

# The Hood River Courier

VOL. XIX

HOOD RIVER, OREGON, FEBRUARY 27, 1908

NO. 41

## SOCIETIES.

**HOOD RIVER COMMERCIAL CLUB**—Meets every second Monday in each month at 8 p. m. in the club rooms on Jackson's store. A. A. JAYNE, Pres. P. S. DAVIDSON, Secretary.

**HOOD RIVER LODGE NO. 28, A. F. & O. E. S.**—Meets first and third Friday nights of each month. C. N. CLARK, W. M. D. McDONALD, Secretary.

**HOOD RIVER CHAPTER NO. 37, R. A. M.**—Meets first and third Friday nights of each month. H. R. CASPARI, W. M. E. O. BLANCHARD, Secretary.

**HOOD RIVER CHAPTER NO. 25, O. E. S.**—Meets second and fourth Tuesday evening of each month. Visitors cordially welcomed. G. R. HAINES, W. M. C. E. THOMPSON, Secretary.

**IDEWELDE LODGE NO. 107, L. O. O. F.**—Meets in the club hall, every Thursday night. M. J. MASKEP, N. G. G. THOMPSON, Secretary.

**EDEN ENCAMPMENT NO. 48, I. O. O. F.**—Regular meeting second and fourth Mondays of each month. G. THOMPSON, C. P. H. C. SMITH, Secretary.

**KEMP LODGE NO. 31, I. O. O. F.**—Meets in Odd Fellows hall every Friday evening. Visitors cordially welcomed. M. J. MASKEP, N. G. G. THOMPSON, Secretary.

**L. A. E. CLARK, Rec. Sec.** E. T. FOLTS, N. G.

**L. A. E. CLARK, Rec. Sec.** E. T. FOLTS, N. G.

**W. O. W.** meets the 3d and 4th Saturdays each month at I. O. O. F. hall. Visitors cordially invited. W. O. W. CLARK, Sec. W. W. MCKEY, Clerk.

**WAUCOMA LODGE NO. 30, K. O. P.**—Meets in K. O. P. hall every Tuesday night. J. E. NICHOLS, K. O. R. and S.

**HOOD RIVER CAMP NO. 702, M. W. A.**—Meets in I. O. O. F. hall every Wednesday night. M. J. MASKEP, N. G. G. THOMPSON, C. P. H. C. SMITH, Clerk.

**HOOD RIVER CIRCLE NO. 583, WOMEN OF WOODCREST**—Meets at K. O. P. hall on the first and third Fridays of each month. F. W. MCKEY, Sec. L. A. E. CLARK, Pres.

**RIVERSIDE LODGE NO. 88, A. O. U. W.**—Meets first and third Saturdays of each month. R. E. CHAPMAN, W. M. G. H. HARRIS, Sec. J. E. NICHOLS, K. O. R. and S.

**OLETA ASSEMBLY NO. 108, UNITED ARTISANS**—Meets the 1st and 3rd Wednesdays, 2nd and 4th Fridays of each month. W. B. MCKEY, Sec. E. H. HARRIS, Secretary.

**COURT HOOD RIVER NO. 42, FORESTERS OF AMERICA**—Meets every Thursday evening at 8 o'clock. W. M. FLEMING, C. E.

**CANBY POST NO. 16, G. A. R.**—MEETS AT A. O. U. W. hall, second and fourth Saturdays of each month at 8 o'clock. G. A. H. members invited to meet with us. S. F. BLYTHE, Adjutant.

**CANBY W. R. C. No. 16—MEETS SECOND and fourth Saturdays of each month in A. O. U. W. hall at 8 o'clock. MRS. J. H. GILL, President. LINDA SUMNER, Secretary.**

**MOUNTAIN HOME CAMP NO. 360, R. N. A.**—Meets at I. O. O. F. hall on the second and fourth Fridays of each month. MRS. H. FRANKS, Sec. MRS. F. E. BRODSIEP, Recorder.

**FAYNTER LODGE, No. 219, M. B. A.**—Meets first and third Fridays of each month at K. O. P. hall. G. H. MELLER, Pres. G. G. GUINDA, Sec.

