Just a Word

about our Picture Framing Department. We have the largest stock of mouldings in the city. We carry the highest quality of mouldings. We use nothing but clear, selected, art glass. We establish the very lowest price for good workmanship and high quality of mouldings, two years ago when we went into the Framing Business, and have maintained them. We are always busy—"The best recommendation." Our stock is always new. No old stock to work off at cut prices.

We have the most up-to-date machinery for framing.

Did it ever strike you that Picture Framing is an Art not a Trade. It is and requires constant study. We make this department a study. Did it ever strike you, that there is as much difference between a soft wood, varnished or veneered and a good hardwood as between cotton and wool. There is. We will continue to do good Framing at a moderate price.
