

CORRESPONDENCE.

ODELL.

Mrs. Connaway sent to Portland last Thursday and will visit in that city, McMinnville and Seila. She expects to return to Odell in about two weeks.

Little Robena Tucker was very sick last week and was taken to the hospital at Hood River for treatment. She has so far recovered as to be able to be brought home the latter part of the week.

Twenty three cars of wood shipped from "The Summit", or Nell's siding on the Mt. Hood railroad is the record for last month. Thirteen of these were shipped last week.

E. L. Kleener is home from a visit to his father's home in Fairbairn, Minn. Mr. Kleener was called there by the death of a brother.

Mr. Collins visited in Neffa Friday night returning to Portland Saturday. Mr. Collins is still under treatment for an abscess resulting from an accident about a year ago.

Mr. and Mrs. Roswell Shelley left Odell Friday and expected to stop Friday night in Hood River, then take the boat Saturday bound for Carson, Wash., where they will reside. They have a cottage home in Carson and Mr. Shelley expects to engage in the real estate business. He is enthusiastic over Carson's possibilities but does not expect to forget Hood River. Friends wish them success in their new home and hope they may find time to visit Odell in the near future.

We are told Mr. Lewis, of Portland, has purchased a tract of land from Robert Livingstone, of Portland. This land is situated south of Odell and south of the Livingstone house. We understand Mr. Lewis will erect a home on this land. Should such be the case Odell will gladly welcome this family.

Wallace Young has been helping Ralph Shelley in his livery and transfer business at Carson. Ralph's brother, Hugh, is interested in the business and will be with Ralph, and Wallace Young will come home where he will be busy freighting.

As last Sunday was the fifth Sunday and not filled by previous appointment Rev. Woods kindly came to Odell and delivered a sermon in the evening.

Mr. Connaway has installed a bargain counter where many useful articles may be found at five, ten and fifteen cents. Beginning October 1 Mr. Connaway is selling flour and feed at Hood River prices. Buying for cash and in car lots makes it possible for him to make these prices.

The Mr. Borne mentioned in last week's Glacier was Mr. Lawrence or Lorenson and as such will be remembered by those who knew him some 17 years ago.

Ralph Lewis came in Friday evening from the forest reserve.

MOUNT HOOD.

Mount Hood is to have quite a representation at the state agricultural college at Corvallis this year. Misses Lottie and Glenna Wilson started last Friday to attend school there. Geo. Thomas and Hobart Booth, already students there, have returned to resume their studies.

Hugh Knight has come back to Mount Hood to look after the apple crop on his father's place.

Mrs. Elmer Griddle goes to Detroit this week to meet her husband and reside this winter. She has rented their residence here furnished to Leon Baldwin for the winter.

Mac Rush has gone to Canyon City to spend the winter.

Orville Biddinger left last Friday to spend a week with his sister at Frankton, after which he expects to go on to Portland.

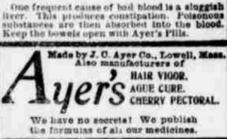

The regular meeting of the grange is to be held next Friday evening, October 4.

Mr. and Mrs. Davidson, of Illinois, are visiting Jesse Davidson at this place.

Rev. Johnson held services at Mt. Hood both morning and evening last Sunday. He gave us two splendid sermons which were listened to very attentively by those fortunate enough to be in attendance.

Does Your Heart Beat

Yes, 100,000 times each day. Does it send out good blood or bad blood? You know, for good blood is good health; bad blood, bad health. And you know precisely what to take for bad blood—Ayer's Sarsaparilla. Doctors have endorsed it for 60 years.

WHITE SALMON.

Work on Gilbert Bros.' new bank building is progressing nicely, the brick layers being nearly to the top of the windows. The brick work will probably be finished in another ten days or two weeks.

Mr. Areas is building a substantial residence on land purchased from M. M. Maine, at the foot of the hill back of Mr. Maine's residence. The concrete foundation is now finished and the carpenters are pushing work rapidly on the superstructure.

Herbie Hunsaker was driving the horses out of the corral Monday evening when he was kicked in the face by one of them and quite severely injured. Dr. Gearhart had to take several stitches in his forehead, but now the little fellow is getting along all right and will soon be well again.

R. A. Byrket has purchased an acre of ground from K. Lautenschlag, back of the Washington hotel, and will at once commence the erection of a \$2000 residence thereon. It is a slightly to the river and gives a fine view of the city and the country on the other side. We are glad that Mr. Byrket has purchased his property for it proves that he has decided to remain in White Salmon and become one of us.

