

JONATHAN BOURNE, Jr.

Republican Candidate for United States Senator.

CHAMPION OF STATEMENT ONE.

Jonathan Bourne, Jr., candidate before the Republican primaries for the nomination of United States Senator in Congress, for the long term commencing March 4th, 1907, was born in New Bedford, Mass., February 23d, 1855; was a member of the class of 1877 at Harvard University; came to Portland May 16th, 1878; was a Republican member of the Oregon Legislature in the session of 1885 and the extra session of 1886; was one of Oregon's delegates to the Republican National Convention of 1888 and Oregon's member of the Republican National Committee from 1888 to 1892, and a delegate to the Republican National Convention of 1892; and was elected as a Mitchell Republican to the Oregon Legislature in 1896.

Mr. Bourne has been more prominently identified with the development of the mineral resources of Oregon than any other man in the state, having expended in the last twenty years over \$1,000,000 of his own money in the acquisition and development of Oregon mines.

While Mr. Bourne has had his residence and main office at Portland since 1878, he has had another office at New Bedford, Mass., and has carried on the business of his father's estate since 1889, which makes him familiar with many of the large interests and leading men of the East. These qualifications, in conjunction with his tremendous energy, originality, executive ability and experience in business and political affairs pre-eminently qualify him for making an able and influential Senator for the State of Oregon.

Mr. Bourne has always favored extending the direct power of the people over their government as far as possible. He was one of the leading spirits in the Initiative and Referendum movement from 1896 until it was approved by the voters at the June election in 1902. In 1904 he was a member of the executive committee of the Direct Primary Nominations League, and holds the same position with the People's Power League at this time. In all these movements he has been one of the few to guarantee the necessary expenses of preparing and proposing their measures to the people.

He says that the choice of United States Senator should be by direct vote of the people, and that the Legislature should be compelled to elect the man the people select. To accomplish this result, he is championing Statement No. 1 of the primary elections law as the only method by which public opinion may be crystallized and made effective upon the Legislature.

In his petition for nomination he says:

"If I am nominated and elected I will, during my term of office, favor:

- Republican Politics.
 - Amending National Constitution for People's Election of United States Senators.
 - Publicity Political Campaign Expenses.
 - National Control of Corporations in Interstate Commerce.
 - Rigid Exclusion of Asiatic Coolie Labor; Good Wages make Good Citizens.
 - Legal Limitations Labor Hours for Safty on Railroads.
 - Parcels Post, including Rural Delivery.
 - Pure Food Laws.
 - Liberal Appropriations for Panama Canal, Coast Defenses, River and Harbor Improvements, including Columbia and Willamette Rivers, Coos, Yaquina and other Oregon Harbors, Celilo Canal, Government Canal at Oregon City.
 - Fair Share of Irrigation Fund for Oregon.
 - Loyal Support for Successful Candidates.
 - Rigid Enforcement Statement One.
 - Roosevelt for Second Elective Term.
- I desire that the following statement be printed after my name on the nominating ballot:

I WILL SUPPORT PRESIDENT ROOSEVELT'S DETERMINATION THAT JUSTICE BE DONE ALL MEN.

Is the The Acknowledged Standard.

The Hood River apple seems to be the acknowledged standard of perfection. From all sections of the country where apples are grown an effort is being made to raise fruit that will measure up to the Hood River standard of quality. Whether this can be done remains to be seen. While the same method may be pursued, we do not think that other sections have the soil which gives to the Hood River fruit its great keeping qualities. The latest to be heard from is Clackamas county at which the Silver Lake Oregonian says:

"There will come a time when the famous apples of Hood River will find a close rival in the apples of Clackamas county. And why not? The soil and conditions in Eastern Clackamas county are pronounced to be as good as Hood River's for apple raising. The great trouble with this part of the country is that it has been isolated until now, and the next few years will see a great many experiments in raising fruit which will prove beyond doubt the superior adaptation of this section of apple culture."

Property Here Good Investment.

E. A. Schiffer, the well known tailor, has purchased city property in Hood River, adjoining some property he has owned for some time in that city. He believes Hood River will become one of the most prosperous and thriving little towns in Oregon in time. Property is advancing in price and new settlers are going into the country every week. Mr. Schiffer's son, C. B. Schiffer, is in the tailoring business at that place.—East Oregonian.

