Four weeks more of politics

A Portland firm is advertisin 'leather ladies' handbags.

The Prohibitionists will be on the ballot at the general election, petitions being now circulated for that purpose.

Portland sawmills can saw enough lumber in 240 days to rebuild San Francisco, but the rebuilding may take twenty years.

The murshal is after the dogs. you have a good dog, pay your tax, if not it is letter for the community that you let the marshal take your dog.

The destroying of wholesale stores in San Francisco will work a hardship on the whole Pacific coast. While some of the lines are duplicated in Portland and Seattle, yet there are many articles that will have to come from the east, which will cause delay, requiring, in many instances to be manufactured before being shipped.

Mayor Schmitz is alarmed at the prospect of tamine iu San Francisco. While sufficient food supplies are in sight for about three weeks, the authorities fear that when this supply is exhausted there will be great suffering. A census is being taken of the seven relief districts in order to ascertain the exact number of people requiring relief, in order that the needy alone may be supplied.

The winter spray that was used by many in the residence portion of Hood River this spring, before the trees leaved out, is showing its good effects. Trees that were showing signs of disease, are now looking fine and vigorous. Many rose bushes were treated to the spray, and will show the good effects. A little trouble and slight expense at the right time will not only preserves the fruit trees and ornamental shrubs but also avoid the spread of pests and disease in the neighbor-

bed of tooth sche and the; bung hole of oratory. The mouth is the crimson aisle to the river; it is the fountain of patriotism and the tool chest for pie. Without the mouth the poliIN CIRCULATION

For the past week there have been a quantity of bright, ne dollars in circulation in Hood River, and as they bear a date thirty years old, there was suspicion that a gang of counter-feiters were working near the city. It appears, however, that they came from the mint at San Francisco before the fire.

The government pays for the trans The government pays for the trans-portation of coin from the mints to banks, but this year, the appropria-tion of the government for that pur-pose became exhausted, and in March the banks were notified of this fact and informed that after April 1st, money would have to be sent at the expense of the party ordering it. As a result, the demand before that date became unusual, and is filling orders the mint was scraping the bottom of the pile

the plie. Under ordinary conditions, the coming and going of measy from the mint leaves the usual surplus un-touched as it is continually used off the top of the pile, the employes not caring to move tons of silver to keep the money wearing all alike. In the shipment to the local banks, some packages of dollars were sent here that had laid in the vaults undisturied for

thirty years. Returned from Willamette Valley. R. E Harbison and wife returned

Tuesday ovening from tacir trip to the Willamette valley. His brother, Sam, who located near Tangent three years ago, owns a fine farm of some 2.3 acres, and since tak-ing charge, has put op a splendid res-idence containing all modern conven-iences and also a fine large barn. He is doing well and is making several hundred blades of grass grow where

The posse, with blood hounds and rifles ready, were around him at his last stand on the banks of the Wil-iamette, and Mr. Harbison thinks the man must have felt somewhat like

men must have felt somewhat like soldiers going into battle, as no one could tell when he might be laid low by a bullet sent by the desperado. While in Corralis a man wanted to sell Mr. Harbison a ten-acre ranch, which he said contained a nice or-chard. Mr. Harbison's curiosity was aroused and he visited the place. He saw an old orchard that was used for a chicken park. Asking what kind of acoles raised in the orchard he was

The capture of the outlaw, Frank Smith, Tuesday morning, in Clackamas county, ends one of the most sensational man-hunts on the Pacific coast since the reign of terror and subsequent suicide of Tracy a few years ago in the same neighborhood. It is one of the deplorable events in modern civilization that there is occasionally a degenerate with murderous tendencies who is able to remain at large long enough to take the lives of respectable citizens and remove from the communities those who are needed in the upbuilding of society and the affairs of life. That the desperado was shot down like a dog was a fitting
