VOTE THE STRAIGHT TICKET.

One of the strongest Republican tickets ever nominated in the state, is the result of the primary elections. The last legislature enacted a primary law, which has been accepted by the people, and the voters should stand by the result. With the large Republican majorities in this state, there is no reason for sending a Democrat to the United States Senate, or of sending a Democrat to occupy the governor's chair at Salem. Those two positions are very important from a political standpoint, in carrying out Republican principles. The same may be said also of the other candidates. The light that is being made against the head of the ticket and against the nominee for United States Senator by some politicians who want the offices, but who did not have the nerve to make an honest fight for them in the primaries should be discontinued by all Republicans. The conspiracy to give Gearin the popular vote and then defeat him with a Republican legislature is against the primary election law, and dirty politics. A straight Republican vote is the remedy.

The county ticket was nominated at the primaries by the majority vote. Most of them are asking for a second term, and are willing to stand on their record. Of the new candidates before the voters, they have selected because of their fitness for the positions they aspire to, or their popularity, or both. They are the Republican nominees, and should receive the support of the Republicans. As a contemporary says, "Republicans can only elect Republicans. A straight ballot is the kind that counts."

A Conspiracy.
Editorial Glaciers—it is rumored that there is an understanding among some so-called Republican leaders to accomplish the election of John M. Gearin, the democratic nominee for U. S. Senator, in the expectation that a Republican legislature will not ratify the election, but ignoring the primary law, elect E. L. Wilcox, who represents the kid-glove, silk-hat element in the Republican party, and who went on record in the columns of the Oregonian some months ago as favoring more liberal laws for the Chinese exclusion laws. The writer is an American first, last and all the time, and holds his fealty to party secondary to his American citizenship, and is therefore opposed to the election to any important office of any man who puts dollars above American manhood. We have too many Chinese in the country now and too many genteel financiers (?) of the H. H. Rogers and John D. Rockefeller type. As between the two classes I prefer the action, but Mr. Bourne was nominated, and under the direct primary law, the fairest method of making nominations that has yet been devised and is entitled to the support of every Republican in the state who prefers the rule of the people to that of the bosses, the direct primary law has powerful enemies who will do all they can to discredit it in the eyes of the people, many of these enemy say it needs amending, but if it is to be amended I think it advisable that the work should be done by its friends rather than its enemies who would like to amend it to death. Jonathan Bourne, who made his campaign as the champion of this law, is certainly its friend and, in my opinion, entitled to the support of all who believe that the people are capable of electing United States Senators. In any event he is certainly to be preferred to any man who cares so little for American working men and the future of this country that he will advocate opening the doors to the Chinese who will take the bread from the mouths of our down working men and their children and inevitably reduce them to Chinese standards of living. The thought is absurd to any man who possesses a spark of honest patriotism or regard for the future of his children.

A False Report.
A rumor which has gained wide circulation is to the effect that the young man who dropped dead ten days ago from heart disease, was killed by drinking water out of a ditch, that had been poisoned by the droppings from spray material. There is no foundation whatever for the rumor. The story was also sent from the Dalles and published in the Portland Journal. How the story started is a mystery, and the further spread of it should be stopped.

The latest popular song, "The Broken Ring," was written by Mrs. Hattie Garrison Miner of Hood River. Price 50 cents at N. L. Young's.

LAKE ANSWERS
THE DEMOCRATS

The Dalles, Oregon, May 29, 1906.
In a letter in the Democratic column of the Hood River News Letter appears a letter purporting to have been written by F. Seufert, chairman of the Democratic county committee. In this letter Mr. Seufert makes some political statements accusing the present Republican county officials of wasting the county money and hints very broadly at graft. The statements are so exaggerated and perverted that I deem it but fair to the officers accused to correct some of these false and misleading assertions, especially since some of the Republican officers are candidates for reelection, and except for this fact the letter referred to would never have been printed.

