

# HOOD RIVER GLACIER

Published Thursday by  
ARTHUR E. MOE, Publisher.  
Terms of subscription—\$1.50 a year when paid  
in advance.  
THURSDAY, MARCH 14, 1907.

Sherman county expenses last year amounted to \$13,064.89.—More Observer.

The Kansas legislature this winter changed the name of George Denolf to George Bell, but neglected to change the name of Mrs. Denolf. Mrs. Denolf made so much trouble for Mr. Bell that he came back to Topeka to lobby for a bill to change the name of his wife.

John Alexander Dowle died at his home in Zion City, March 8, 1907. The end has not been unexpected, as he has been in a state of dissolution for many months. Heaten in his fight for control of the properties he founded, the prophet never recovered his vigor. Thus ends the earthly career of the biggest fakir in modern times.

Dogs have become such a nuisance on the streets of Pendleton that the city council has taken steps to eliminate the pests, especially from the business streets. An ordinance was introduced providing for taxing male dogs \$3 per head and female dogs \$2 per head a year. The ordinance also provides a fine for the owners of licensed dogs who permit their pets to run at large in the business district.

The action of the Millwaukie nursery in burning all trees sent into the valley this year for planting has worked a hardship on that company, but shows that they have been willing to comply with the law, and have a regard for the welfare of the valley. Inspector Castner has done a great good for the valley in condemning insected trees, and his vigilance will save the valley from much damage and expense later on.

The question of the right to move buildings and make repairs within the fire limits, is an important one, and the opinions of the business men, as printed on the first page of this issue, are varied, running from an extreme to the other. Each side has arguments that possess merit, yet the matter should be dealt with by the council that will appear to be for the best interests of the city, for the future as well as for the present.

A campaign to get pretty women, especially the prettiest of the feminine students at colleges and universities into the societies that are working for woman suffrage has been started at the University of Chicago. If the plan succeeds the traditional taunt heaped on suffragists that no pretty woman favors the movement, will be refuted for all time, and the propaganda doubtless will go forward triumphantly toward the goal of victory.

An exchange remarks that the time is coming when the automobile will be a popular mode of transportation from the country home to the city. So long as the rich man's playthings cost as much as a farm, and the expense of repairs and gasoline amount to as much in a year as the wages of a hired man, it will be some time before the average farmer, even the Hood River farmer, will take kindly to it.

## E. A. FRANZ RETIRES FROM BETTER FRUIT

Owing to the fact that E. A. Franz, who has been associated with E. H. Shepard in publishing "Better Fruit," has made arrangements to retire from the fruit business and engage in another occupation, Mr. Shepard has purchased Mr. Franz's interest in that publication and will assume full control and management of it. Since the publication was started less than a year ago it has made a phenomenal growth in circulation and has proved a success from its inception. Its circulation at present is very close to 3,000 copies and it is being sent to almost every part of the United States, and also to Canada and England. In its sphere it is looked upon by fruit men and growers as an unequalled and the facilities of agricultural colleges are loaned in their endorsement of the good work it has done in the interest of what its name implies, "Better Fruit." Mr. Shepard says that while he regrets to lose Mr. Franz as a co-worker the publication will be conducted along the same lines that it has been in the past with the same standard of excellence both typographically and editorially and that the next issue will be larger than any that has yet been published. It will contain 32 pages made necessary by increased advertising and the fact that he does not want to reduce the amount of matter which he has been supplying to appreciative readers. "Better Fruit" is not only apparently filling a place among the fruit papers that was long neglected, but it has also done some good work in advertising Oregon and Hood River, and has been the means of bringing several investors and desirable residents to the valley and to other parts of the state also.

**Put Up Your Money.**  
Having nothing else at hand to brag about Hood River is now laying claim to possessing the greatest article of taste in the state outside of Portland, and claims she sent the largest number of people down to hear the grand opera. It's a small matter, but the Chronicle is ready to wager the Dalles has double the representation there that she has.—Chronicle.

**Will Exhibit at White Salmon.**  
The imported Royal Belgian stallion, Max De Horian (registered), will be on exhibition at White Salmon, Monday, March 18. All parties interested in good horses will have an opportunity to examine him.

Hood River Belgian Horse Co.

## GROWERS TO MEET NEXT SATURDAY

Fruit growers and members of the Horticultural society should not forget that there will be a continuation of the meeting which was held two weeks ago and that a program has been arranged for it. The meeting should be well attended as several questions will be brought up that are of great importance to growers and others engaged in the business of either growing or shipping fruit.

The season of the year for spraying is approaching and there are many questions in regard to this part of the business that will bear discussion. It is said that some of the sprays that have been used in the valley have been found ineffective and that they do not accomplish the purpose which they were supposed to.

If you can shed any light on this question or any other that will help your fellow fruit grower it is your duty to let it be known. Don't begrudge your knowledge to your neighbor, for you will gain as much as you give.

### Attended Meeting at Irrigon.

A. I. Mason and Chris Grelson attended the Horticultural meeting held at Irrigon last week and report a large and enthusiastic meeting. Mr. Mason addressed the meeting and also Dr. Withycomb and others. Mr. Grelson says that the audience in attendance at the meeting seemed to be very much impressed with Mr. Mason's address and that he succeeded in injecting considerable warmth in a meeting that would otherwise have been apathetic. The visitors from here speak in the highest terms of the entertainment while at Irrigon and that wonderful results already obtained there, and that when the government ditch is finished thousands of acres of land that has formerly been worthless will be brought under cultivation. The soil adapted to the growing of peaches and melons, particularly the latter which grow to an enormous size and are of fine flavor.

