PUSH OREGON TO THE FRONT

On April 20th last the Oregonian published a special industrial edition devoted exclusively to the exploitation of Oregon. It probably contained more special and miscellaneous information about Oregon than any one publication that has ever been issued. It is peculiarly useful and valuable to the homeseeker, because it gives the latest and most reliable information about so many different subjects that the homeseeker is naturally interested in. Almost every department of industry is specialized, and both descriptive and statistical information of a highly valuable character is given extensively and in entertaining form. Residents of Oregon who know its advantages as compared with the congested east, and who still have friends back there whom they would like to see here enjoying the good things of this favored state, can aid in a splendid work without cost and very little effort. If you think your friend would be interested in knowing more about Oregon and might eventually become a valuable citizen, send his name and address to the general passenger agent of the Oregon Railway & Navigation Company, and a copy of this special edition, with a complete summary of the several subjects treated, carefully indexed, will be mailed to him promptly. In this manner you may be the means not only of doing your friend a good turn, but of helping to stimulate the growth and prosperity of Oregon.

Don't forget that commencing September 1st and continuing daily for two months, tickets will be on sale at almost every railroad station in the east to all points in Oregon and the northwest at what has come to be popularly known as "colonist rates." These rates are the cheapest general long distance rates ever established, and enable one to reach Oregon from any part of the United States at but a trifle more than one cent a mile. They are the greatest incentive to colonization and progressive home building for any known agency, and if the restless, dissatisfied element of the east is made to know before hand the advantages he can enjoy here, the problem is solved, and the star of empire will continue to more steadily westward.

Now is the time to spread the gospel of Oregon, so that it may be heard and heeded by the time the rates go into effect. Send one name or two, or a dozen, and you will be exerting a worthy influence toward the upbuilding of our state. Send them to your nearest Oregon Railway & Navigation Co. agent, or to Wm. McMurray, General Passenger Agent, Portland, Oregon.

Farmers Control the Stock. Three-fifths of the stock of the East Side Irrigation Co., which bought the Bone ditch has been sold to the farmers, who have made contracts with the company by which the water rights go with the ditch will be tied up to the land. This places the company on a sound and safe basis, puts the control with the farmers, where it belongs, and gives a perpetual water right to the land where the contract was made subject only to the cost of maintenance.

The ditch was purchased from Mr. Bone for \$72,500. The capital stock of the company is \$50,000, divided into 500 shares. There is a debt of \$30,000 which the new company will assume. It being the intention to hold the ditch to take up this indebtedness, the balance of the purchase price being paid to Mr. Bone from the sale of stock. The amount of 425 shares have been set apart for this purpose, and probably no more shares will be sold, leaving the balance in the treasury until the ditch is enlarged. Of this amount about 300 shares have been sold, and at a meeting of the stockholders Saturday it was decided to extend the time 30 days in order to give more of the farmers a chance to come in at the low price and secure a permanent water right.

The matter has not been fully understood by some, and lack of means has also kept many from buying stock, but Mr. Bone is prepared to make contracts with those who are not ready to pay cash at this time, by which they can secure water on a future payment, and it would be well for those to see him.

The future strength of the ditch company lies in the entire stock being in the hands of the land owners, and the more who have shares the better it will be. There can then be no danger of manipulation of the affairs of the company. The price of water each year will only be the actual cost of maintaining the ditch.

Those who have stomach trouble, no matter how slight, should give every possible help to the digestive organs, so that the food may be digested with the least effort. This may be done by taking something that contains natural digestive properties—something like Kodol for Digestion and Dyspepsia. Kodol is a preparation of vegetable acids and contains the very same juices found in a healthy stomach. It digests what you eat. Sold by Keir & Cass.

Will Make a Fine Road. The Mt. Hood people are very much interested in the new grade that is being petitioned for up Neal creek. The road has just been surveyed, and it will no doubt be granted by the county court. It has been pretty well brushed out at private expense, so that the grade could be readily seen, and it is estimated it will cost about \$2,500 to make a good wagon road. There is some rock to be blasted out, but only at short intervals and the advantage of a water grade to the upper country will be well worth the trouble.

A road up Neal creek has always been contemplated at some time by the early settlers in the valley, but the first road was run over the Star-right and Booth hills to accommodate the ranchers along the way, and also as it was cheap to build, but the new grade will cut out the grades now experienced in climbing both hills, and besides shorten the distance considerably. It is said that a team can trot all the way up the new proposed grade, and consequently shorten the time, as well as make it surer to travel between Hood River and the upper settlement.

While the petitioners are responsible in raising the money to make the new grade, it is expected that the county will help some, and also a popular subscription may be circulated to raise money and build a substantial, permanent grade, and put it in right from the start. The road district also contemplates voting a ten mill tax this year, the major part of which will be applied on the new road.

Two School Books May Be Reduced in Price.