Dick Wright was severely injured at Glenwood Thursday forenoon about 11 o'clock while blasting stumps. He put in a blast which did not go off, and after waiting 25 minutes he went and stooped down to pull out the fuse, when there was a terrific explosion, and the dirt struck him in the face with great force. Fortunately the stump flew away from him, otherwise he would doubtless have been killed outright. He was taken through here late last night to Hood River for medical attention by his brother-in-law, Ed Murray. It is not known just how badly he is hurt, but it is feared that both his eyes are severely injured.

Dr. J. S. Johnson and J. S. Nehrangen, of St. Paul, Minn., have been in White Salmon several days looking over the country with a view of making investments. These gentlemen have already made some investments here and will add to them from time to time. They are buying real estate that is not too far out and that can be cut up into small tracts which they can sell to their friends who will then come out and improve them. Dr. Johnson states that he now has 20 families on his list that will come out at once and locate, and thinks that by spring there will be at least 200 families ready to move out from St. Paul and locate in the White Salmon valley.

Thus they come. The fame of the White Salmon valley is already beginning to spread and during the next few years people will flock in from all parts of the country, until this beautiful valley becomes one of the most thickly settled portions of the north west.

J. E. Hanna made a business trip to The Dalles Friday.

UNDERWEAR

All summer Underwear for Men, Women and Children, go at half price. Get ready for next year.

R. B. BRAGG & CO.

BINGEN.

W. W. Swan, president of the Joylin Improvement Co., will pay out on the first day of October about \$3000 for labor and logs for his new mill. This is only a starter as the mill is still under construction. Four or five enterprises of this kind will put Bingen on a par with other manufacturing cities on the new North Bank road.

The steamer J. N. Teal is doing a thriving business at Bingen landing. They have unloaded over 90 tons of merchandise for the Bingen and Glenwood merchants in the past 12 days. The Glenwood merchants try all kinds of routes for their goods, but always fall back to the only natural outlet to the back country—Bingen. The steamer Teal has cut out landing at the White Salmon dock, as business did not justify stopping. Any of our friends who wish to take the Teal to Portland are invited to come to Bingen and by calling on J. E. Reynolds may secure tickets or any information necessary. Mr. Reynolds has been appointed agent at Bingen.

Mr. Rankin, of White Salmon, has moved with his family to Bingen and will at once start in the hotel business. Mr. Rankin needs no advertisement as Mrs. Rankin has a splendid reputation as a landlady.

John Terry has moved in from his ranch and started in the transfer business. He is having all the work he can do, but this is nothing new for Bingen, as there is always plenty to do here and the money is always ready. We don't have any lumber or labor liens filed here.

There was a very enjoyable dance held in the Reynolds hall Friday evening by the Cod Fish club. There

was a good attendance and splendid music. All the best dancers from White Salmon were down and enjoyed themselves. There was a fine lunch served at the Maple hotel, which was also much enjoyed.

Fred Wilkin has moved to Bingen and already has the lumber on the ground for his new residence. He has a beautiful location. O. L. Henderson will commence the erection of the building Monday morning.

Mel Wetherell and K. A. Page are on a bear hunt in the mountains back of Carson, and we all feel very sorry for the bears.

MOSIER.

Fall being near at hand the farmers are all busy gathering their apples and report the crops as very good.

A. C. McCarger is having a telephone put into his residence.

Peter Henningsen and family are preparing to move to The Dalles where Mr. Henningsen has accepted a position in the commission business with Mr. Kurtz.

Mrs. I. N. Thomas and family returned from the hop yards last Wednesday.

Born—To Mr. and Mrs. Allington, Thursday, Sept. 29, an eight pound boy.

Ed Dezell was a Dalles passenger last Friday.

Alfred Evans returned from the harvest fields and left Sunday for Corvallis to resume his studies.

Miss Hazel Wiedrick came up from Hood River on a visit and returned Thursday, accompanied by her sister, Miss Ellen.

Misses Carrie Brown and Evelyn Hawes spent Sunday in The Dalles.

Frank Macey was a Hood River passenger last Saturday.

The Rebekah lodge gave a social last Friday.

Mrs. Althea Akers spent a few days in The Dalles last week.