### "COAXERS" TAKE MEN FROM CONTRACTORS

So keen has competition become between contractors on the North Bank railroad that they are said to be enticing men away from each other on the promise of higher wages, better food or any inducement that they can offer. A captain of one of the river boats who was at Hood River Monday said that in his many years experience on the river he had never seen such a demand for laborers as there is this spring, and in speaking of it said:

"For some time we have been carrying all the passengers we are allowed to on our up-trips. In fact I have had to leave from 10 to 15 people on the dock in Portland several mornings. Most of the passengers are here to labor on the North Bank railroad, who had been rounded up by contractors and sent aboard for various points on the river. I didn't pay much attention to where the men were going until I arrived at Portland and met the boat, when contractors would meet the boat and inquire where the men were who had been sent out that morning. All I could say was that I didn't know anything about them. The contractors would reply that they had started, because he had been wired to that effect.

### LAND OFFICE RUMORS ONCE MORE AFLOAT

It would seem the general public is very much in the air as to who will receive the appointments for register and receiver of the Dalles land office. Many have been named for these offices but as yet no definite conclusion has been arrived at in regard to filling them. Among those who have been said to be aspirants for the places are J. S. Fish, C. J. Farley, Addison Bennett, R. J. Ginn and several others.

**Put Up Your Money.**  
Having nothing else at hand to brag about Hood River is now laying claim to possessing the greatest article of taste in the state outside of Portland, and claims she sent the largest number of people down to hear the grand opera. It's a small matter, but the Chronicle is ready to wager the Dalles has double the representation there that she has.—Chronicle.

Hood River Belgian Horse Co.

**Death of Everett A. Crook.**  
Everett A. Crook was born November 18th, 1880, in Missouri, and died at the Cottage hospital in this city March 6, 1907, from pneumonia, having been ill but nine days. His parents reside in Leavenworth, Kansas, as do also several brothers.

He was in their employ when he was taken sick, and was by occupation a painter, but took up the work of a lumberman in this state. He was a general favorite among those who knew him, being of a lively and pleasant disposition, a young man of good habits and character, and a good citizen. His loss will be deeply deplored by his associates and he will be greatly missed from the circle in which he moved. He was a member of the Methodist church.

The funeral services were held at the undertaking parlors of J. E. Nichols on Sunday the 10th instant at 10 o'clock and the interment was in Idlewild cemetery.

**Adaptability in Fashions.**  
There is a new keynote in the spring fashions this year which every woman who makes her own clothes will be glad to know about. It is adaptability. This new adaptable feature is perhaps best illustrated in the jumper or guimpe dresses which are to be so very fashionable throughout the spring and summer. The jumper waists will be seen in panna, voile and silk, and also in the cotton fabrics, such as plaid and check gingham and silky mercerized madras. It is in this style of dress that the dress will be made of the light waists. There is no doubt that this has many good points in its favor.

Take, for example, the jumper frock for a young girl, and let us look into the possibilities for usefulness. The pattern consists of three garments—the skirt, the waist and the bib jumper in making up the gown it would be wise to have at least two waists to wear with it, and two or more jumpers to wear with one waist. The waist matches the skirt, and the other might be of sheer India linen or all-over lace. When the waist that matches the skirt is worn, then the bib jumper is worn, and the other sort of dress is worn. In fact, the waist and skirt are made of dark lace cotton voile, the bib jumper would look attractive in all-over lace; and then again, if an entirely different sort of dress was worn, the skirt and the bib jumper could be made of plaid mercerized madras, and the waist of all over embroidery or linen.

**Changes in School District.**  
A number of changes have just been made in the boundaries of school districts. In the Mount Hood district a small strip was taken from No. 6 and No. 7. The slight changes were also made in Nos. 8 and 64, also in Nelope, No. 54, while the controversy between Mosier and Hood River regarding Nos. 52 and 73 has not been settled.

**Library Voting Contest.**  
The first week of the library voting contest has resulted in a good start being made, the Boreas club leading off with 1,000 votes, with the Baptist club second on the list. The following votes have been cast up to yesterday:

Boreas club, H. R., 1,000.  
First Baptist church, H. R., 35.  
Mrs. F. G. Gage, 14.  
Pine Grove Grade, 14.  
Odell school, 11.  
Frankton Grade, 3.  
M. E. S. H. R., 3.  
M. E. church, H. R., 2.

**Largest Apple Paper Sales.**  
North Yakima, March 12.—The largest sales of apple paper ever reported from this city occurred yesterday when a paper company of Seattle took orders for 10 cars of the small square which are to be wrapped before packing them for shipment. This indicates that the largest crop ever gathered is expected this fall, as only seven cars were required last year. It is of the cars were sold to the horticultural union, which is composed of growers, while the remaining eight were sold to local dealers.

Buy your meats of McGuire Bros. They're the most reliable market in the city. Ever order given our best attention. You don't have to see our meats before you buy to know they're the best. Phone your order. "The proof of the pudding is in the eating." So it is with our meats. Try and see our own make. We would like to have the ladies make our sausage and hard rooms a visit, as a clean kitchen speaks well for the cook, we will let our kitchen speak for us.