Mr. Seufert says County Clerk Bolton uses from \$25 to \$35 in postage stamps per month. The facts are Mr. Bolton has used since last incumbency in office the last 2 years an average of \$15.25 per month for postage stamps. This amount includes all the stamps used in the county clerk's office and all the stamps received by Circuit Judge W. L. Bradshaw and myself. Mr. Bolton has vouchers on file for every cent spent for stamps and incidentals.

In answer to the assertion that "Judge Lake's first act in office was to increase the salary of his help," I will say that the deputy sheriff, E. C. Haight, never has received as much salary at any time as was paid former deputy sheriff under Democratic administrations. In the clerk's office it cost exactly the same the first year when I was county judge, for help that had been paid for each of the four previous years under Judge Blakeley. The last year it has cost \$10 per month more.

During the last two years the receipts in the clerk's office exceed by \$2,115.56 the receipts of the two previous years, showing a great increase of work. This increased work brought the county \$2,115.56 and cost the county only \$120 to perform it. Thus leaving the county \$1,995.56 to the good in that matter. When the county gets \$2,115.56 for work done in the clerk's office and it costs but \$120 to do it it is certainly making a very good profit.

As to paying the county treasurer bond. County treasurers have heretofore always given bonds signed by taxpayers of the county. The history of bonds of that kind in this state shows that when a liability arises these bonds fought and frequently defeated on account of the personal standing of the bondsmen and their interest in the county. In the case of surety bonds there is no escape for the surety company in case liability arises, therefore, for the protection of the county, the court required Mr. Donnell to give a large bond signed by a surety company. This cost \$75. As the court had required Mr. Donnell to give this bond, it was but fair that the court should pay a portion of the expense and did so, requiring Mr. Donnell to pay the other portion which he would not have been compelled to pay had he given a personal bond. The extra protection which the county has received is worth far more than it has cost.

The sheriff's bond as tax collector is required by law to be a surety bond and to be paid for by the county. No other official bonds than those mentioned above were paid for by the county.

The assertion that the county court was making a "slush fund" (whatever that may mean) out of the county road fund to assist or defeat some Republican candidates at the late primaries, should be beneath notice but I will say in passing, that the assertion is false in every particular.

Again Mr. Seufert says, "The present tax should be 7 mills and not 17." Every intelligent taxpayer in Wasco county knows that it requires nearly 7 mills to pay the amount of county school fund alone required by law to be raised each year. The statement that Sixton received \$500 from Wasco county for mileage, horse hire, etc., does not contain one particle of truth, as the county has not paid him a dollar for such work. Everybody knows that the county clerk has nothing to do with the distribution of road funds.

The county court does not do the assessing in this county, but the assessor, only advisory. As to the railroad assessment, I will say, however, that the present assessor raised the valuation from \$6000 per mile as assessed by his Democratic predecessor to \$10,000 per mile.

Extra expenses which have been incurred by the county, and which were not included in the Democratic administration are the Williams and Lewis under trials, special elections, Kies and Clark fair, a number of new bridges, and \$18,000 of the road tax, which is now collected in money and paid back to the several road districts, while formerly, it was simply worked out by the taxpayers, and did not go through the county treasury. This amount makes a difference of about \$35,000.

In conclusion I will say that I am not trying to write a political letter, or to try to do damage or deprive the rule of the people to that of the bosses, the direct primary law has powerful enemies who will do all they can to discredit it in the eyes of the people, many of these enemy say it needs amending, but if it is to be amended I think it advisable that the work should be done by its friends rather than its enemies who would like to amend it to death. Jonathan Bourne, who made his campaign as the champion of this law, is certainly its friend and, in my opinion, entitled to the support of all who believe that the people are capable of electing United States Senators. In any event he is certainly to be preferred to any man who cares so little for American working men and the future of this country that he will advocate opening the doors to the Chinese who will take the bread from the mouths of our down working men and their children and inevitably reduce them to Chinese standards of living. The thought is absurd to any man who possesses a spark of honest patriotism or regard for the future of his children.

