Chas. T. Early is in receipt of a letter from the Hon. James Kyle saying that he has received an invitation to the fruit fair and that he will attend and hopes to be able to bring several friends with him, among whom he mentions Col. Wm. So many trees, large and small, loaded with big red apples she had never seen anywhere before, said Mrs. Wright, who returned home on the boat Tuesday with a number of the apples she admires so much and expressed herself as desiring to spend the rest of her life at Hood River. Mrs. Wright was at one time editor of a paper in Iowa and was formerly postmistress at St. Johns, but was removed through political influences and the vigorous protests of the citizens of that place.

He still has clothing and other belongings here and had made plans for the future that would lead to the belief that he had no idea of leaving the city suddenly. Gandy formerly lived at Oregon City and it is said that he is not there, and it is feared that he has met with some unknown misfortune.

A Disastrous Fire.

An early morning fire fully destroyed the home of Mrs. Stella Stephenson, located on the hill Monday. The conflagration occurred at 1:30 o'clock and the inmates of the house were awakened in time to escape from their burning dwelling by the taking of a faithful watchdog, who was evidently aroused by the flames. Although an alarm of fire was turned to and many citizens responded, by the time they arrived could be of no assistance, as the fire had gained such headway that it was impossible to control it and the building was burned to the ground, with its contents. The property was insured for \$500.

A Pleasant Recital.

At its conclusion refreshments were served and a very pleasant evening concluded in social intercourse.
