O. A. Knox is reported to be night watch at the Mount Hood Mill company's yards again this winter.

The school teachers have got settled in their winter quarters and are prepared to receive callers. The teachers rented the mill company's office for this winter so they would be close to school when the deep snow comes.

Basket ball is all the go with the young folks these days. The girls play on Friday nights and the boys on Saturday nights. At the regular meeting they moved to have some of the rules read aloud, which was done by W. B. Davidson; then they said to play according to the rules.

HOME BASKET BALL
TEAM BEATS DALLES

The High School basket ball team went to The Dalles Friday and administered a drubbing to the High School team there, to the tune of 20 to 7. The game was played before a large audience at Baldwin's opera house, and the brilliant play of the Hood River team caused the spectators to applaud them loudly. The following is an account of the game, taken from The Dalles Chronicle:

The first half was evenly contested, The Dalles having a shade the better of the argument. Fouls were numerous and personalities many. When time was called at the close of the first half the score stood 4 to 4, and the local rooters expected the high school to deliver up the goods in the last half, but they failed miserably.

When the second half opened the superior team work of the visitors began to have a telling effect. No one could tell just how it happened, but the fact remains that it did happen, and when the locals came out of their trance Hood River had annexed 16 additional points.

The basket throwing of Baker was phenomenal, while Conrow and Young did the best work for the locals.

Near the end of the game the High school boys by a brilliant spurt added three points and time after time the ball balanced on the edge of the basket, but always tipped the wrong way. The god of fortune seemed to have the strategy pickers under his especial protection.

The best of good feeling prevailed throughout the game. The conduct of the Hood River boys was gentlemanly in every respect and the local boys say they were defeated fairly.
