Many Thousands of Dollars Will Be Spent Here and All Business Will Be Benefitted.

Indications are to the effect that next year will be one of the most prosper us that the Hood River valley has known. The profitable season which has just closed for the apple grower has placed funds in his hands that ha e not only enabled him to meet wate or obligations he may have contracted but left a surplus with which to make further improvements. The past year has seen many changes in the ownership of property and many new purchasers at double the prices of the year before. The sale in the past few days for \$12,000 of part of a ranch which was recently pur-chased for \$15,000 shows that prices are still on the advance. The ranch originally econsisted of 70 acres and

30 acres of it was sold at the figure already onoted.

The demand for property is still keen and has extended later into the winter season this year than at any previous time. Anything in the way of cleared or land set to trees can be disposed of at almost the owner's price, but few sales of this character are taking place. The return for the money invested is so great that ranchers are not letting go of something

that can not be replaced.

The Hood River apple has taken a firmer hold than ever on the foreign market this year and reports from London show that California and fruit from other parts of the Pacific Northwest have not maintained any competition of a serious nature with the Hood River apple. In the big markets of the East the demand for Hood River fruit has been greater than the supply and a new market has been created for varieties that is

expected to bring even better prices for them next year.

One of the most important factors in the prosperity of the valley during the past year, and one which is too frequently overlooked, has been the erection and operation of the big lumber mills. The open winter has allowed of their running late this

The most important business build ing that has been erected during the past year was the Odd Fellows bu ld ing. Next year, however, will see the erection of several new business build ings Among them will be the Eliiot building at the corner of First and Oak streets and the Nickelsen building, and it is probable that a new building will take the place of the wooden structures beween the hetel Wauccma and the Brosius building. A building may also be built at the corner opposite the First National bank formerly ocupied as a meat market and it is understood that Sherman Frank is seriously considering the erection of a brick block on his prop-

The Fruit Situation. The people of the Willamette valley are trying to make themselves believe that they have just as good apples as th y have in the Hood River valley. So far as the quality of the fruit is concerned we have apples that taste just as good as those raised in Hood River orchards, but the truth is our apple conditions here are not nearly up to the stendard set by Hood River, that is all. Ibis valley has a big amount of work to do before it can be in the same class as Hood River when it comes to the apple business, and we might as well face the music and go to work. Of course we can make selected displays of fruit that may be just as good as the Hood River dispays, but there is no question at all, but what we are behind Hood River in the general condition of our orchards and their bearing. The present very effective war that is being waged on pests may bring us up to the standard that shall be equal to any, but it will take everal years of strict enforcement of the new law to do it. If it is done in a mlik and water way we won't get there. Every inspector will have to be business all the time, not waiting until tomorrow to do things.—Albany Demociat.

His eyesight is defective and while walking off the ferry boat he made a misster and went into the water which was several times over his head. His outcries brought immediate assistance and he was rescued and came to this city where after donning dry clothing it was found that he was none the worse for his adventure.

Senator Whealdon in the Deal Also-No Whitewashing to Be Done If Nolan Has His Say.

The Dalles Chronicle says that there is no vacancy in The Dalles land office and there is not likely to be until the term of office of the present register and receiver expires. Peo-ple who have been "next" to politics and given the matter any thought have been satisfied that such was the case all along. Those on the inside

knew it.

The resignation of Register Nolan was wibtdrawn by President Roosevelt pending invesigation of the mattier which called it forth, whice, in short, was a request for a report in connec-tion with the Shera: and case involving water power on the Deschutes river. The charges, which are against The Dalles land office and not against any particular officer, will be thoroughly investigated by the government and until that investigation is completed there will be no change. People having a knowledge of politics cnow that resignations are not usualknow that resignations are not usually accepted while charges are resting against them. Mr. Nolan will no doubt serve out his term no matter how the investigation turns out and his successor will probably be J. S. Fish, who has been recommended for the place by Senator Fulton, but all this is in the future and the numerous senigents that here exists are ous aspirants that have arisen are a trifle premature in their announce-ments. The recommendation of Mr. Fish was without his knowledge and made by Senator Fulton when Mr.

accepted by the department of the in-terior. While Mr. Fish has not an-ounced his intention, it is altogeth-er likely that he will announce his position at the proper time. The Chronicle was appraised of the situation through a Washington correspondent, and a representative of the Chronicle called on Register Nolan, who promptly confirmed the correspondent's report. In the course of the interview Mr. Nolan said:

The scrip

was laid upon the land which was ordered by Mr. Whealdon from a dealer in this city after a letter from the commissioner cancelling indemnity school selection, under which Mr. Sherar claims the land involved was received in this office and it was ready for filing before the clerk who records such letters had even seen the letter. I was informed by Mr. Moody said is one of the most valuable in the city. It is understood that the brew-ery company contemplates putting up a building some time during the coming summer if business conditions warant it. Plans that have not yet been fully matured provide for a two story brick building should the company decide to build.

The contemplate spatting up quested to be sure and be there to see that he, Moody, got none the worst of it, as there might be other filiugs for the land. I was there, the man filed the scrip, there was no officence in Mr. Moody's probity, I was collably careless in reference to was culpably careless in reference to the filing of this scrip and did not know the description of the land his death was not unexpected. He part of the water power for which Mr. leaves a wife. Moody had offered Mr. Sherar 860,000 in December, 1905. When I realized which a former attempt to wrong a person to whom I felt friendly had left me for Mr. Moody and since that time I have used every possible effort to protect Mr. Sherar in the posses-

sion of his property. "There will now, as indicated by
