HOOD RIVER, OREGON, FEBRUARY 13, 1908

NO. 39

SOCIETIES.

HOOD RIVER COMMERCIAL CLUB—Meets every second Monday in each month at 8 p. m. in the club rooms over Jackson's store. A. A. JAYNE, Secy. U. S. DAVIDSON, Secretary.

HOOD RIVER LODGE NO. 25, O. F. S.—Meets Saturday evening on or before the 15th moon. A. D. CLARK, W. M. D. McDONALD, Secretary.

HOOD RIVER CHAPTER NO. 27, R. A. M.—Meets first and third Friday nights of each month. E. G. EASTMAN, H. P. K. E. O. HANCOCK, Secretary.

HOOD RIVER CHAPTER NO. 25, O. F. S.—Meets second and fourth Tuesday evening of each month. Visitors cordially welcomed. GARRIE BAILEY, W. M. MISS IDEL, WOODWORTH, Secretary.

HILWILDE LODGE NO. 10, O. F. S.—Meets in Fr. hall every Thursday night. GEO. THOMSON, Secretary.

FIFTEEN ENCOUNTER NO. 48, I. O. O. F.—Regular meeting second and fourth Monday of each month. GEO. THOMSON, C. P. H. C. SMITH, Secy.

KEMP LODGE, NO. 18, I. O. O. F.—Meets in Odd Fellows hall every Saturday evening. Visitors cordially welcomed. E. T. FOLDS, W. M. J. E. CLARK, Secy.

HOOD RIVER LODGE NO. 12, O. F. S.—Meets in Fr. hall every Thursday night. Mrs. E. S. MAYES, Secy.

W. O. W. meets the 2d and 4th Saturdays of each month at I. O. O. F. hall. Visitors cordially invited. F. W. MERRY, Secy.

WATCOMA LODGE NO. 30, K. O. P.—Meets in K. of P. hall every Tuesday night. J. E. NICHOLS, K. of R. H. K. O. P. C. C. F. W. MERRY, Secy.

HOOD RIVER CAMP, NO. 792, M. W. A.—Meets in I. O. O. F. hall every Wednesday night. C. L. IAKIN, C. P.

HOOD RIVER LODGE NO. 24, WOMEN OF WOODEN—Meets at K. of P. hall on the 1st and 3rd Fridays of each month. L. M. MERRY, Secy.

RIVERSIDE LODGE NO. 58, A. O. U. W.—Meets first and third Saturdays of each month. GEO. SLOCOM, P. M. C. H. S. MERRY, Secy.

OLYMPIA ASSEMBLY NO. 10, UNITED ARTISTS—Meets first and third Wednesdays, work second and fourth Wednesdays. W. B. MCGUIRE, M. A. E. H. HARTWIG, Secretary.

COURT HOOD RIVER NO. 42, FORESTERS OF AMERICA—Meets every Saturday evening in K. of P. hall. J. O. ZOLLS, C. P. J. C. BROSIDS, Secretary.

CANBY POST, NO. 16, G. A. R.—MEETS AT A. O. U. W. hall, second and fourth Saturdays of each month. E. C. H. S. MERRY, Secy.

CANBY W. H. C. NO. 16—MEETS SECOND AND FOURTH SATURDAYS OF EACH MONTH AT A. O. U. W. hall at 2 p. m. M. J. GILL, President. LYDIA SUMNER, Secretary.

MOUNTAIN HOME CAMP NO. 360, B. N. S. A.—Meets at I. O. O. F. Hall on the second and fourth Fridays of each month. Mrs. H. F. FERLIE, R. S. A. M. S. F. FERLIE, Recorder.

PAYNTER LODGE, NO. 310, M. B. A.—Meets first and third Fridays of each month. A. G. GUGLIARDI, Secy.

CHOICE FRUIT LANDS
This is where fruit large and small grows to perfection and commands the highest market price.
A Favorable Location.
In Skamania County, the Southern part of Washington, on the eastern slope of the Cascade range, thus lying between the two extremes—the excessive rainfall of the coast and drought of the eastern part of the state; and directly opposite Hood River.

