to elect seven the state of the service of

in the state, would many times com-pensate the taxpayers for any outlay of money spent this way.

There is probably no way to attract 3881.00 the Letter class of citizens to a town or city than through its schools. 716.55 There is no question more near to the heart of every good American citizen than the education of his children. A ine school for the higher grades, coupled with the many other attractions and advantages of the Hood River valley would be the means of bringing the most desirable class of residents that could be had to this section of country.

35.00 section of country. In discussing the matter Prof. Wi-

ley says: "Believing much of the success in 7.70 Relieving much of the success in fruit and berry raising in Hood River 6.00 valley to be due to the eagerness with which our people in general seem to which our people in general seem to which our people in general seem to seek after the very best methods and the persistency with which our local papers keep the people reminded of our advantages and the successful sale of our fruits, I am prompted to n-k space to present some thoughts our the school outlook.

"We all know how well and favor-able know he our value for the for-

ably known is our valley for the fer-tility of soil, the abundance of fruit 53.55

We are as particularly favored with regard to educational advantages if

8716.55 we but rise to the occasion.

*We have no less than five districts,

\$ 10.65 triyng as best we can to keep our

5.76 boys and girls at home and give them

5.76 a High school education. Wouldn't 45.00 it be a wiser plan instead of building e271.11 con to our crowded buildings to make room for one or two high school grades, taught by an over worked principal, to unite and build one large, modern, uptodate High School building and employ none but specialists as teachers?

cinlists as teachers?
"Superintendent Ackerman has repeatedly said in different parts of the state that no section in the whole state presents so many conditions fa-vorable to consolidation of school districts as Hood River valley. The dis-tricts adjoining Newberg have consol-idated and bring the children to school in large covered wagons at the expense of the district. Can we not choose a location for a high school and provide some means of transportation? Why are not our boys and girls entitled to just as good advantages and opportunities as the boys and girls in Portland or anywhere else? Let's have one school board, one city or valley superintendent, (and when Cascade county is organized in January 1907, make the county and the valley superintendent one and the same office) and one central high school. This suggestion has been heartily endorsed by Superintendent Ackerman, Superintendent Neff, Superintendent Landers and all other educators to whom it has been presented as "The Ideal Condition."
"We would be surpassed by no schools in the state not area. Portland for in the state, not even Portland, for we would expect to have some strictly first class superintendent of a wide

and successful experience equal to our best city superintendents. "Our present consolidation law, to my mind, provides for just what we need. If the consolidation plan doesn't suit everybody's idea then let's have a valley high school estab-lished by popular vote and maintained by the valley taxpayers just as the five county high schools of the state are

now maintained.
"This is not a plea to get a fine new high school building for the Hood River city schools, have the valley pay for it and assume our present in-debtedness. We will pay our indebt-edness as fast as the bonds are due, Clarges of Descrition Corrected,
Claims of all kinds taken against the
United States and prescrited, at flood River every fourth Saturday
in each month.
