TWO YEARS AGO we put in a Small Picture Framing Department. Today our Framing Department is the largest in the city. Why? Because we have made a study of this department. We make numerous visits to the large art stores and pick up new ideas in framing. Our stock of moulding is always new and the patterns nifty. Our work has to be absolutely the best or a frame does not go out of the shop. We have been forced to build a room especially for this department and have fitted it with the latest tools for framing. No Old Stock to Work Off. It will pay you to look over when in need of a frame. Picture Framing a Specialty. Slocum's Book Store