No More Rabbitville.

Editor A. Bennett announces his retirement from the Irrigon Irrigator. The Irrigator without the Sage of Rabbitville reminds one of Shakespeare's greatest tragedy with Hamlet left out.—Newberg Graphic.

Killed Fruit Pests.

While the cold weather has apparently done no harm in this section, Eastern Oregon was not so fortunate early fruits were hurt there but a dispatch from Walla Walla says: "The recent cold weather proved beneficial to the fruitgrowers, notwithstanding much of the early fruit was killed. An examination of the trees in the fruit belt reveals the fact that the San Jose scale was killed. Nearly every orchard in the valley was slightly affected with the scale before the freeze came, and orchardists were preparing to do an immense amount of spraying. This will not be necessary now, as there is no sign of the pest anywhere."

A Rare Event.

A very interesting event occurred at the home of Thomas Goss, near Belmont, on March 21. The occasion was the marriage of three couples, three of the contracting parties of which were from one family.

The names of the parties were, George M. Eddle and May B. Goss, Gustave A. Jacroux and M. Ethel Goss, and George C. Goss and Myrtle A. Brown. The officiating ministers were Rev. Brown and Elder L. G. Dix. Mr. Brown is the father of Mrs. George B. Goss. The guests were Rev. Brown, Mr. and Mrs. Barney, Mr. and Mrs. L. G. Dix, Mr. Skinner, Mr. Harvey Rude, Miss Lulu Dix, and Miss Grace Upton. Their many friends wish them a long and happy life.

To the Voters of Baldwin Precinct.

The registration books for Baldwin precinct are now open. I will be pleased to register you at any time at Gribble's store. O. Fredenburg, Notary Public.

Pigeon Shoot.

Every Sunday afternoon near Regulator boat landing. Ten bird matches 50 cents. Everything furnished and everybody invited.

WHAT OUR EXCHANGES SAY ABOUT E. L. SMITH

E. L. Smith of Hood River has announced his candidacy for the nomination of U. S. Senator on the Republican ticket. Mr. Smith is one of the strongest men the party could put up, and would well represent Oregon in Congress.—Antelope Herald.

Hon. E. L. Smith, of Hood River, has decided not to enter the race for gubernatorial honors, but instead, has surprised his legion of friends throughout the state by announcing himself a candidate for United States Senator. Mr. Smith possesses those qualifications which would make Oregon an ideal representative in the upper house of Congress.—Wheeler County News.

Hon. E. L. Smith, of Hood River, who has been honored by his friends for the Republican nomination for governor, has formally announced his candidacy for the United States Senate. The announcement comes as a great surprise, as Mr. Smith has been urged by his friends all over the state to enter the race for the nomination for governor and it was not generally known that he had aspirations for the Senatorship.

Mr. Smith cast his maiden vote for Abraham Lincoln in 1860, since which time he has been a staunch Republican, belonging to the stalwart wing of the party in this state. He is prominent in the industrial organizations of the state, being chairman of the state board of Horticulture and president of the Northwest Fruit Growers' Association and the Oregon Development League. He has also been very prominent in the politics of this state, and he was Speaker of the House in the Legislature of 1889.—Madras Pioneer.

A. Bennett Nominated.

The directors of the Irrigon Fruit Co. have presented the name of A. Bennett of Irrigon for president of the Oregon Development League. The vacancy is caused by reason of the resignation of former president Hon. E. L. Smith, of Hood River. Mr. Bennett is absent from the city and could not be seen in regard to the matter, but the fruit company nevertheless feel justified in presenting his name. He is now, by reason of his untiring energies in behalf of the league, its first vice president. We do not know of another man in the state who has given more of his time and energies to boost this organization. The directors of the Irrigon Fruit Co. feel that it would be a great help to the community at large and a direct service to the development league and state should we succeed in electing A. Bennett to this office.

A year or so ago the Oregon Development League had a vice president in nearly every city and village in the state. Because of their untiring efforts a few have been retained, and the great bulk of names dropped, until now A. Bennett, S. H. Friendly, Geo. T. Baldwin, Dr. J. S. McCormick and B. F. Mulkey, in the order named, make up the list of vice-presidents. If out of all that were originally chosen Mr. Bennett stands at the very head by reason of good service rendered, would be the best choice for president. The Irrigon Fruit Co. in nominating him, thinks he would be irrigator.

