It would seem to be for the best interests of the public and the future to build well and permanently, and work to that end, rather than flimsy or wooden structure that will always be in danger from fire or flood. It will take several months to erect such a bridge, and in the meantime a temporary structure will be erected to accommodate the travel across the river.

The firm also reports the sale of ten acres of the K. D. Martin place in Oak Grove (Crapper) district for \$3,500. The total sales for March of the firm of Angus & MacRae total \$52,450. We are informed by Mr. Angus. Several changes have been made at the postoffice by Postmaster Yates, which are in the line of progression. The stamp window has been placed at the side of the general delivery window and will result in a convenience in waiting on patrons. A row of large mail boxes have been added to accommodate those who receive a large daily mail, and the openings for delivering letters and papers have been moved nearer the general delivery window and the boxes used forward. The new cancelling machine has also arrived and lessens the labor of cancelling letters, and makes the office more metropolitan.

Just a Word

about our Picture Framing Department. We have the largest stock of mouldings in the city. We carry the highest quality of mouldings. We use nothing but clear, selected, art glass. We establish the very lowest price for good workmanship and high quality of mouldings, two years ago when we went into the Framing Business, and have maintained them. We are always busy—"The best recommendation." Our stock is always new. No old stock to work off at cut prices. We have the most up-to-date machinery for framing. Did it ever strike you that Picture Framing is an Art not a Trade. It is and requires constant study. We make this department a study. Did it ever strike you, that there is as much difference between a soft wood, varnished or veneered and a good hardwood as between cotton and wool. There is. We will continue to do good Framing at a moderate price.