Mrs. Chas. Stark returned to her home in The Dalles after spending a few days at the home of W. A. Stark.

Mr. Steelquist and Mr. Galley have been surveying the land owned by A. L. Dundas into 10 acre tracts.

Mrs. Arthur Middlestard and baby have left for Butte, Mont., where she will join her husband. Her father, W. F. McClure, accompanied her part of the way.

Paul Evans has returned from the harvest fields.

Miss Agnes Phillips, who has been visiting friends the last month, has returned to her home in Portland. She was accompanied by Miss Bertress Coyle.

Mrs. Dick Evans and daughter, Maud, returned home from The Dalles Sunday. They were accompanied by Mrs. Evans' niece, Miss Denton.

Mrs. Arms, of Portland, has purchased a 10 acre tract of land from A. L. Dundas.

R. S. Smith has purchased 80 acres of land from Mr. Steelquist.

Dr. McCrom and friend, of Portland, were up visiting at the doctor's farm.

H. F. Claton, of Portland, has purchased 20 acre tracts of land from A. L. Dundas. Mr. Claton was greatly pleased with the country.

K. Wright, of Los Angeles, Cal., was up looking for a location for a box factory.

A. L. McKenna, of Portland, was up looking after his property and also took several pictures of apple orchards.

E. L. Root has completed the hauling of 50 tons of hay to The Dalles.

Mr. Martin, of Portland, has purchased a 10 acre tract of land from A. L. Dundas.

Geo. and John Carroll and Geo. Chamberlain visited Hood River one day last week.

Geo. Huskey rather surprised his Mosier friends last week by announcing his marriage with a young lady from Brownsville. We wondered why George made so many trips to that place this summer.

Mosier is gradually emerging from its lethargy and "mosiebackism," as was plainly in evidence at the special school meeting held last Saturday for the purpose of deciding whether or

not the 9th and 10th grades should be taught in this district. Although strongly opposed by a few old residents, who apparently desire that things be continued in the same old rut, it was decided by a vote of 20 to 7 to take up these grades here. Fifteen minutes' time was devoted to discussion of the subject and both sides were fully aired, and the progressive and up-to-date element proved beyond doubt that it was the proper thing to do. With good schools we can now hope that the better class of intending settlers may be induced to "pitch their tents" in Mosier, and the country and town's many and varied resources developed. About one acre in fifty of the available first-class fruit land in the Mosier district is in productive condition, owing to the fact of being held in large tracts by people who have not the capital to develop it.

The Moore children have been entertaining a siege of the whooping cough.

The 23 year old horse of Hans Lage got cut in the wire last week so that he had to be killed.

Sam Campbell is in Idaho.

Corvallis students of this neighborhood have returned to again take up their work at that place. Miss Mable Robinson is at Monmouth.

Ralph Ordway has returned from Massachusetts where he has been the past few months.

The new bell in our church has a very pleasing tone. Some difficulty was experienced in getting it into place. It weighs 410 pounds. Now with a bell to call us to services, it seems that there should be more promptness in attendance.

Our Sunday school opens at 10 o'clock. It is not yet known when the new pastor will arrive.

A 10 cent afternoon tea will be given at the home of Mrs. J. O. Mark Thursday afternoon, Oct. 10, under the auspices of the Ladies Aid. A short program will be given and supper served from four to five o'clock. The public is invited.

Fourteen ladies were present at the meeting of the aid at Mrs. Rice's last of last week, a very pleasant afternoon was spent.

The Pine Grove Ladies Aid may well be proud of the success of their society in both a social and financial way. Besides subscribing and paying \$80 towards the building of the new church, they have carpeted it, purchased four dozen new hymnals, paid the janitor, subscribed towards the preacher's salary and paid numerous minor expenses. In fact they have had about \$200 credited to their first year's work.

Should the weather be favorable Thursday afternoon passenger may see a host of ladies husking corn in Lage Bros.' field. 'Tis but the Ladies Aid laboring to secure the prize offered to the lady who husks the most corn besides adding 20 cents to their treasurer for each lady present.

Mrs. Hitchcock, Mrs. Gorrill and Mrs. Butler, of Oakland, Cal., after spending two weeks visiting with Mrs. G. W. Simons, left for their homes Wednesday last week.

Mrs. H. C. Wortman, of Portland, is visiting with Mrs. Simons at the present time.

Rev. E. D. Bronson failed to reach his appointment at the Crapper last Sunday afternoon.