There is no Boom.
Our land is selling on its merits and at reasonable prices.
A Specialty of Small Tracts.
We have now completed the survey of a large tract and can furnish for ten acres up. Come and make your selections as a delay means that you will pay more money as prices are advancing.
I have also Klickitat County grain and grazing lands, highly improved farms at reasonable prices.
Write or call on
Dallas—The matter of establishing a cannery in Dallas to be conducted by home stockholders, is now well under way, over two-thirds of the necessary capital being already subscribed. The capital stock has been divided into 100 shares of the par value of \$25 each, not more than two shares being sold to any one person or firm. A site for the cannery has already been donated in the north part of the city, and the building will be started early in the spring. There is enough fruit in and around Dallas and vicinity to make the proposition a paying one, and the work will be gradually enlarged to keep pace with the number of new trees being set out.

North Powder—The last wagonload of the four carloads of mining machinery delivered here last week for the Indians or Fair, group of mines, 22 miles from North Powder, at the head of Grand Hood river, has started on the new road. The Indians Mining company, which owns and operates the mines, has 40 men at work installing a new concentrator, the capacity of which is 100 tons per day. There is also an electric hoist under construction for the purpose of sinking shaft 1,000 feet below the present level.

Engage—An order has been placed with the Portland firm of 1,000 trees to be planted along the streets of this suburb of Eugene. The trees are to be planted about 50 feet apart on both sides of the street and will stretch over a distance of eight miles.

Weather "permitted"—the work on the Cannon cut, which has been causing so much trouble to the Porter Bros., will be completed so the trucking cars can pass there freely in two days or less. This has been the most stubborn work on the P. &

GENERAL NEWS OF LOCAL INTEREST
ITEMS FROM NEIGHBORING TOWNS

Ed. J. Perkins has been heard from Bliss, the insurance agent for whom he did business, received a letter from him dated January 22 from New York, saying he would leave that night for Santa Domingo and for "all whom it concerned" to see his father as to financial difficulties and "papa" would make it all right.—Chronicle.

W. H. DeWitt, assistant manager of the telephone telephone company of Hood River, is in the city looking over the field with a view to recommending the installation of a system covering Yamhill, Union, Willowa, Baker and Walla Walla counties, and there is every prospect that a favorable report will be made, says a Pendleton dispatch. It is the intention to build from Pendleton to Walla Walla, connecting all intermediate points, and also from Pendleton to La Grande and from there to Baker City and Willowa county. Lines will also be extended from Pendleton into the interior of Grant, Morrow and Harney counties. Although engineering work has well supplied with long distance lines it is believed there is still room and business for the automatic and as the new system is meeting with much success elsewhere it is believed eastern Oregon will receive it well.

Yesterday was the first good day for spraying fruit trees we have had for two weeks and it was appreciated by orchardists generally. They were all busy as the time is growing short in which to do the spraying. Beebe was out with his bygonometer, testing the sprays used to see that they were up to standard, as much of the spraying last year was done with home made material, which in some cases was too strong and in others too weak. If you are expecting to raise good fruit this year, it is time to get busy and trim your trees and then give them an effective spraying.—Eugene Register.

A move is on foot to petition the postoffice department to change the name of the postoffice at Cumas, Wis., to LaCamas. The confusion arising in the minds of strangers in the name Cumas and LaCamas is against the interest of the town. The town was platted as LaCamas and the old name for the city is LaCamas, but the postoffice is Cumas and from this arose, especially in the minds of strangers, considerable confusion.—LaCamas Post.

The city council at its regular session on last Tuesday evening settled with Fred Lehmann by paying him \$200 damages for the loss of his mule, which was killed the latter part of December, by coming in contact with an electric wire in the eastern part of the city. Lehmann is a milk hauler and owned an excellent span of mules, which he valued at \$500. While driving into town early one morning in December one of the mules stepped on a live wire and the lighting circuit, which had blown down the night before, the mule fell and in trying to extricate him, Lehmann barely escaped death as he seized the wire heavily charged with electricity. Lehmann was represented by Attorney H. T. Bagley, who maintained that the city was unquestionably liable for the full value of the animal. A settlement was effected by the payment and acceptance of \$200.—Hillsboro Independent.

Springbrook—The fruitgrowers of Springbrook, Yamhill county, meet weekly for an open discussion of their local interests. C. E. Hoskins spoke at some length on the necessity of a more systematic and vigorous effort to clean up orchards and also introduced the question of getting in touch with the Willamette Valley Development League. Others present spoke of the various phases of orchard work. Resolutions were adopted declaring for a vigorous campaign against the San Jose scale and in upholding the state inspection laws and courts in enforcing the laws where this is found necessary.

