CORRESPONDENCE

ODELL.

Mrs. James Cook and little daughter, Marian, arrived home Monday, April 6. Since last fall they have been in Clifton, Arizona, hoping that Mrs. Cook's health might be benefited by the change in climate. Had nothing happened to prevent they would have remained away until later, thus coming when the air was more nearly like that to which they had become accustomed, but Mr. Cook's unfortunate accident made it necessary for them to come home. By the aid of crutches Mr. Cook is able to walk about a little.

Remember tomorrow (Friday) is the day set for the primary election. The Odell Improvement Co.'s hall at Odell is the voting place.

Born—To Mr. and Mrs. George P. Musker, Monday, April 6, a son.

Mrs. Wm. Ehrck has been quite ill. Dr. Shaw is the attending physician.

The meetings conducted by Rev. Ford, of the Valley Christian church, closed last Thursday evening and though there were apparently no encouraging results, yet we feel certain the meetings were of great good and the faithful efforts of all who aided Mr. and Mrs. Ford by word or deed will share in the reward they richly deserve. We are very glad to have met these earnest workers and to be able to state that we may hope to again have them with us at no distant date.

Arbor day was appropriately observed by the teachers and pupils of Odell school. A short program evening and closed, then all went to the plot selected for the purpose and planted flower seeds. We suppose the beautiful blue forget-not will be blooming when those who directed the planting are perhaps many miles away engaged in other fields.

Miss Hawthorne, of Astoria, came Saturday for a two weeks' visit with her son, M. Hawthorne. Mrs. Hawthorne has visited here before and has many friends about Odell, who are glad to know that she is with them once more.

H. Connaway, Odell's progressive merchant, now owns one of the finest, if not the finest, team in Hood River Valley. The horses, big dapple grays, were purchased at Astoria, Oregon, by Mr. Connaway's brother-in-law, L. L. Gussard, and brought by him to Odell about the middle of last week. A harness befitting such a team was shipped from Portland and Mr. Connaway is now ready for freighting his goods from Hood River out, and as a four-horse load three times a week has been the rule every working day will see these horses at work. Mr. Connaway's stock of hardware has arrived and is on display.

One of Odell's enterprising young nurserymen was seen recently deep

in thought and studying a map of some far away country. He did not deny that he contemplated a "tour," thought as one might expect he seemed somewhat diffident when questioned concerning his plans.

Henry Lynch, of Portland, manager of the business of the Prudential Insurance Company of America in this territory, was an Odell visitor last Friday. Mr. Lynch expressed admiration for our busy beautiful valley.

Mr. Falon has purchased a part of the McDuffee tract and is now one of Odell's residents.

Zellar Bros. and their wives now occupy their new house, which is built in a slightly elevated location on the heights west of Odell.

Frank Wieden, of Portland, has been here the past week, looking after his interests. He owns the forty acre tract northwest of James English.

J. J. Krummenschler has built a barn on his ten acre tract and will build a house soon. He and his family are now at home on their own land.

Mr. Strong, who owns the Olson 20 acres, arrived here last week. His car of household goods, implements, etc., is being shipped to Dukes Valley station. Mr. Strong will clear his land as rapidly as possible and set to fruit trees.

Thos. Olson, of The Dalles, was down Saturday and will arrange for clearing his ten acre tract, formerly owned by James English.

Rev. Troy Shelby will preach next Sunday, he having given up his last regular appointment, the first Sunday in the month, because of the meetings which were in progress at that time.

Rev. A. B. Cash preached two good sermons Sunday, one in the morning the other in the evening.

Marguerite Shelby, of Portland, will give a recital in the M. E. church at Pine Grove Friday evening, April 17. This entertainment is given under the auspices of the Ladies' Aid Society of Pine Grove. To those who have heard Miss Shelby she needs no introduction and they will say to those who have not heard her they will do well in availing themselves of this opportunity. Admission, 25 and 15 cents.

Members of the Christian Endeavor Society of Odell have prepared a cantata for Easter evening. It is said by those who know that this is something beautiful and all should go to the church next Sunday evening to hear it. Those who feel disposed will contribute towards a free will offering.

Arthur Strong has been quite ill. Pneumonia is feared.

Will tell you about the wedding next week.

J. R. Crosby has invested in the right to sell territory in the states of Washington, Oregon and California for the sale of a fire escape that may be made to carry from one person up

MOUNT HOOD.

This is a very busy season up here. The apple hauling will soon be done and the farmers are busy planting apple trees and strawberries. There will be a much larger acreage of apples this spring than there has been before.

Mrs. Koozt returned to her home in Hood River. She has been visiting her daughter, Mrs. Lou Baldwin.

