

CORRESPONDENCE.

ODELL.

Shelley & Son have purchased a livery and transfer business at Carson, Wash., and expect to reside there at October 1. Mr. and Mrs. Roswell Shelley and Ralph D. are known here, having been in the business known as the Little White store several years. The business ability that made them successful here will be assured, bring pleasure and profit in the new field. We regret that they will not longer make their home in Odell and speak for them a welcome where the future may find them.

The date of the entertainment given by Mrs. Pauline Talmage will be September 13 instead of September 20 as stated in last week's Glacier. The program will be given in the church. We are not at present prepared to state as to where the supper will be served but notice will be given as to that on the evening of the entertainment. Remember the date. Next Friday (to-morrow) night Mr. Strong and children are home from an overland trip to Crook county.

Mrs. Post is here from Prineville, Ore. She is visiting her daughters, Mrs. B. T. Young and Mrs. J. R. Crosby.

The question of an eleventh grade in Odell school was decided at the meeting Saturday by a vote of twelve to one against adding the eleventh grade to those already taught in our school.

Mrs. Baird is here from Portland for a visit with her daughter, Mrs. L. D. Boyd.

Miss Bertha Lafferty left Hood River Sunday evening. She went to Walla Walla, Wash., where she expects to enter Whitman college for a four year's course in music. Miss Bertha is by nature endowed with unusual talent along musical lines and has had considerable training and now with such a course as Whitman college affords we may expect to hear glowing reports of her progress. We congratulate her on having been so fortunate as to have availed herself of this opportunity.

An examination will be held at the school house September 19th and 20th for the benefit of those who desire to take the eighth grade examination at this time.

One of the prettiest social affairs ever held in Odell was the afternoon tea at the home of Miss Mayme Howard last Saturday afternoon.

Miss Gertrude Crosby is home from a visit at Buxton, Ore.

Don Crosby and J. W. Wilson are home from the wheat fields of eastern Oregon.

Miss Violet Masket is expected home soon. She is visiting relatives at Columbus, Wash.

Rev. Woods preached a sermon Sunday that was as rare as his sermon, full of good truths, calmly and convincingly told.

The C. E. Sunday evening was very interesting. A special feature was a solo by Mrs. Pauline Talmage, Hope Shelley accompanist. Mrs. Talmage's songs are treats such as are not always attainable in communities such as ours and they are greatly enjoyed by those who are so favored as to hear them. Gertrude Crosby, leader.

Odell school opened Tuesday, Sept. 3, with the following enrollment: Primary, 15 pupils; intermediate, 22 pupils; advanced 14 pupils. Monday, Sept. 9, the enrollment was as follows: Primary, 21; intermediate, 29; advanced, 18. Naomi Boyd and Jolly Shelley are preparing for the eighth grade examination to be held Sept. 19 and 20. They are working faithfully and indications are that their efforts will be crowned with success. Lynn Young and John Shelley are obliged to spend part of each day at home work, but are ambitious to prepare to enter the agricultural college at Corvallis, so will be in school part of each day to work with the algebra classes and read physical geography. We approve of their interest though we regret that they may not devote full time to school work.

The above report of condition of our school at the opening of the second week's school was received from our principal, D. C. Henry, and is an

INDICATION OF HIS INTEREST IN THE WELFARE OF THE SCHOOL...

BINGEN.

Miss Olive Hughes, of Spokane, who has for the past month been visiting her sister, Mrs. Wetherell, left for her home last Tuesday. It is very unfortunate that our kind friend of the Enterprise should so far forget the best interests of this part of the country merely because he cannot have those interests located in his own door yard and use his dirty little sheet to knock any enterprise that is started in Bingen. The development of our section in general should be the main aim of our towns. Now, according to the exalted ideas of this far-seeing tycoon, it would be practical to locate a saw mill in his town, drive the logs down the river, haul them up the hill, cut them into lumber, then haul it back down the hill to the railroad to send it to market. (He certainly shows good business ideas, don't he?) We have the echoes of a terrible bluff not very far distant from our own door step, of a little town on a bluff, that is run on a bluff, and by a bluff, and in fact has so much bluff about it that it has, through the columns of its chief bluffer, bluffed many a good enterprise that should have been encouraged. Although the chief bluffer has run his pet bluff to some of an extent, there is now a town here that is not on the bluff, and never was on the bluff, and never will be on the bluff, and that won't take a bluff from any old narrow eyed bluffer; but we are here and here to stay. If our friend, the Enterprise, is not afraid of Bingen, (as he so often asserts) why does he in almost every issue of his sheet use some little underhanded remarks about our town, merely because he is placed in a position where he can do so. Here are three questions we wish to ask: 1st. Throw a stone into a bunch of dogs, which one yelps? 2nd. Isn't it the dog that gets hit? 3rd. Now who has been doing the yelping around this part of the country?