**J. F. WATT, M. D.** PHYSICIAN AND SURGEON. Telephone Office, 281; residence, 811. SURGEON O. R. & N. Co.

**H. L. DUMBLE,** PHYSICIAN AND SURGEON. Calls promptly answered in town or country, Day or Night. Telephone Office, 613; residence, 613. Office in the Irons building.

**E. O. DUTRO, M. D.** Physician and Surgeon. Office over First National Bank, Hood River, Oregon. Office Phone Main 871 Res. Main 873

**M. F. SHAW, M. D.** Office in Jackson Block. Office phone, No. 141. Residence, No. 363. DR. M. H. SHARP DR. EDNA B. SHARP

**Osteopathic Physicians** Graduates of the American School of Osteopathy, Kirksville, Mo. Office, Hood River Bank and Trust Co. Bldg. Phone 25 HOOD RIVER.

**F. C. BRODSIEP, M. D.** PHYSICIAN AND SURGEON (Phone Central, or 121. Office Hours: 10 to 11 A. M.; 2 to 3 and 6 to 7 P. M.

**Mrs. Mary Powell Jordan, M. D.** Physician and Surgeon. Office and residence, home place of John Leonard Henderson, State St., head of Third St. Phone 371. HOOD RIVER, OREG.

**DR. E. T. CARNES** DENTIST. Office over Hartness Store HOOD RIVER, OREGON. Telephone 31.

**H. D. W. PINEO, D. D. S.** DENTIST. CROWN BRIDGES WORK A SPECIALTY. Office over First National Bank Telephone Main 311

**C. H. JENKINS, D. M. D.** DENTIST. Telephones: Office 283; residence 1045 Office over Butler Bank, HOOD RIVER, ORE.

**A. A. JAYNE** LAWYER. Abstracts Furnished. Money Loaned. HOOD RIVER, OREGON.

**E. H. HARTWIG,** LAWYER. Will Practice in All Courts. Office in Smith Building, over First National Bank, HOOD RIVER, ORE. & N.

**A. J. DERBY** Lawyer. HOOD RIVER, OREGON.

**F. S. STANLEY, E. L. SMITH, E. O. BLANCHARD** Pres. Vice-Pres. Cashier. V. C. BROCK, Asst. Cashier.

**First National Bank** OF HOOD RIVER, OREGON. Capital \$50,000 Surplus, \$15,000.

**P. M. Hall-Lewis & Co.** ARCHITECTS and ENGINEERS. Deputy County Surveyor for Wasco County. Wash. City Engineer, City of Hood River. Make surveys, plans and estimates for sewer, light and power and railway plants, and furnish subject to approval, plans, specifications and estimates for all classes of buildings, public, private and mercantile. Special attention given to economic and slow-burning construction. Accuracy and economy guaranteed. Home and Pacific Telephones, Davidson Building, Hood River, Oregon.

The Dalles—The Dalles postoffice may become the transfer point of the postal system of this division. The chief clerk of the Northern Pacific from Seattle was here a few days ago; also Postal Inspector Ritchie, of Portland, visited this city several times recently. They both say that when the mail service of the Seattle-Portland-Spokane railway is established about March 15, that the mail will have to transfer either at Umatilla, Atlin or the Dalles and that the latter point is most possible and that they believe that The Dalles will be the point chosen, as it is the easiest place at which to transfer. This should be the case, it will mean a great increase in the work at the postoffice and will necessitate an increase in the clerical force there. It will be but a short time until it is known definitely whether this will be the case or not. Chronicle.

Washington—"In God We Trust" according to the mandate issued today by the house committee on coinage, goes back on Uncle Sam's coins, in spite of any protest from President Roosevelt, who ordered the motto stricken off. But it is understood that the president will not approve this movement. The McKinley bill providing for the restoration of the motto was favorably reported by the committee recently. During the committee hearing Congressman Kneeland of California, suggested that a bill be framed to compel clearing-house certificates to read: "I know that my kedeemer liveth."

Portland—A special to the Oregonian from Salem states that the annual report of Master Fish Warden Van Dusen was made public today. It shows that during the year there were caught on the Oregon side of the Columbia river 15,728,116 pounds of chinook salmon, 1,045,516 pounds of silversides, 1,112,000 pounds of steelheads and 190,102 pounds of bluebacks, or a total of 18,151,745 pounds. The total catch in 1907 was 22,035,000 pounds, which shows a falling off for 1907 of about 20 per cent. The product for the Oregon coast streams for the year was: Chinook, 2,018,943 pounds; silversides, 3,824,112 pounds; steelheads, 210,520; tales, 657,407 pounds, or a total of 6,708,982 against 8,043,600 pounds in 1906, or a falling off for 1907 of about 30 per cent.

