## L. H. HUGGINS & CO.

### WORLD BEATER FOR NEWTOWNS AND SPITZ

R. P. Loomis, of the firm of E. P. Loomis & Co., large wholesale fruit dealers and cold storage warehouse owners, of New York city, has been at Hood River for several days looking for consignments of apples for his firm. Mr. Loomis has traveled extensively in the western apple producing country since leaving New York and reports that the large apple crop which is expected from all sections of the country this year has not been exaggerated. The fruit he says is not only plentiful but of a very fine quality. On this account he thinks that prices for fancy fruit will be somewhat lower this year than they were last. At Yakima, where he spent several days he was told that the enormous acreage of 55,000 trees had been planted there this season. He has also visited Wenatchee, Pasco, and the Tappanah country. He says, however, that nowhere that he has been has he seen such evidence of careful cultivation and fine appearing orchards as at Hood River. Mr. Loomis thinks that some varieties of apples grown elsewhere are fully the equal, if not the superior, of those grown here, but that for Newtowns and Spitzbergers we have the world beaten. He is particularly enthusiastic over the fine pack sent out from Hood River and the good keeping qualities and when asked how fancy eastern fruit compared with that of the west said that there was no comparison between the best of the west and the barrel stock of the east with the exception of some Northern Spies, grown in Vermont which his firm have disposed of for as high as \$14 a barrel. While driving over the valley he visited the orchard of O. L. Vanderbilt and there saw growing the Winter Banana which he thinks may develop into a very fancy apple at a very fancy price if its delicate shipping qualities can be overcome and expected to handle a few of them during the coming winter. Price, Mr. Loomis says, for the best, is no object, as anything that is particularly choice can always be depended on to make a market for itself. Most varieties of apples he thinks will be bought late this year and does not look for many purchases until after the crop is picked as buyers are holding off on account of the big yield. He was delighted with the fine weather here after being in the Yakima country and said that the climate was as fine as any he had seen in the west. Mr. Loomis has been coming to Hood River in the interest of his firm for several years and has become very much interested in the development of the city and valley.

**Delicious Food From Sea Kelp.**  
Professors Magnuson and Frye of the state university have discovered and are patenting a process by which ordinary kelp, which is so abundant in the waters of Puget Sound, is transformed into a delicious food. Frye is now in Washington perfecting the patents. Prof. Magnuson, who was in Bellingham one day last week, informed a Reville reporter that arrangements are being perfected for the equipment of a plant and the preparation of the new food products on a large scale. The sample he had with him somewhat resembled candied citron, but was superior in flavor and quality. Kelp is a palatable and thoroughly clean food, as is all vegetable matter coming from the sea owing to the cleansing and purifying qualities of sea water. The kelp of Puget Sound, and in fact of the entire Pacific coast, differs from that of the Atlantic in that it is free from iodine and other deleterious matter. The possibilities of this new industry will be better appreciated when it is known that over 300 tons of citron peel are used annually in the United States, and that the kelp can be put up in many different forms and as superior substitutes for high priced jams, jellies, marmalades, etc., that tickle the palates and touch the purses of fastidious epicures. It is probable that Bellingham will be given an opportunity to bid for the location of the plant.—Bellingham Reville.

**Arrangements for Transfer of Money.**  
The banks of the community are to many people merely places in which to deposit surplus money. They do not always appreciate that banking is a wonderful system, grown out of the experience of years, without which this busy little city would be relegated to the rank of a country cross-road. They do not realize that the personality of our bankers and the enterprise of our banks are worth even more to the growth and prosperity of the place than acquisition of new industries for which the town is very properly striving. It is characteristic of our local banks that anticipating the needs of

our citizens, who have been investing in Manitoba and other provinces of Western Canada, they have already arranged for the necessary remittance of money by draft. Few will realize the amount of correspondence this has entailed; but all who have caught the investment fever will greatly appreciate the service. To have made it possible for our citizens to send any amount of money to be paid immediately by any bank in Alberta, Manitoba or Saskatchewan, without question and without exchange charges on the Canadian side, is certainly a stroke of enterprise which adds to the services the banks are continually giving the community. As a matter of fact, although it is not generally known, our banks are in a position to send money to all foreign countries at less cost than other agencies. In this and other more important respects the local banks are gradually improving their facilities and their service, and deserve the patronage and support of local people. Their condition speaks louder than words of the general prosperity of this favored section.

