

JONATHAN BOURNE, Jr.

Republican Candidate for United States Senator.

CHAMPION OF STATEMENT ONE.

Jonathan Bourne, Jr., candidate before the Republican primaries for the nomination of United States Senator in Congress, for the long term commencing March 4th, 1907, was born in New Bedford, Mass., February 23d, 1855; was a member of the class of 1877 at Harvard University; came to Portland May 16th, 1878; was a Republican member of the Oregon Legislature in the session of 1885 and the extra session of 1886; was one of Oregon's delegates to the Republican National Convention of 1888 and Oregon's member of the Republican National Committee from 1888 to 1892, and a delegate to the Republican National Convention of 1892; and was elected as a Mitchell Republican to the Oregon Legislature in 1890.

Mr. Bourne has been more prominently identified with the development of the mineral resources of Oregon than any other man in the state, having expended in the last twenty years over \$1,000,000 of his own money in the acquisition and development of Oregon mines.

While Mr. Bourne has had his residence and main office at Portland since 1878, he has had another office at New Bedford, Mass., and has carried on the business of his father's estate since 1880, which makes him familiar with many of the large interests and leading men of the East. These qualifications, in conjunction with his tremendous energy, originality, executive ability and experience in business and political affairs pre-eminently qualify him for making an able and influential Senator for the State of Oregon.

Mr. Bourne has always favored extending the direct power of the people over their government as far as possible. He was one of the leading spirits in the Initiative and Referendum movement from 1896 until it was approved by the voters at the June election in 1902. In 1904 he was a member of the executive committee of the Direct Primary Nominations League, and holds the same position with the People's Power League at this time. In all these movements he has been one of the few to guarantee the necessary expenses of preparing and proposing their measures to the people.

He says that the choice of United States Senator should be by direct vote of the people, and that the Legislature should be compelled to elect the man the people select. To accomplish this result, he is championing Statement No. 1 of the primary elections law as the only method by which public opinion may be crystallized and made effective upon the Legislature.

In his petition for nomination he says:

"If I am nominated and elected I will, during my term of office, favor:

- Republican Politics.
Amending National Constitution for People's Election of United States Senators.
Publicity Political Campaign Expenses.
National Control of Corporations in Interstate Commerce.
Rigid Exclusion of Asiatic Coolie Labor; Good Wages make Good Citizens.
Legal Limitations Labor Hours for Safty on Railroads.
Parcels Post, including Rural Delivery.
Pure Food Laws.
Liberal Appropriations for Panama Canal, Coast Defenses, River and Harbor Improvements, including Columbia and Willamette Rivers, Coos, Yaquina and other Oregon Harbors, Celilo Canal, Government Canal at Oregon City.
Fair Share of Irrigation Fund for Oregon.
Loyal Support for Successful Candidates.
Rigid Enforcement Statement One.
Roosevelt for Second Elective Term.
I desire that the following statement be printed after my name on the nominating ballot:

I WILL SUPPORT PRESIDENT ROOSEVELT'S DETERMINATION THAT JUSTICE BE DONE ALL MEN.

Square Deal Store

3rd and River Street. Hood River, Ore.

FOUR BOATS FOR UPPER COLUMBIA

Four boats will ply the waters of the Upper Columbia between Celilo and Kennewick to White Bluffs, when construction contracted for is completed.

Steamer W. S. Ladd, which is under construction at Homilly Rapids, will receive her machinery in 10 days, and will go in to service between the mouth of Snake river and Priest Rapids, up the Columbia.

Local capitalists at Wenatchee have given orders for a boat to be built at Pasco, to run over the same route. She will be 135 feet long.

The steamer Gerome, which was wrecked at Homilly Rapids last fall, has been transferred to the W. S. Ladd. The hull of the Gerome lies at Homilly Rapids.

Within 10 days the open river committee will let a contract for the construction of its new boat, which will run from Celilo to Kennewick. The route of this steamer will be extended to Lewiston when the water aces. She will be 165 feet long and 32 feet beam.

Steamer Columbia, lying at Blalock Island, will have a new hull built, and will then go into service from Celilo to Kennewick.

In addition to these, it is rumored that the Kamm steamer Norma, now chartered to the O. R. & N. company, and running between Lewiston and Riparia, will extend her route down to Celilo.

This rapid increase of the upper river traffic is due to the wonderful growth of the country. In order to make river traffic feasible, the people have raised a fund of \$900, which was expended within the last few days in blowing the rocks out of Homilly Rapids. Following this, commodious wharves are being built at Kennewick to accommodate the business.

