### NEW STATION MAY BE LOCATED AT BINGEN

The controversy which has been on between the towns of White Salmon, Bingen and Underwood as to where the new railroad station would be located is said to have been settled by the selection of Bingen as the chosen place. Theo. Sukudoff, who was recently in Hood River on the neighboring town and that part of the right of way bought from him including a strip 500 feet wide. This with the 100-foot purchase of 1000 feet of the same width from Judge Byrk it would indicate pretty conclusively that it is the intention of the company to locate the station at Bingen. It is said by parties who claim to know that long siding will be constructed at this point and that it is also the intention of the company to erect repair shops there. The people of White Salmon have not given up the struggle yet, however, and think that the railroad company will make some provision for them. It is hoped that a station will be made at Underwood so that they will be enabled to ship their apples and berries from that point instead of having to haul them over the long steep road to Bingen. It is thought that the new road may establish a flag station at Underwood. The prices, received for the land taken by the new road, have been satisfactory. One man who disposed of three quarters of an acre is said to have received \$2,300 for it, and others are said to be getting in the vicinity of \$1,000 an acre for their strawberry lands.

### Arsenate of Lead Spray.

The Union has obtained the exclusive agency for this spray for Hood River valley, and consequently can save the growers from 2 to 3 cents per pound. It cost last year 10 and 17 cents. The Union will furnish it this year at 14 cents per pound, but in order to do this we must get the orders early, so as to order in bulk. We are now figuring on a carload. Growers are requested to fill in the postal card orders which have been mailed, or call at the office and order. The Union desires to say that readers from all growers will receive the same prompt attention. It is not necessary to be a member of the Union in order to get the price of 14 cents per pound. We want to save all the money we can for the growers of Hood River valley.

### HOOD RIVER MAY GET NEW INDUSTRY

Hood River may have a vinegar factory. A representative of Jones Bros., of Louisville, Ky., was recently here looking over the ground with the intention of locating such a plant here. Jones Bros. claim to be the largest manufacturers of vinegar in the world. The company is a wealthy one, but in order to insure the success of the enterprise here they would like to have the residents of Hood River and the valley take stock in the enterprise. It is the intention of the new concern to utilize the cull strawberries and apples for the manufacture of vinegar and if the citizens show a disposition to render aid there is no doubt that the factory will be built. Another feature of the business would be the making and the bottling of refined cider. There is a good demand for this at all seasons of the year and it can be kept indefinitely. There is also a good profit in it. While there was not enough cull apples thither to have supplied a factory of this character, the increased number of orchards which will come into bearing next year and the many new orchards which are being planted will add their quota of cull apples from year to year and the establishing of a vinegar factory here will make a market for these otherwise unmarketable products. By utilizing the apples in the fall and the strawberries in the spring it is thought that the plant can be kept in operation almost the year around. Hoist Masquerade a Success. The masquerade dance given by Professor and Mrs. Hoist last Friday evening was a decided success. It was well attended and all report an enjoyable evening. At 12 o'clock the merry party unmasked and it is needless to say that there were many surprises. The first prize for ladies was won by Miss Bess Insberg, who represented a Spanish dancing girl; the second prize was taken by Miss Mamie Bowen, representing the Oregon Journal. The first prize for gentlemen was given to J. H. DeBorde as the best dressed man on the floor, and C. B. Schiffer captured the second prize in costume of a Zulu. Basket Ball Dec. 29. A game of Basket ball has been arranged between the Hood River team and the Dalles team, and will be played at the gymnasium, Friday evening, Dec. 29. Increases Its Accommodation. Manager Gilbert of the Mount Hood Hotel, has leased six rooms in the Davidson block and will fit them up to be used as sleeping rooms in connection with the hotel. The rooms are steam heated and supplied with other conveniences and will be quite an addition to the hotel in its overcrowded condition.
