

HOOD RIVER GLACIER

It took the Oregon legislature just forty days to spend \$4,000,000 of the people's money.

Eastern Oregon was forgotten, as usual, in making appointments on the new railroad commission board.

Well Hood River apples will grow just the same, regardless of county division.—Optimist.

Over four tons of mail were received at the Walla Walla postoffice one day last week, which had been held up owing to the blockade.

The legislature authorizes the purchasing of voting machines. It will be a great convenience in showing the vote soon after the polls close.

Nobody knows better than Mr. James J. Hill that the way to make hard times sure is to keep hammering away at hard times predictions.

Attorney General Young has started mandamus proceedings in the county district court to compel the ten railroads doing business in Minnesota to respect the freight rate reduction recently ordered by the state railroad and warehouse commission.

The action of the legislature in raising their pay to \$10 a day for a 40-day session, is causing considerable unfavorable comment in many quarters.

In writing the obituary of the Dalles portage bill, the Chronicle winds up with the following:

"It is reported that the lobbyists from Hood River opposed this measure. If this be true, it will not soon be forgotten by the people of the eastern portion of the county or by the people of the western portion of the state."

It was the price paid for the defeat of Hood River county and Senator Wheelon had ample warning.

The announcement that has just been made that the 25 per cent advance, made soon after the San Francisco disaster, has been removed voluntarily, will be hailed with much satisfaction.

Mr. Wagner took with him 3100 boxes of fancy apples. He left Wenatchee the first of December.