Irrigation in the sand wastes around the mouth of Snake river is principally responsible for the boom. Settlers are coming in rapidly, and are confronted immediately by a freight rate of \$35 a ton to Portland or Seattle. By river the rate is about \$15 per ton. All this activity is bringing into prominence the canal works at Celilo and the operation of the portage railway. Captain Baughman, of the steamer Hannaford, says that on the present stage of the river, if the canal was open, a cargo of 500 tons could go direct from Portland to Lewiston, and a cargo of 1000 tons could be brought down.—Chronicle.

Living indoors so much during the winter months creates a sort of a stuffy, want-of-ozone condition in the blood and system generally. Clean up and get ready for spring. Take a few Early Rivers. These famous little pills cleanse the liver, stomach and bowels and give the blood a chance to purify itself. They relieve headache, sallow complexion, etc. Sold by Williams Pharmacy.

Fruit Crop for 1906. A careful estimate of the probable fruit crop of Oregon for this year made by the State Board of Horticulture, places the percentage of crop in the various districts as follows:

First district—apples 95, peaches 30, pears 75, prunes 95, cherries 90.
Second district—apples 95, peaches 25, pears 90, prunes 100, cherries 100.
Third district—apples 95, peaches 50, pears 80, prunes 100, cherries 50.
Fourth district—apples 95, peaches 75, pears 75, prunes 95, cherries 50.
Fifth district—apples 95, peaches 75, pears 90, prunes 100, cherries 90.

Cherries were affected by the cold spell more than any other fruit. Prunes suffered little, while apples were hurt just enough to make less work necessary in thinning out the fruit on the trees. Pears and plums were not severely damaged but peaches suffered much in most parts of the state.

Multnomah and Clackamas counties, which are the banner cherry sections of Oregon, suffered most, and in consequence hardly any of the fruit will go to the canneries this year. Jackson county and Hood River, suffered but little. Many tender peach buds were nipped around Ashland, and the estimates make no allowances for cold rains, which might yet do damage to the tender buds and blossoms. As usual, the prune crop shows up better than any other.

The commissioners predict only a slight rise in price from the damage to the fruit, but say the canneries will suffer.

Dr. Cooper's Nine Cs. Is a wonderful medical discovery. After thirty-five years of active practice, and having treated many hundred cases of catarrh and other throat and lung diseases, Dr. Cooper discovered the medicine called the "Nine Cs."

The "Nine Cs" will cure any curable case of Catarrh, Asthma or Consumption that has not passed to the last stages. It is a great remedy for hoarseness of public speakers. It is a sure remedy for croup and a great benefit in whooping cough.

The remedy is pleasant to use, even for children, and is sold by the druggists in Hood River, under a guarantee to benefit the patient or the money refunded. This medicine was formerly manufactured in Villisca, Iowa, but will now be manufactured in Hood River.

DR. F. COOPER.

Big Walnut Orchard. Fred Groner, the well known farmer and mill man of Scholla, is preparing to engage extensively in the growing of English walnuts. He already has 20 acres of trees planted, some of which have come into bearing, and is now getting ready to put 80 acres more. He had county fruit inspector Harris down there Tuesday looking over the situation and showing his method of grafting the walnuts, which has been very successful where others have failed.

Mr. Harris says Groner's orchard site is an ideal one for walnut growing, being rolling bench land above the river. Mr. Groner has a thousand acre tract, and has a mill and tile factory, rides in an automobile and is one of the most progressive citizens of the county.—Forest Grove Times.

Caught Cold While Hunting a Burglar. Mr. Wm. Thos. Lanoran, provincial Constable at Chapleau, Ontario, says: "I caught a severe cold while hunting a burglar in the forest swamp last fall. Hearing of Chamberlain's Cough Remedy I tried it, and after using two bottles, I was completely cured." This remedy is intended especially for coughs and colds. It will loosen and relieve a severe cold in less time than any other treatment and is a favorite wherever its superior excellence has become known. For sale by Kier and Cass.

To the Voters of Baldwin Precinct. The registration books for Baldwin precinct are now open. I will be prepared to register you at any time at Griddle's store. O. Fredenburg, Notary Public.

Charles A. Johns for Senator. Some of the reasons why he will be nominated for governor. He is a man of convictions and ideas and has the courage to express them. He will oppose the granting of perpetual franchises, and as to the question of service, believes that municipalities should control public utilities and that they should be a source of public revenue. Has always been fair and just to labor both in his private and official business, and from principles stands with Roosevelt on that question. Has made his own campaign, at his own expense and with his own money. He will treat the public lands as a sacred trust and will appoint a special agent to speculate or profit by virtue of his office and will not have any adjuncts to or around his office. Will give Eastern Oregon a square deal. Has not made, and will not make any promises as to appointments. In that matter, if elected, will consult and respect the wishes of his political friends. Prefers defeat to the sacrifice of his integrity and official honor.