The Hood River Wins.
The Hood River basket ball team won the game with The Dalles Friday evening. The Chronicle reports the same as follows:
In The Dalles-Hood River basket ball game last night at Baldwin hall in this city, Hood River was victorious with a score of 35-18. The game was held fought from start to finish and Hood River earned every basket made.
Hood River had the better of the game all the way through, though in the second half the Blues rallied and made several baskets in quick succession. The Blues were, however, unfortunate in having two of their men really unable to play, though for lack of players they were forced to go in. Claude Hill had been sick for some time and it was only by dint of grit that he stayed through the first half. Harvey Humphrey had the misfortune to sprain his ankle near the beginning of the game. But to lay excuses aside, the Blues were clearly outclassed as to weight and muscular development. The Hood River boys are a stocky bunch and showed plainly the result of constant practice, while the locals were inferior in this respect.

Elk Teeth Stolen.
A necklace of 133 elk teeth, valued at \$500, has been stolen from the collection of Mrs. W. W. Wiggins exhibited by the game. But to lay excuses aside, the Blues were clearly outclassed as to weight and muscular development. The Hood River boys are a stocky bunch and showed plainly the result of constant practice, while the locals were inferior in this respect.

The Mothers' and Teachers' Club
will meet for permanent organization on Friday afternoon, February 14, at 3 o'clock in the high school rooms. The following program is being prepared for the occasion:
Music—Jeanie Edgington
Paper—"How to Beautify the School Rooms and Grounds."
Mrs. Wm. Rand.
Paper—"The Evils of Cramping."
Mrs. H. M. Abbott
Paper—"Why Home Work is Required."

FAIR WILL BE HELD IN 1909
WORK IS PROGRESSING RAPIDLY
Fair Will Be Held Next Year, Whether Congress Makes an Appropriation or Not.
Seattle, Feb. 10—Owing to alight rumor that the Alaska-Yukon-Pacific Exposition is going to be postponed caused by the recent financial flurry, the executive committee of the 1909 fair has passed the following resolution:
"It is the unanimous sense of the members of the executive committee that the Alaska-Yukon-Pacific Exposition be held at the place and time hitherto planned—Seattle—from June 1 to October 15, 1909."
The contract for another large exhibit palace, the agricultural building, has been let for \$81,830. Six of the main buildings will soon be well under way. The manufacturers building is progressing rapidly.
The executive committee announces that there is plenty of money on hand with which to carry out the work and that money for stock is coming in all the time.
Word was received from Washington, D. C., from Vice-President John H. McGraw, Director of Exploitation Henry E. Reed, and indicates that congress is looking with favor on the exposition. The appropriation bill will soon come up for consideration. The government has asked for more ground space than was originally allotted to it.
The management of the exposition has secured the services of Col. Henry E. Doeh, of Portland, Oregon, as director of the division of exhibits. The exhibit department is being organized and prospective exhibitors can now receive information in regard to space by applying to Col. Doeh. Already many large firms throughout the country have applied for space.
Col. Doeh represented the state of Oregon as commissioner at New Orleans, Chicago, Omaha, Buffalo, Charleston and at the Fifth International Exhibition held at Osaka, Japan, in 1903, he was commissioner from the state of Oregon and Lewis and Clark Exposition. The director of the Japanese exposition recognized Col. Doeh's ability as an "expositionist" and placed him in charge of all foreign exhibits. His services were recognized by the emperor of Japan, who decorated him with the medal of the chevalier of the sacred treasure. Col. Doeh was also given a diploma of merit for his services at the Osaka Exposition. It bears the signature of the mikado and the royal seal. Col. Doeh was also commissioner general to the Louisiana Purchase Exposition for the Lewis and Clark fair.
That a successful exposition can be held on the Pacific coast, that the Alaska-Yukon-Pacific Exposition which will be held at Seattle in 1909, has every chance of being an artistic, educational and financial success is indicated by the comparison of the attendance figures of the Lewis and Clark exposition held at Portland, Oregon, in 1905 with those of the Jamestown exposition held at Norfolk, Virginia, in 1907.
The official statement of admissions to the Jamestown exposition for the exposition period shows a total of 2,844,452 persons who clicked the turnstiles. Portland's total attendance was 2,554,848 or 289,604 less than Jamestown's. But Portland's paid admissions were 1,588,585 against Jamestown's 1,401,409, or 187,176 more. Portland only had 65,980 free admissions, whereas Jamestown had 1,443,043.
When the size, cost and population of the surrounding country in which the two expositions were held are taken into consideration, it can be easily seen how successful the western exposition was over the eastern one. Portland was a comparatively small world's fair as compared to Chicago and St. Louis, yet it drew about 2,800,000 persons from east of the Rocky mountains. Principally, most of these people came west to see the country and incidentally the Lewis and Clark show, which was the magnet. The Alaska-Yukon-Pacific Exposition will have the same drawing card behind it. The cost of the Portland exposition was far less than that of Jamestown. The government building and exhibit at Portland were valued at about \$800,000. The government spent about \$2,000,000 at Jamestown.
The most startling thing about the success of the Lewis and Clark exposition was the fact that it only had about 1,800,000 people within a radius of 500 miles from which to draw its attendance, whereas Jamestown with a radius of 2,255 miles had about 30,000,000 people. Also Portland ran for only four and a half months, while Jamestown was open for seven months.
Portland was able to pay back 20 per cent to its stock holders and was entirely out of debt by the middle of the exposition. Jamestown will not pay back anything and is hopelessly in debt to the United States government.
The management of the Alaska-Yukon-Pacific Exposition figures conservatively from the example set by Portland, that the paid attendance at the 1909 fair will reach 2,500,000, which will make it one of, if not the most, successful expositions ever held.