Climatic Cures.

The influence of climatic conditions in the cure of consumption is very much overrated. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectation in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles, 25c; regular size, 75c. For sale by C. N. Clarke, druggist.

Will Stay in Hood River.

The remedy that makes you eat, sleep and grow strong, called Palmo Tablets, will be sold regularly by Williams' Pharmacy, Hood River. These great nerve and constitution builders cost only 50c per box, six boxes \$2.50.

Is a Strong Candidate.

The candidacy of Wm. J. Clark for state printer is to be a meeting with considerable success. He is said to be a strong candidate throughout the state and an exchange says of him: "Mr. Clark is one of the oldest printers in the State and one of the best known country editors in Oregon. His nomination will be a tribute to the country press and they are backing him heavily for the place."

The Best Safeguard Against Headache.

Headache and liver troubles is De Witt's Little Early Bitters. Keep a vial of these famous little pills in the house and take a dose at bed time when you feel that the stomach and bowels need cleansing. They don't gripe. Sold by Williams' Pharmacy.

Secured Franchise in Portland.

The Mount Hood Electric Light and Power Company, which recently applied for a franchise in this city has just been granted one in Portland and has been granted the privilege of laying wires and conduits and disposing of light and power in Portland, was ordered advertised by the city council. S. B. Cobb, the president of the company, proposed several amendments, the most important of which was to extend the time limit for which 10,000 horsepower of electricity should be brought into the city from two to three years. He is willing to consent to bring 5,000 horsepower into the city within two years.

Indigestion is much of a habit. Don't get the habit. Take a little Kodol Dyspepsia Cure after eating and you will quit belching, puffing, palpitating and frowning. Kodol digests what you eat and makes the stomach sweet. Sold by Williams' Pharmacy.

A professional room burglar, giving his name as Fred Martin, was captured by Marshal Wood this morning. He is a man about thirty years of age and a confirmed morphine fiend. He came in on a night train, securing a room at the Union street lodging house. Early this morning the landlady, Mrs. DeWolf, discovered that the house had been burglarized and immediately notified the officers. When arrested, some of the stolen goods were found in his possession. He was given a preliminary hearing before Justice Douthitt, pleaded guilty, and was bound over to the circuit court.—Chronicle.

Announcement Season of 1906

Our scale of charges for services as Architects or Engineers, during the ensuing season, will be as follows:

Plans, details and specifications for new buildings, 2 1/2 per cent of total cost, based upon the AVERAGE of bids received, where total cost cannot be determined. For alterations to old buildings, 5 per cent.

General supervision of works, which will include the survey of building lines and setting of grades, and drawing of contract or bond, and superintendence to completion or acceptance—new buildings, 2 1/2 per cent; alterations, 5 per cent, or full services for 5 per cent of actual cost.

On engineering works, surveys, etc., \$10.00 per day and expenses, or as provided under special agreement for large projects.

Transportation to and from works outside of city limits, and the employment of necessary help at expense of client.

Charges are based upon the total cost of all works forming part of construction and permanent equipment of any buildings in connection with which the Architects render service.

The rules of The American Institute of Architects, governing the practice of Architects, provide that—

"All drawings and specifications, as instruments of service, shall be the property of the Architects, and must be returned to them upon completion of work." * * * and, "fees are successively due, as works are completed, unless otherwise stipulated in agreement."

We make no charge for consultation or preliminary sketches, and guarantee economic and faithful service.

Important

No matter whether you eat to live or live to eat you are entitled to pure, clean food. So are your stock. Take a stroll around the warehouses of the outside mills and see land plaster, house plaster, fertilizers and other odiferous dirty stuff piled in with the flour and feed, then come down to the Flour Mill and see the cleanliness of everything and it will not take you long to decide to use "CUPID" flour and to see that your stock get HOOD RIVER FEED. You will live longer and so will they. We intend to see that those wanting clean flour and feed can get it. If your dealer will not furnish it we will give you a list of places where you can get it. No carbonic acid gas or other artificial means used to bleach our flour. Can other mills say as much?

Years for health.

Hood River Milling Co.