Chamberlain's Salve is good for any disease of the skin. It allays the itching and burning sensation instantly. For sale by Kier & Cass.

Golden Wedding. Last Wednesday Mr. and Mrs. J. L. Thompson of The Dalles, parents of Miss Annie Thompson, teacher at the Pine Grove school, celebrated their golden wedding. The following account is given by the Chronicle:

Fifty years ago in Lowell, Massachusetts, John Lenox Thompson, then a young man of 24, and Miss Margaret Rosley, in her 19th year, took upon themselves the marriage vow pronounced by Rev. Theodore Edison, an Episcopalian minister. There they resided until 1868 and their first child, Lewis, now Mrs. C. L. Richmond of Gondon, was born. Coming to San Francisco in the year mentioned, they made their home there but a short time, when they came to Dallas, where they resided two years, reaching the Dalles in 1871. Since that time their lives have been known to older residents. Four children, beside the eldest, came to bless their union—Carrie, who died when but a child, Annie, now teaching in Hood River valley, and Laura and Lena, who had the pleasure of being with their parents on the auspicious occasion Wednesday.

That their friends might have the opportunity of celebrating with them and extending to them congratulations, the young ladies invited a number of old friends and neighbors to an informal reception, and throughout the afternoon at least fifty called to extend their felicitations and wish them still many more such happy returns of their wedding day, as well as to hope that for them the sunset of life may indeed be golden. These congratulations were also expressed in many pretty golden gifts.

Though the fifty years have not been without the struggle which always comes to sturdy young people who start out to make their way in life, the years set lightly on Mr. and Mrs. Thompson, who while they have reached the ages of 74 and 69, might, so far as appearance goes, be celebrating their 50th birthday instead of wedding anniversary. May they live to celebrate many more under as favorable circumstances.

Stevens a Will Have a Bank. Stevenson is going to have a bank in the near future. This matter was decided on last Tuesday. W. H. Moore, of the Oregon Savings bank, of Portland, has been looking over the field for about two weeks and has come to the conclusion that they can find no better place than Stevenson. The bank will have a capital stock of \$25,000 and is backed by some of the most reliable men of Portland, who are practical bankers.—Pioneer.

Advertised Letter List. Coop, Mrs. Wm.; Dillon, Mrs. G. A.; Freeman, Mrs.; Hodge, Effie Mrs.; Mason, Mary E.; Bunnell, John; Champlin, John; Christensen, Nels; Lawry, Vert; Lyeake, A. L.; Mehon, Cozer; Moriano, Bertardino; Olson, John H.; Shipman, Wm.; Stemberger, Geo. Wm.; W. M. Yates, P. M.

For Rent. For a long term of years, south half of Block 8, Parkhurst, and three acres east of Parkhurst. W. J. Baker & Co.
Offices and Rooms. The very best for rent in Smith Block
Grubbing. Will let contract to clear 20 acres of land to responsible parties. About 15 acres old stumps, stumps all rotted out, and can be cleared with a good team and hand grubbing. A. D. Mos, Glacier office.

Apple Shippers. Your shipments, large or small, respectfully solicited. We can get you good prices. Prompt returns. Send for shipping stamp. MEWEN & KOSKEY, Commission Merchants, Portland, Ore.

White Salmon-Hood River FERRY. Two big sail boats, two big perfectly safe gasoline launches and two big ferry scows. Expert sailors in charge. Boats leave at all hours. DEAN & PEARSON Licensed Ferrymen.

Spokane, Wash.

Announcement Season of 1906
Our scale of charges for services as Architects or Engineers, during the ensuing season, will be as follows:
Plans, details and specifications for new buildings, 2 1/2 per cent of total cost, based upon the AVERAGE of bids received, where total cost cannot be determined. For alterations to old buildings, 5 per cent.
General supervision of works, which will include the survey of building lines and setting of grades, and drawing of contract or bond, and superintendence to completion or acceptance—new buildings, 2 per cent; alterations, 5 per cent, or full services for 5 per cent of actual cost.
On engineering works, surveys, etc., \$10.00 per day and expenses, or as provided under special agreement for large projects.
Transportation to and from works outside of city limits, and the employment of necessary help at expense of client.
Charges are based upon the total cost of all works forming part of construction and permanent equipment of any buildings in connection with which the Architects render service.
The rules of The American Institute of Architects, governing the practice of Architects, provide that—
"All drawings and specifications, as instruments of service, shall be the property of the Architects, and must be returned to them upon completion of work." * * * and, "fees are successively due, as works are completed, unless otherwise stipulated in agreement."
We make no charge for consultation or preliminary sketches, and guarantee economic and faithful service.