Mel Wetherell has received his commission as postmaster at Bingen and has formally taken over the office.

Mrs. Cudmore, of the Maple hotel, visited Hood River and Viento Wednesday and Thursday.

Tom Quigley and I. J. Stottle have opened up a logging camp about four miles from town, and will make things hum the coming winter, cutting logs for the Swan mill of Bingen.

A goodly number of Bingen people went to Portland to hear Secretary Tait speak. We hope in the near future we will have a Commercial club organized so we can send a delegate to attend such gatherings and make such reports back to our town as will be of benefit to us.

Frank Cory returned from Alaska Tuesday and the other boys will be home in a few days. Frank looks hearty and says he enjoyed himself immensely in the northern climate, but he was glad to get back home again.

R. A. Byrskett moved in from Trout Lake yesterday and is now occupying the house recently vacated by Attorney W. H. Hornbrook. We are glad to have Mr. Byrskett and his estimable family with us, and hope they will conclude to remain permanently in White Salmon.

Sunday morning, Sept. 15, at 11 o'clock and in the evening at 7:30, Rev. Davis, of Hood River, will preach at the Alpha opera house. Sunday school every Sunday at 10 o'clock. A cottage prayer meeting has been organized and will meet at the homes of anyone who wishes to have the meeting on Wednesday evening of each week. Everybody welcome to attend any of these meetings.

A. L. Richardson has finished the big steel bridge across Wind river, which has been constructed for Skamania county. This bridge is located half a mile below the St. Martin hot springs, and it is the third

bridge to be built at that point during the last few years. Wind river is a fierce stream when it is up, and takes out piers and abutments faster by far than they can be built. Mr. Richardson thinks that this bridge is so constructed that high water in the river will have no effect on it whatever. He has been delayed considerably in completing the work by his men helping the Wind River Lumber Co. get their logs out of the stream, the company being short of men, else he would have completed the work a couple of weeks sooner.

The local school opens under the brightest auspices this year. About 150 scholars are already enrolled, and this number will be greatly increased during the next few weeks, and the five teachers employed will probably have their hands full by the time the school term is well under way. A number of children from the country are coming in to take advantage of White Salmon's excellent schools this year, so the present building will probably be taxed to its capacity, and it may be necessary to build another addition to the school building. Part of the building is now in partition off of another room leaves the building very crowded for hall space already.

Chevalier Wm. Crowhurst, of Seattle, has been in White Salmon for the past several days organizing a cantonment of the Patriarchs Militant, which is the highest degree of Odd Fellowship. On Wednesday evening he perfected the organization and established the canton with the following officers: John G. Myers, captain; W. C. Manly, lieutenant; A. H. Coleman, ensign; The Saksdorf, clerk; R. Field, accountant; H. C. Cook, guard; W. H. Overbaugh, banner bearer; A. J. Sheppier, sentinel; Dr. J. W. Gurnham, poet. The canton starts off with 19 charter members and bright prospects for a rapid growth, as it is the only one in this part of the state, and also has a large number of members in the vicinity. The Patriarchs Militant is a military organization of the Odd Fellows the same as the uniform rank of the K. of P. and the Knights Templar of the Masons order. It is just now being organized in this state, and Good Will is No. 16. It is growing rapidly, however, and in the course of another year they will be everywhere.

MOUNT HOOD. Mrs. Emer Griddle and daughter, Mable, have returned to Mt. Hood for a few weeks. They have been spending the summer with Mr. Griddle at Detroit, Ore., and expect to be with him the coming winter.

E. L. Road has been quite sick during the past week but is improving at present. Chester Walton also has been on the sick list.

Miss Bessie Walton left Monday for her home in Portland. She has been enjoying the summer with her brother, Chester Walton.

Charley Shaw returned to Mt. Hood last Tuesday, after an absence of about two months.