Rev. A. W. Berberat, a minister of the Menonite church, of North Yakima, Wash., commenced a series of meetings at the school house last Sun-

day afternoon. He expects to hold evening series through the entire week. He depends upon having the assistance of Rev. H. J. Pontius, of Bellingham, Wash.

We were very glad to see that E. E. Lyons, after his long and painful illness, was able to attend church last Sunday.

L. H. Arneson, of The Dalles, visited with friends in this neighborhood from Saturday afternoon of last week until Monday of this week.

Nathan Hackett went to Portland Monday last week.

Mrs. Nichols and Mrs. Markham, of Rockford avenue, attended Sunday school and church at Crapper last Sunday afternoon.

Mrs. Nickelson, of Belmont, attended church at Crapper last Sunday afternoon.

Miss Ellen McCurdy was seen on our street one day last week riding on a nice new pony. Congratulations Miss Ellen.

Dr. and Mrs. H. L. Dumble, of Hood River, visited with Mr. and Mrs. P. H. Martin last Sunday.

Quite a number of Crapperites returned from the hop yards last week.

DUKES VALLEY.

We are having a fine fall and the people are taking advantage of it. There are lots of improvements going on here. James Dunn and Mr. Taylor are building dwellings on their land. Dunn bought from Knox, and Taylor bought six acres from Mr. Penta.

John Dodson is building a barn. Mr. Foltz has built a barn and wood shed. Leonard Dodson is building a dwelling on the old man's place. J. E. Wheeler has built an addition to his dwelling. Dave Selshery and Roy Slocum have both built barns. Chas. E. Earls and Wm. V. Glascock have built houses on their homestead west of here.

Dukes Valley is fast coming to the front. We have a store now so we do not have to go to Hood River or Odell.

Mr. Knox said he will give another corner lot to any one who will put up a store or a bank, or in fact any kind of a business house that would improve the valley. Mr. Knox is a man who likes to see anything that will improve the valley.

Our school is progressing nicely under the watchful care of Miss Hulda Henriks. One month is closed and every one can speak a good word for our school and we know how to appreciate a good teacher.

We understand that Chas. Stanton has sold out but has taken a contract to clear ten acres of land, so he will be out in a while yet. We would be glad to see him buy a place here and stay in the valley.

There was quite a number of friends of J. D. Cameron gathered at his home Sept. 25 and had a pleasant evening. They spent the evening singing and eating ice cream.

Born—To Mr. and Mrs. Geo. Tupper, Sept. 27, a boy. Mother and child getting along fine.

UNDERWOOD.

Our school opened Tuesday last week with Mrs. Kollok as teacher. As the weather was rather unexpected to some, the attendance was light, but it is expected all pupils will be on hand Monday.

B. F. Boels is getting material on the ground for a new residence. He has selected a very beautiful site for building.

Herman Buechli came up last week to visit friends. He has been spending several months in the mines in southern Oregon that he has an interest in.

Frank Thornton, who has been laid up with a wounded thumb, is able to be out again; or we should say he was down again, on the Hood town site. We thought at first Frank was wanting to buy a town lot, but have wanted to come to the conclusion that he is trying to contract with some parties down there, as he is quite a hand to contract jobs.

J. W. Marsh came up from Portland Saturday. Mr. Marsh recently bought 40 acres of H. Nelson which he intends to put in cultivation soon.

We notice by the Chronicle that an

Iowa college professor of horticulture has visited The Dalles and is surprised that they can grow such excellent fruit without irrigation. Now if the professor had dropped off at Underwood he certainly would have been surprised sure enough for we have peaches to not only make the mouth water, but make the eyes water to look at; yellow, rich, meaty and sweet to eat. And, too, if the professor saw us we would surprise him again by showing up four crops of alfalfa to the season. All done without irrigation.

The U. S. hatchery people are making large catches in the last few days. It keeps the boys hustling to keep the fish off the shoal at the mouth of the river, where many of them are wanting to spawn.

Professor Kollok is increasing his force on the fruit ranch. He is preparing several acres to set in orchard this fall.

G. L. and J. M. Carroll, of Mosier, were in Hood River Friday on business connected with the Mosier Fruit Growers association.

MOSIER

Fruit Lands.

In large or small tracts. Some very good land at low prices at present. Good growing community. Six miles east of Hood River. Also homesteads and relinquishments. Parties wishing to buy will do well to write or see
