Your Health

Is your best asset. Proper health is most essential to your happiness and welfare.

Pure air is an absolute necessity, and no effort should be spared to keep it so in every house.

Where open-flame illuminants rob the air of oxygen and turn it into carbonic acid gas, pure air is an impossibility.

Air poisoned by the flame of a gas jet, or that of an oil lamp is unfit for breathing purposes and exercises a decidedly injurious effect upon the occupant of the room.

Electric Light burning in an air-tight bulb leaves the air of the room pure and fresh, and furnishes a better, brighter and safer light than any other medium.

We furnish the current and a phone message or postal from you will bring our representative.