**Unnecessary Expense.**  
Acute attacks of colic and diarrhoea come on without warning and prompt relief must be obtained. There is no necessity of incurring the expense of a physician's service in such cases if Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before a doctor could arrive. It has never been known to fail, even in the most severe and dangerous cases and no family should be without it. For sale by Keir & Tass.

**FOR SALE**  
**MacGowan's Park Hill Orchard**  
Forty acres, two miles south of Mosier. New county road through the property. Eight miles from Hood River. **Apples Light in Western Colorado.**  
The crop will be light in all the western Colorado districts. In our opinion from 40 to 75 per cent of a full crop. Our shipments should have been 500 to 1,000 cars, but we now estimate 300 cars. Early varieties are now moving in cars, but in a very limited way. Transplants will be out by August 5, but we will then have Duchess, and a little later Wealthy; but only in a limited supply. Fall and winter varieties look fine and owing to the light crop should be larger than usual; and remember we have no fungus in Colorado.—Colorado special to Fruit Trade Journal.

**Very Fine Fruit Result of Spraying.**  
Peter Kurrie, who lives a mile west of town, brought this office several apples yesterday of the Red Austrian and Gravenstein varieties, which would surely be prize winners if placed in a contest. He will have about one hundred bushels of the Gravensteins, for which he expects to get a fancy price. The fruit shows the beneficial effects of spraying, and a number of people who have examined these apples say that fruit raisers in this vicinity can raise and put on the market at good prices apples as good as these when they realize the importance and absolute necessity for careful spraying.—Independence Enterprise.

**Notice to Property Owners.**  
All property owners in the city limits are hereby notified to cut down and remove all noxious weeds, thistles, etc., from the street adjoining their property, at once. By order of the Common Council. Wm. Ganger, Marshal.

**W. J. BAKER & CO.**  
promised you some interesting Real Estate news in last week's Glacier. Here it is:  
No. 1. Nicely finished, modern house of 7 rooms, fine location. Notice the price, \$1000  
No. 2. Four-room house, cloth and paper finished walls, connected with sewer, price, \$500  
No. 3. Another 4-room house, with same improvements as above for \$450  
No. 4. House of 4 rooms. Hard finished. Size of lot, 100x100. Waucoma addition. Price \$700.  
No. 5. A new 6-room cottage, near the business portion of town. Modern in every respect, beautiful yard. Size of lot 75x100 feet. Investigate this proposition. The price will interest you if you are interested in a perfect home  
No. 6. Lot 50x150 feet and house of two large rooms. Why pay rent when you can own this property for \$250  
No. 7. Eight acres, 1 1/2 miles from town, all in berries. Price \$2,000.  
No. 8. Forty acres six miles out. Will divide. South 20 has 8 acre 2 year old orchard in splendid condition. 10 acres meadow and plenty of free water. Price per acre, \$200.  
No. 9. Fourteen acres 7 miles out, 52 full bearing trees and a young orchard of 800 trees just planted, 2 acres berries, will be in full bearing next year. Small house. This place is in perfect condition, and the best buy in the Valley today for the money. Price, \$2800.  
No. 10. Forty acres unimproved land. Price for a few days, \$2800  
No. 11. Ten acres 3 miles out. House, barn and out buildings. Fully improved. Price for short time, \$3800  
No. 12. Ten acre, same distance out. Fully improved, and in first class condition. Is a pleasure to look at. New house and outbuildings. Six inches of water. Price, \$3900.  
This list is simply a sample of what we have to offer buyers. Call and see our entire list. It will interest you.

111 SIXTH STREET, PORTLAND, ORE.

**Your Health**  
Is your best asset. Proper health is most essential to your happiness and welfare. Pure air is an absolute necessity, and no effort should be spared to keep it so in every house. Where open-flame illuminants rob the air of oxygen and turn it into carbonic acid gas, pure air is an impossibility. Air poisoned by the flame of a gas jet, or that of an oil lamp is unfit for breathing purposes and exercises a decidedly injurious effect upon the occupant of the room. Electric Light burning in an air-tight bulb leaves the air of the room pure and fresh, and furnishes a better, brighter and safer light than any other medium. We furnish the current and a phone message or postal from you will bring our representative.