Salem—One of the matters considered at the meeting of the state board held February 20 at the state house, was the election of a master fish warden, at the front of the de Lenses house. Chamberlain made a motion to proceed to the election of a fish warden to succeed the present incumbent of the position, H. G. Van Dusen. Secretary of State Benson moved to amend by laying on the table temporarily and the amended motion was carried by a vote of two to one, State Treasurer Steele voting with Secretary Benson. It will thus be seen that Van Dusen's seat is safe until the board takes a motion to proceed further with the case. It has been known for some time that Van Dusen is persona non grata with the state administration and particularly with the governor, who is understood to have taken the position that Van Dusen has been unduly active in exposing the cause of one side to the factional warfare being waged by the upper and lower Columbia river fishermen.

Dufur, Ore.—This city has passed an ordinance unique in municipal legislation. The ordinance is intended to prohibit "the keeping of white rats for pet, show, amusement, or any other purpose in the corporate limits of the city of Dufur." The ordinance goes into effect 30 days from its passage. It was signed and approved by Mayor J. J. Johnson. Penalties: Violations of the ordinance are made punishable by a fine of not less than \$5 nor more than \$30, or by imprisonment of not less than three or more than 30 days. The ordinance was made necessary because of a feud among boys at Dufur to have rats of the white species for pets. More than a score of the rodents are now in the town. Propagation of the rodents is thought to be dangerous.

Chicago—To stop the wave of crime now sweeping over Chicago, the police authorities here have appealed to the city council to draft ordinances covering rats, cats and dogs. The council has prepared two bills, one providing for the dumping into the lake once a year all the firearms that come into possession of the police; another requires dealers to pay a license fee of \$50 a year and a third prohibits the carrying of firearms by any person, unless he is a sheriff, constable, policeman or coroner.

Peru has a population approximately 5,000,000. The country is therefore not so sparsely settled as might be imagined and the people are industrious and home loving. The republic comes within what may be called the canal belt and when this is finished, when rail communications established between the upper waters of the Amazon and the Pacific, Peru is sure to become one of the powerful factors in the life of South America.

**Stockholders Meeting.** The East Fork Irrigating Company will hold their annual meeting at the Artisans Hall Saturday, March 14, 1908, at 2 p. m. All stockholders should attend this meeting. C. R. Bone, Pres.