While making comparison of the "text-book circular to the Oregon school officers issued under direction of the state board of education in compliance with law," which has just been made ready for distribution, with the same kind of a circular issued by the Tennessee board of education concerning the new books adopted by the text-book commission of that state, Charles H. Johnson, editor of the Oregon Teacher's Monthly made a discovery which may result in the saving of a few thousand dollars to those Oregonians who will be compelled to purchase the new school books at the opening of the school year, the coming fall, and for the ensuing six years the aggregate saving will make quite a large sum.

The Oregon text-book law provides that the publishing house whose books are adopted shall not at any time during the period covered by the contract charge for or sell its said books at a greater price than is charged for such books in any other state or territory in the United States.

The Tennessee circular shows that for the "First Book in Hygiene, A Primer of Physiology," the exchange price is 10 cents and the retail price 25 cents, while the prices submitted to and adopted by the Oregon committee in this instance were 18 cents and 35 cents respectively, and for "Graded Lessons in Physiology and Hygiene" the prices in Tennessee are 20 cents and 48 cents respectively, while for Oregon they are 30 and 60 cents.

Mr. Jones called Superintendent Ackerman's attention to the discrepancy and the latter forthwith addressed a letter to the publishing house of D. Appleton & Co., New York, who are to supply these particular books, calling their attention to the matter and notifying them that it must be rectified to comply with the Oregon text-book law, which will give a right reduction in the prices of the books mentioned to those who will be required to purchase them during the next six years in this state.—Salem Statesman.

Eczema. For the good of those suffering with eczema or other such trouble, I wish to say, my wife had something of that kind and after using the doctors' remedies for some time concluded to try Chamberlain's Salve, and it proved to be better than anything she had tried. For sale by Keir & Cass.

Married at The Dalles. Accompanied by Mr. and Mrs. Geo. Burton, Mr. Ed H. Stewart and Miss Pearl Willard came up from Hood River last night and at 10 o'clock this morning made their way to the Methodist parsonage where Rev. A. A. Luce said the few important words that made them husband and wife.—Chronicle.

Helmer-Wishart. Louis C. Helmer and Nellie G. Wishart were married last Thursday, August 1, at the residence of Charles Wishart, at Mt. Hood, Rev. H. C. Clark officiating.

Remedy for Diarrhoea, Never Known to Fail. "I want to say a few words for Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used this preparation in my family for the past five years and have recommended it to a number of people in York county and have never known it to fail to effect a cure in any instance. I feel that I can not say too much for the best remedy of the kind in the world."—S. Jemison, Spring Grove, York County, Pa. This remedy is for sale by Keir & Cass.

What do Vacation Days Mean to You?

"Almost every self-supporting girl," writes Mrs. Anna Steese Richardson in the August number of the Woman's Home Companion, "when asked what her idea of a vacation is will reply: 'A time when I can do just as I please, when there are no hours for me to observe, no rules for me to follow.' And when you figure with the average woman wage earner on fifty weeks of work and two of vacation, you can hardly pronounce her definition narrow or selfish. In reality, however, her vacation means much more than this, and in the end she is not satisfied with these privileges alone. The habit of labor is strong, and after the first reaction, which comes with release from daily toil, she finds that the right to do just as she pleases falls upon her. So the girl accustomed to a daily routine of office, store or factory duty, finds that the condition of having nothing to do becomes irksome. She is cloyed with the sweetness of realization. Ninety girls out of every hundred, returning to business after a vacation, admit honestly that they are glad to get back in harness. Once rested, they missed the regular routine. They could not settle down to doing nothing gracefully. Within bounds, this is a normal, healthy sign; but when the worker frets every minute she is away from her post, it means that her nerves are sadly strangled and she is unfit for business. If you do not feel that you are enjoying a vacation, if you feel that business is hateful to you, and all buoyancy has left then something is wrong. Either you need more rest, or a relaxation to recuperate your nerves, or you are not really in the wool business girl's line, but are a housewife or a minister to the physical welfare of her family."

Will Stay in Hood River

The remedy that makes you eat, sleep and grow strong, called Palmo Tablets, will be sold regularly by Williams' Pharmacy, Hood River. These great nerve and constitution builders cost only 50c per box, six boxes, \$2.50.

The Ocean Roared.

"This breeze," said John, "is somewhat faulty. It makes my mustache too quite salty. With smile demure, said pretty Sue: 'Yes, doesn't it! I thought so, too.'—August Lippincott."

Chamberlain's Colic, Cholera and Diarrhoea Remedy, Better Than Three Doctors.

"Three years ago we had three doctors with out little boy and everything that they could do seemed in vain. At last when all hope seemed to be gone we began using Chamberlain's Colic, Cholera and Diarrhoea Remedy and in a few hours he began to improve. Today he is as healthy as a child as parents could wish for."—Mrs. B. J. Johnston, Linton, Miss. For sale by Keir & Cass.