Miss Nan Cooper, with her niece, Miss Dorothy Bailey, came to our settlement Saturday. Miss Cooper says she enjoyed her trip to Jamez very much, but thinks there is no place like Mt. Hood.

Miss Mabel Carter, daughter of Mr. and Mrs. J. L. Carter, was married last Wednesday to Dr. E. D. Johnson, of Portland. They were married at the residence of Mr. Carter. Rev. W. C. Gilmore, of Hood River, performed the ceremony. Only members of the family and Miss Blanche Lafferty were present.

Monday morning the school bell sounded the knell of a long vacation and announced the reopening of another school year. Miss Nan Cooper is the primary teacher and Miss Toot of Portland, is the instructor of the more advanced pupils.

George Monroe returned Monday from the harvest fields.

Had Tetter for Thirty Years. I have suffered with tetter for thirty years and have tried almost countless remedies with little, if any, relief. Three boxes of Chamberlain's Salve cured me. It was a torture. It breaks out a little here and there, but nothing that it used to do.—D. H. Beach, Midland City, Ala. Chamberlain's Salve is for sale by Keir & Cass.

FOR COUGHS AND COLDS

There is a remedy over sixty years old—Ayer's Cherry Pectoral. Of course you have heard of it, probably have used it. Once in the family, it stays; the one household remedy for coughs and hard colds on the chest. Ask your doctor about it. The best kind of a testimonial—'Sold for over sixty years.'

UNDERWOOD. The Underwood Sunday school held its first picnic at the school house Sunday. The program being short, it was well received. This speaks well for the young people. Let us not be weary in well doing. We may enlarge and become greater, for we have room for improvement. We are sorry to note the absence of a number of our people from the immediate neighborhood.

Mrs. Fredrich, a sister of Mrs. H. Nelson, returned from Portland Saturday. She reports Mrs. Nelson improving and believes her recovery is assured.

J. Snyder and Otto Thomas came over Sunday from White Salmon to attend the picnic.

H. Coleman is the busiest man in this section of the county, getting material on the ground for the Dr. Underwood residence. This is to be built of logs, placing them on end. The house when completed will be 16x50. Mrs. Ed Underwood started for Yakima Saturday morning where she expects to stay for several weeks.

Will Stipp, while giving the boys a lesson on fancy canthook flipping on the turndown, got his face too close to the end of the canthook stalk. It struck his lower lip, cutting it through to his teeth, so Will went down to see Dr. Avery, who found it necessary to patch it up with a neat little plaster. Off a ways it looks to be about 4x6.

Mrs. Olson and sister, Miss Huff, came down from the falls Saturday to visit with their friends, Mr. Larson, and to see Dr. Avery, who found it necessary to patch it up with a neat little plaster. Off a ways it looks to be about 4x6.

Recent meetings of the Underwood Improvement club have demonstrated the good work being done and that may still be done by the organization. Interest in matters pertaining to advancing the interests of the community represented by the membership, is constantly increasing, and as is shown by returns of petitions to the north bank railway officials, signed by considerably over 200 property owners and residents, everybody is 'pushing.'

A large committee from Trout Lake, Husam, Underwood, Lower White Salmon valley, augmented by prominent business men of Portland, all who are in the community, are now in Portland in the interest of the club. Arrangements are being made for more satisfactory steamboat landings and the club is in communication with state and county officials regarding betterment of roads and bridges. The whole upper valley is anxious to get the roads and bridges leading to the mouth of the river in such condition as to permit of being freighted and traveled over, owing to the great saving in distance and grade. The new state road will be the natural water grade roadway being the output of the entire White Salmon River valley to within a stone's throw of the present Underwood landing. This whole district for 25 or 30 miles up the valley is represented in the Underwood Improvement club, and while we have many obstacles to remove and many accommodations to provide before we are prepared to properly take care of the daily arrivals of home seekers and investors, and to provide facilities for handling the large and constantly increasing traffic from the interior, the officers and every member of the club have reason to congratulate themselves on the success already attained and the outlook for further development is brighter and surer every day.

The club feels very grateful to the good citizens of Hood River for their kindly and most valuable offers of assistance, and if they will pardon our copying after their progressive and up-to-date methods of 'boasting' we hope very soon to be able to 'put Underwood on the map.'

P. I. Packard, Sec'y.