**ITEMS FROM NEIGHBORING TOWNS**

Caliao is one of the finest and safest harbors on the Pacific and the Peruvian government is showing great energy not only to make it modern, convenient and secure, but also to equip the city itself with every necessity for comfortable and hygienic living. There are massive wharves at the water's edge, protected by a pier 800 feet long; this pier is connected with the shore by a bridge, built on iron piles, 2,800 feet long. In the bay is a floating dock which will admit vessels of 21 feet draught and 5,000 tons weight. Steamers lie along side the wharves and freight is transported immediately into cars on tracks within a few feet of the water. The resemblance to a modern port like Havre or Hook of Holland is remarkably striking. The machinery about these docks is chiefly electric, the power being drawn from streams only a small distance back in the mountains. A natural protection of the bay is the island of San Lorenzo, which shelters the city from southwest storms. Adjacent to San Lorenzo is the Palomeros group, on which is a powerful light house, the light from which is visible for eighteen miles. Just recently erected is a tower for wireless telegraphy and communication by this means will soon be in operation all along the coast. Caliao, as a town, is very old, its foundation dating back to the year 1531. The original site was destroyed by an earthquake in 1746 and swallowed up by the sea. The present city yet retains some traces of its earlier history, in the narrow and irregular streets, but today it has grown away from such conditions and is modern in every sense of the word. The population numbers 32,000, although in the daytime it would seem much larger, because many men come here during business hours but return in the afternoon to their homes in Lima. Lima, the capital of Peru, is only nine miles from Caliao and lies 500 feet higher, close against the foothills of the Andes. Two steam and one electric trolley line connect the capital with the port, and there is besides a fine avenue for carriages, so that the traveler can easily and quickly go from one city to the other at any time. This is one of the most picturesque spots of Spanish America, lying with the City of Mexico in the interest which shows the influences of Europe upon the newly discovered Americas; but Lima is far more than a city of churches, plazas, monasteries and houses of grandees of Spain. Nevertheless, the impress of Pizarro and the viceroys should not be forgotten, for Lima was at one time the seat of government for all South America and her authority extended from Panama to Buenos Ayres. It is one of the most beautiful cities of the western world and enjoys a climate, which, without exaggeration, can be called perpetual spring. Lima also has a new avenue, Columbus avenida, nearly half a mile long, at the end of which is the statue of Columbus, reproduced in the statue at the front of the de Lenses house at Colon, on the isthmus of Panama. This is the fashionable drive and promenade of society. Other new streets testify to the rapid advance the city is making. Electric lights, trolley cars, abundant water and such public utilities are making this city of 150,000 inhabitants fully abreast of the times. Lima is the seat of the oldest university in America, founded here in 1551. Not so very far from Lima, at distances of in South America, are the battle fields of Junin and Ayacucho, where, in 1824, was fought the final struggle by which Spain lost forever her hold on this part of the world. Peru has great advantage over other republics of South America. She is a transcontinental country, having a coast line on the Pacific of 1,600 miles, which the whole world can be reached, yet one of the most commercial centers of Peru is Iquitos, an inland city on the Atlantic water shed. From Iquitos ocean steamers pass 2,000 miles down the Amazon through the Brazilian port of Manaus and proceed to New York or Europe, just as if they had come from a coast town on salt water. This is an advantage possessed by no other country except Colombia, which has ports on both the Caribbean (Atlantic) and the Pacific. The variety of natural products within Peru's confines adds greatly to her promise for future growth. Her wealth does not by any means depend upon minerals alone. She is a sugar producer; her cotton is famous for certain good qualities; she exports hides, coffee and rice; from the deposits in the soil come copper, silver, petroleum and salt; she has dug from her beds and the active rubber tracts under cultivation are yielding riches to their possessors. The government is today wide awake and ambitious. It encourages railroads, it invites foreign capital to invest money in well secured enterprises and has already entered upon a career of substantial industrial prosperity. Peru is a little less than fifteen times the size of New York state. Her climate embraces every kind from the tropics to perpetual snow. There is no known plant or animal that will not grow here. The most famous engineering structure in the world, the Oroya railway built by Heurtz Meigs, the American, runs from the Pacific ocean across the Andes. The highest navigated body of fresh water, Lake Titicaca, and the Harvard Astronomical Observatory, from which accurate celestial observations are taken from half way up Mt. Misti near Arequipa, are institutions of which Peru is justly proud. Peru has a population approximately 5,000,000. The country is therefore not so sparsely settled as might be imagined and the people are industrious and home loving. The republic comes within what may be called the canal belt and when this is finished, when rail communications established between the upper waters of the Amazon and the Pacific, Peru is sure to become one of the powerful factors in the life of South America.

**MAY HAVE FINE FLOAT**

**AT PORTLAND ROSE FESTIVAL**

At a Meeting of the Commercial Club Plans Were Discussed and Committees Appointed.