As the voting at the primaries will occupy the hall next Friday, the grape meeting will be held Saturday evening, April 18.

Arbor Day was observed last Friday at the Mt. Hood school with appropriate exercises in the school house and vigorous exercise out doors. The program was short but very good, the cleaning up outside taking a longer time. The boys made a temporary fence, pending the making of a new fence on the correct boundary line. This makes the yard look much better, as the broken down fence gave it an untidy appearance. Some planting was done and there was a great raking up and burning of rubbish till it looks quite spick and spank about the school house.

Will Helmer came home last week to run the sawmill for his father, who is laid up with an injured hand. The hand is improving slowly, but it was crushed badly and will take a long time to heal.

The Hindus held their religious services last Sunday. Quite a number of people visited them.

George Wishart and family moved into their new house last Monday. It is said to be one of the finest houses this side of Tucker's hill and it certainly is a very attractive dwelling. They will soon be comfortably settled in the new home.

Last Friday little Mark Larwood was seven years old and quite a number of his playmates gathered at the Larwood home on Saturday to help him celebrate. One little girl expressed the sentiment of all when she said, "I want to be Mark's party and had just a lovely time." They spent the afternoon out of doors, having their lunch under the trees.

James Kelly and F. C. Sexton were visitors at Mt. Hood last Friday.

The new directors of the ball gave a dance last Saturday evening. It was very well attended and those present report a very enjoyable time.

UNDERWOOD.

The Horticultural Society held its first meeting last Tuesday and taking into consideration the late time of season there was a very good attendance. Among the visitors from outside points were: G. R. Castner, A. L. Mason and E. L. Smith, of Hood River. Each of these gentlemen favored the society with an address, speaking along the line of successful fruit growing, marketing, etc., which was very interesting and instructive; also Mr. Jackson, secretary of the society, and Mr. Pindler, county fruit

For Thin Poor Blood

You can trust a medicine 60 years! Sixty years of experience, think of that! Experience with Ayer's Sarsaparilla; the original Sarsaparilla; the Sarsaparilla the doctors endorse for thin blood, nerves, general debility.

Even this grand old medicine cannot do work in the liver is inactive and the blood impure. For the best possible results should take the Sarsaparilla of Ayer's while taking the Sarsaparilla.

We have no secrets! We publish the formulas of all our medicines.

Inspector, the former from Stevenson and the latter from Butte, attended the meeting, but owing to the lateness of the evening these gentlemen were not able to address the society as intended.

Mr. Clues, of Carson, having visited Fred Luffey the past week, returned to his home Sunday evening.

Uncle Amos Underwood took the train at Hood going to Cascade Locks to visit his old-time friend, Mr. White.

A. J. Hayes is getting in quite an acreage of apples, peaches and small fruit.

Mrs. Vouch and Mrs. DeHart were visiting at Hood Sunday and took in the sights at the fish hatchery.

Wm. Windorf, our up-to-date orchardist, returned from Portland Saturday on the noon train.

M. Zigler was a city visitor Sunday. We don't know what he is spinning around down here about, but one thing is sure he had better look out, as we heard some of our young ladies talking about him and this is leap year.

Mrs. Will Underwood is reported as being much better and visiting her sister, Mrs. Abe Ames, at Blugon.

Louie Thur visited with H. Nelson Sunday evening. Louie is doing the grabbing act for Kelly Debois.

Mrs. Cromwell went to Stevenson Thursday evening on the Simons, returning Saturday with her husband, C. H., who has been attending commissioners meeting during the week.

Uncle Henry Debo, of Hood, visited his daughter, Mrs. A. J. Hayes, on the heights, Sunday. Uncle Henry, when we get that flying machine our friends have been telling us about we will come down to see you.

The fish hatchery is still holding part of its hatch, as well as at Little White Salmon, for the purpose of feeding these fish to a more northern age before turning loose. H. Bailey, manager of the hatchery here, states they have on hand a little more than a half million at present which he thinks they will feed until about the first of May. They are feeding mostly liver and to this number about 30 pounds per day, although in case of shortage of liver have fed some canned salmon. As to the question of what he considered the best feed he stated that he thought the liver was better, as they had experimented on two troughs that set side by side, one on a diet of liver and the other on salmon. While the latter seemed to thrive for awhile,

they then began to die. It is very interesting to visit the hatchery, as you are able to see great freaks of nature in the fish kind. Some double, two heads, three eyes, in fact all forms and shapes. Mr. Bailey and his men are very pleasant to meet. While they are strictly to business they treat their visitors very cordial.

BARRETT.

The Meadow Brook team of football players, dressed in their red suits, are highly elated over their victory on Saturday last, having done to the team up in good shape. Well, yes, the country boys are right in it when it comes to a game at football.
