The Woodmen of the World, who held their first meeting in the new lodge room of the Odd Fellows in the new building Saturday night, had a pleasant surprise. While asleep some one got into their room and went through their clothes. There is a guilty party, but sufficient evidence has not been obtained to warrant an arrest. Snow & O'Connell have just finished a special wagon for the contractors who are working on the new ditch of the Hood River Irrigation district. S. A. Clark, who bought the Hoyl Green place recently, is moving out on the place. He intends to improve the tract, and it will make him a fine home. It is near town so that he can easily get to his work at the office of the Davidson Fruit Co. The lawn social given at the home of George T. Prather Wednesday evening of last week, was a grand success. It was under the auspices of the Knights of Pythias and Katharine Sisters. Outdoor games were indulged in, followed by music. The Hood River band was also a feature of the entertainment provided. Refreshments were served. Marshal Ganger had orders to lock out for several Indians who are hiding their children from the government schools in Eastern Oregon. As time draws near for the opening of the school, it is watched with dread by the redskins, and they resort to all sorts of ruses to delay the sending of their children to school. They cannot endure confinement, and no worse punishment than to house them up can be inflicted. Hood River is the banner telephone city of its size on the coast. The local exchange has 550 subscribers, with nearly 100 new applications, while The Dalles has only about 300. The new Mt. Hood line has a main wire working, and are putting in phones as fast as possible. A new exchange is being put in at Mosier, which starts off with 40 subscribers. A private line is also being run to the Stanley Smith mill at Green Point, and they also have a private line along the flume running to Rutland. With the network of phones in the valley, one can talk with friends at almost any point. Accompanied by J. H. Shoemaker, secretary of the Hood River Irrigation District, contractors were taken Saturday to look over the site for the bridge which will soon be built near the Punch Bowl on the west fork of Hood River. The contractors expected to go to work at once. Efforts have been made to build a bridge at this point several times, but have heretofore been unsuccessful, though it has been admitted that a bridge there would be of much convenience to the travelling public. The contractors for the new ditch on the Dead Point creek section have built a good grade about a mile and a half from the creek and when finished the road will be a good one.