A meeting of the Commercial Club was called Monday evening to discuss the question of being represented in the parade of the Rose Festival at Portland in June. Mr. Hutchins, representing the Portland committee of arrangements, was present and addressed the meeting, explaining the details of the show, and urged that Hood River be represented in the greatest spectacular parade ever projected on the Pacific coast. He said: "About two years ago the earthquake scard the annual crop of tourists which have been coming to California and which spend fifteen to twenty millions each season, and they have since, to a large extent, gone to Porto Rico, Bermuda, Havana, Florida and other southern points, until where before there were but a few second-class boats running to those places, there are now a large fleet of magnificent steamers. The transcontinental lines have felt the loss as well as California and made up their minds it was necessary to exploit a new place to hold their business in the Pacific Northwest. They have already decided on the fact that this great Oregon country, the Sound, the Columbia river, has an ideal climate, the finest scenery in the world and all the advantages to attract tourists. They will use the occasion of the Rose Festival to advertise these advantages to the world and will make their cheap summer rates begin May 20 instead of June 1, as at first intended. All the resources of the great transcontinental lines will be used to exploit this country, and the fair will be used as an additional attraction to draw people to the coast. Here in Hood River you have the finest country on the coast just opening up. I have been through your valley and must say that I never saw a more beautiful spot, or more wonderfully productive soil. You will neglect a golden opportunity if you do not take up this matter and be represented at the festival. There will be 100,000 strangers in the city during that week, besides the 150,000 people already living in Portland, and this opportunity to represent Hood River before a quarter of a million people should be taken advantage of. The first during the carnival will be an illuminated parade, representing the Spirit of the Golden West. There will be a band to accompany the parade and Lewis and Clark, with Sacajawea pointing to the setting sun, Father McLaughlin and others marking the step of civilization. At ten o'clock in the morning there will be a competitive exhibition of roses, the children of the Rose Festival. Tuesday night will be the illuminated parade. Wednesday will be the automobile parade and at night the water carnival, in which the parade, which will be a triumph of floral art, consisting of a huge apple, while a cornucopia or horn of plenty is filled with the strawberries of which Hood River is famous. You may build this float yourself or you have competent experts in this line who will build it for you. We will furnish you free covers for the horses, attendants, dominos, etc., and will bear about half the expense. If you wish to appear in the floral parade there will be no cost except the decorations." On the opening day there will be a reception to the King, who will come up to the city from the beach. He will be given the keys and freedom of the city and escorted to his royal quarters. At ten o'clock in the morning there will be a competitive exhibition of roses, the children of the Rose Festival. He will be given the keys and freedom of the city and escorted to his royal quarters.

At a Meeting of the Commercial Club Plans Were Discussed and Committees Appointed.

A meeting of the Commercial Club was called Monday evening to discuss the question of being represented in the parade of the Rose Festival at Portland in June. Mr. Hutchins, representing the Portland committee of arrangements, was present and addressed the meeting, explaining the details of the show, and urged that Hood River be represented in the greatest spectacular parade ever projected on the Pacific coast. He said: "About two years ago the earthquake scard the annual crop of tourists which have been coming to California and which spend fifteen to twenty millions each season, and they have since, to a large extent, gone to Porto Rico, Bermuda, Havana, Florida and other southern points, until where before there were but a few second-class boats running to those places, there are now a large fleet of magnificent steamers. The transcontinental lines have felt the loss as well as California and made up their minds it was necessary to exploit a new place to hold their business in the Pacific Northwest. They have already decided on the fact that this great Oregon country, the Sound, the Columbia river, has an ideal climate, the finest scenery in the world and all the advantages to attract tourists. They will use the occasion of the Rose Festival to advertise these advantages to the world and will make their cheap summer rates begin May 20 instead of June 1, as at first intended. All the resources of the great transcontinental lines will be used to exploit this country, and the fair will be used as an additional attraction to draw people to the coast. Here in Hood River you have the finest country on the coast just opening up. I have been through your valley and must say that I never saw a more beautiful spot, or more wonderfully productive soil. You will neglect a golden opportunity if you do not take up this matter and be represented at the festival. There will be 100,000 strangers in the city during that week, besides the 150,000 people already living in Portland, and this opportunity to represent Hood River before a quarter of a million people should be taken advantage of. The first during the carnival will be an illuminated parade, representing the Spirit of the Golden West. There will be a band to accompany the parade and Lewis and Clark, with Sacajawea pointing to the setting sun, Father McLaughlin and others marking the step of civilization. At ten o'clock in the morning there will be a competitive exhibition of roses, the children of the Rose Festival. Tuesday night will be the illuminated parade. Wednesday will be the automobile parade and at night the water carnival, in which the parade, which will be a triumph of floral art, consisting of a huge apple, while a cornucopia or horn of plenty is filled with the strawberries of which Hood River is famous. You may build this float yourself or you have competent experts in this line who will build it for you. We will furnish you free covers for the horses, attendants, dominos, etc., and will bear about half the expense. If you wish to appear in the floral parade there will be no cost except the decorations." On the opening day there will be a reception to the King, who will come up to the city from the beach. He will be given the keys and freedom of the city and escorted to his royal quarters. At ten o'clock in the morning there will be a competitive exhibition of roses, the children of the Rose Festival.