Berry Crop Short at Kenwick.
So great was the damage to strawberry plants by the big windstorm and the accompanying cold weather of March that the 1906 crop, variously estimated up till this time at from 800 to 2,000 crates, will be reduced to a bare 5,000 or 6,000 crates. At present there is a wide difference of opinion of the total of this year's crop. Mr. Johnson, president of the Kenwick Fruitgrowers' Association, believes it may reach 8,000, while others as well informed are confident that the product will not exceed 5,000 crates.

The Mt. Hood Railroad Company are now running a regular train on schedule time and handling quite a few passengers as well as doing considerable freight business, car loads and local. Their freight tariff has just been issued and is open to the public at the offices of Oregon Lumber Company, from which place the business of the road will be handled for the present. Mr. Early, who is connected with both the above corporations advises that from June 1st it will be necessary to prepay freight charges to all points on their line, owing to the fact that they have no agents at various stations.

E. T. Carns, dentist, has opened his office and is now ready for business in the same rooms over Bartness store.

Open Letter.
To the voters of Oregon, greeting.
Gentlemen—The undersigned submit to you a few of our reasons for asking you to ratify, by your affirmative vote, the amendment granting equal rights to women, which has been placed before the voters through a petition generously signed by the women of Oregon under the initiative and referendum.
This movement has grown under your management from the small beginning known as the Married Woman's Sole Trader Bill, enacted by your legislative assembly in 1872, until it has reached such vast proportions as to attract the attention of the civilized world. A constitutional amendment proposing women's enfranchisement, submitted to you in 1884, brought us an affirmative vote of 11,225. This amendment was again submitted to your suffrages by legislative initiative in 1900, bringing us a vote of 25,265. Although the population of the commercial centers had more than doubled in sixteen years, the "No" vote was only increased by 225, while the "Yes" vote was augmented by 15,042. This, to us, is a palpable sign of the triumph which we confidently look to you to consummate for us on the 4th day of June by placing "X" between "302" and "Yes" on your ballots. Do this and you will honor our flag of truth, the only power we offer in our defense against the hostile forces of the opposition. Do this, and you will honor Oregon, your mothers and yourselves. And your petitioners will ever pray:
Abigail Scott Duniway, Honorary President Oregon Equal Suffrage Association and State Federation of Women's Clubs.
Mrs. Henry Waldo Cox, President Oregon Equal Suffrage Association.
Charlotte Moffitt Cartwright, President Woman's Pioneer Auxiliary Association.
Sarah N. Evans, President Oregon Federation of Women's Clubs.
Ester C. Pohl, M. D., President Woman's Medical Association.

Must Screen the Bitches.
Louis Fritz, of the Dalles, deputy game and fish warden, was in Hood River the first of the week, inspecting the flumes and fish ladders. He says that the irrigating ditches will have to be screened at the headgates, to prevent fish going out through them. He reports that the new fish ladder at Dee, built by the Oregon Lumber Co., is the best one that has ever been built in the valley. It cost nearly \$1,000, and is of a practical design. Mr. Fritz says that several of the ladders now in operation, while built according to instructions from the state warden, do not prove to be practical, and should be changed.

Lecture on Woman Suffrage.
The Rev. Anna Shaw lectured on Woman Suffrage at the Opera House Tuesday evening to a good sized audience. A reception was tendered the distinguished guest at the residence of E. L. Smith in the afternoon, by the ladies of the local association, which was largely attended by the ladies of the city. The rooms were tastefully decorated and refreshments served.

Lecture on the Evening was very interesting, and demonstrated that the lady was master of her subject. She has had many years' experience in the lecture field, and has gained a knowledge of affairs that eminently fits her for the work. Her arguments for woman suffrage are strong old lines, and were well received by the audience.