When to Pay Taxes.
1. If you pay your taxes on or before March 15, you will be allowed a rebate of three per cent.
2. If you pay your taxes between March 15 and up to and including the first Monday in April, there will not be any rebate allowed, neither will there be any penalty or interest added.
3. If your taxes are not paid on or before the first Monday of April they will become delinquent, when there will be added a penalty of ten per cent and the taxes will also draw interest at the rate of 12 per cent per annum in addition to the penalty.
4. If you pay one-half of your taxes on or before the first Monday in April, then the remaining half may run up to and including the first Monday in October following. But if the last half is not paid by the first Monday in October it will become delinquent and there will be added to such balance a penalty of 10 per cent and in addition such balance will bear interest at the rate of 12 per cent per annum from the first Monday in April until paid.
5. On all personal property taxes, if one-half is not paid on or before the first Monday in April, the law compels the sheriff to levy upon and collect the same after May 1, hence, to prevent a levy upon personal property for one-half to be paid as above stated.
6. The law compels the sheriff to sell all property on which taxes have not been paid and that such sale shall not be held later than March 1 of the year succeeding the year in which the levy was made.
7. The property will be sold to the person bidding the lowest rate of interest and certificates will be issued therefor and deed given to such property sold, unless redeemed within three years of the date of such sale.

Issues Spraying Circular.
"Spray 'em or cut 'em down," says Secretary Williamson, of the State Board of Horticulture, in discussing the care of fruit trees and vines. He is now engaged in sending out the formulas for spraying for San Jose scale, woolly aphis, codling moth and other things that prey on the fruit crop of Oregon.
"Now is the time for winter spraying, and it should be done right away," he said. "Where the trees are not worth spraying they should be cut down and burned, as we do not remain in the habit of spraying, even rose bushes should be sprayed, in order that they may not harbor the San Jose scale."
His circular says, in regard to lime and sulphur spraying:
This is the spray to use in winter for killing San Jose scale, and all other insects which are on fruit trees in winter. It is also one of the best fungicides. For destroying San Jose scale on fruit and other trees and shrubbery, use at any time during the winter at full strength of the formula given below. For preventing apple-tree anthracnose (dead spot or canker) spray with full strength of formula about the first of November. For preventing peach leaf-curl apply just before buds open in spring.
Formula: 15 pounds of unslaked lime, 15 pounds of flowers of sulphur, 30 gallons of water.
Place part of the water in the can or kettle and start the fire, and when the water comes to a boil add the lime and sulphur. Boiling should be continuous for at least an hour and until the sulphur has been dissolved. The liquid is ready for use. It must be stirred while the boiling is going on.
Commercial preparations of the lime sulphur spray are on the market in liquid form and are extensively used. Those which are properly made will contain at least 15 pounds of sulphur in solution in each 50 gallons of spray.

White Salmon Valley Bank
The small depositor receives the same courteous treatment as the larger ones. We have both.
