CORRESPONDENCE

ODELL.

J. B. Lafferty stopped over a day on his way from Washington, D. C., to Weiser, Idaho. Delays along the way made his stay here short, as he was to reach Weiser April 15 and arrived here the 13th. Mr. Lafferty is employed in the forestry department and has been in Washington, D. C., a number of months. He came home via New York City, from there across and via California, and has now returned to Weiser to his work.

Denver Wilson arrived home Monday night, April 13, after several months absence. His parents, brothers, sisters and friends are glad to welcome him home.

Misses Marguerite and Hope Shelley, of Portland, came home last Thursday evening for a short visit with relatives and friends. Marguerite gave an entertainment at Pine Grove Friday evening and also contributed towards the Easter program at Odell Sunday evening.

J. W. Wilson and Miss Eva Hilgen were married at the home of Mr. and Mrs. H. Conaway Wednesday, April 15. Though the bride has been here, comparatively speaking, but a short time, her winning ways have made for her friends of all who know her. The groom is one of Odell's most trustworthy young men and has many friends. Only the relatives of the contracting parties were present. After a short visit with the bride's parents at their home near Selo, the happy couple will be at home to their friends in the home the groom has prepared.

Odell was surprised last Thursday to hear that Harry Kemp, of Odell, and Katherine Davenport, of Mosier, were married in The Dalles Wednesday, April 15, and were at home in Odell. Both parties are well known here and their many friends unite in wishing them health, happiness and success in life. Thursday evening a goodly number of friends gathered at the pleasant home of Mr. and Mrs. Kemp and gave them an idea of their good wishes by a musical serenade, to which they responded with cigars and candy.

E. L. Kiener has the largest strawberry patch in Odell, at least so far as your correspondent knows this is true. Mr. Kiener has 20 acres set to berry plants and in the required time he will be busy looking after the marketing of his crop.

Friends of Charlie Roberts will be grieved to know that his condition is very serious. His relatives here have been called to his bedside and his Odell friends have been to visit him. He is suffering from intense heat, but it is thought the worst of that is at an end.

R. E. Callison, of Olex, Oregon, was an Odell visitor last week. It has just come to our notice that the sale reported some time ago as made by Mr.

Callison was in reality made by his brother and R. E. Callison is on the same ranch at Olex as he formerly was.

Mr. Blocher and family, who recently sold their ranch, will move this week down near town, where they have purchased property. Odell wishes them well.

Gertrude Davenport, of Mosier, visited Odell friends Sunday.

Rev. Troy Shelley preached in his usual convincing yet pleasing way Sunday morning. We hope Rev. Shelley will long be able to fill his regular appointment at Odell.

Those who attended the entertainment Sunday evening and heard Miss Marguerite Shelley tell the story of the beautiful singer at the funeral of the poor child were greatly affected, both by the story and by the beautiful way in which Miss Shelley portrayed it. The cantata was, as has been said, beautiful and beautifully rendered. All in all it was an ideal Easter entertainment. A large crowd was in attendance. The free will offering amounted to a little more than \$10.

UNDERWOOD.

The fruit and berry prospects are very good. In fact, never better or more up-to-date and the indications are that strawberries are going to be much in excess than last year and we will surely be able again to ship the first berries, as was done last year, ahead of our neighboring counties.

C. Rosenkrantz is preparing to get his lumber on the ground to build a new house.

J. H. Amos is looking after the ranch pretty closely, as he is doing a great deal of improving, such as building a residence, clearing land and setting out orchard.

A. J. Haynes is building an addition to his house.

B. P. Deans is getting more land cleared. This adds very much to the beauty of Mr. Deans' place. It is the time of year when all young bloods get real enthusiastic in the ball game, so our youngsters had the first game of the season Sunday. Some say they have nine on a side in regular season ball, but our fellows have about nine on two sides.

In the item last week it should have read "H. Holly," instead of "H. Bailey," foreman of the fish hatchery.

R. L. Fowler, of Trout Lake, passed through Saturday, en route for Little White Salmon with a load of goods for his brother-in-law, Mr. Kingman, who has lately purchased the J. M. Coulter place.

Don Nunnemaker is getting along nicely. His broken limb is in a plaster cast. We hope soon to see him around again, none the worse for his accident.

The farewell reception at the parsonage Friday evening was well attended and enjoyed by all. Making and trimming Easter hats was one of the games, resulting in a tie between Miss Somerville and Mr. Nelson. Miss Cronse's Sunday school class presented her with a handsome silver napkin ring as a token of their love and esteem. Candy, nuts and apples were served.

Pale, Thin, Nervous?

Then your blood must be in a very bad condition. You certainly know what to take, then take it—Ayer's Sarsaparilla. If you doubt, then consult your doctor. We know what he will say about this grand old family medicine.

Grange hall being filled with friends. On Saturday evening they gave a drama. Every part was well taken, showing faithful study on the part of the students. The proceeds, \$80, will be used for a library.

We are sorry to hear of the serious illness of C. P. Merrill.

Mr. Morgenson and daughter have moved from Belmont for the summer. They will live on the Van Johnson place.

Mrs. Eberhart, of Walla Walla, Wash., was a guest at the home of G. L. Smith last week. Her husband received the contract for the new bridge across Hood river.

Mrs. Dick Lester spent several days with her parents, Mr. and Mrs. Jerome Wells.

The Margaret Shelley entertainment at the church Friday night was not very well patronized by Pine Grovites, but quite a number from Odell were present. Miss Florence Hanna sang two selections. The receipts of the evening were \$12.65.

Two brothers and two sisters of Mr. Cochran, who is living at Ed Hawkes, arrived last week from Canada to make this their home. One of the girls will stay for the present at the home of E. E. Lage and the other at B. H. Lage's.

The Ladies' Aid Society will meet in regular session in the parlors of the church Thursday afternoon of the week. Quilting is the order of the day.

Mrs. Rigby will give a temperance lecture at the church Sunday afternoon, May 3, at 3 o'clock.

A large audience was in attendance Sunday to hear the program given by the Sunday school. The children all did their parts well. The church was most beautifully decorated.

MOUNT HOOD.

Grandma Wishart and Miss Emma are to leave Wednesday for an extended visit with relatives and friends in Nebraska and Kansas.

The attendance at grange Saturday evening was not very large, but it was very interesting. Five bills were discussed and so many took part in the discussion that much interest was created.

There was a very large attendance at Sunday school last Sunday. It was a beautiful Easter day and everybody wanted to celebrate the day by attending religious services.

NEW FIRE ESCAPE.

The automatic fire escape, the invention of Joe Noyer, of Gould City, Wash., owned and controlled by Jerry E. Corum, of Moscow, Idaho, has been tested on several occasions and found entirely adequate to the demands made upon it. The principles upon which it operates have been declared by competent mechanical men to be based upon an approved structural basis.

The idea is that of a steel cable wound on a drum operated by governor. As a person steps into the loop the governing mechanism regulates the speed. It is attached to the inner wall of each room and can be placed in every room with less expense than the old style ladder, and will empty all the rooms at the same time. There are no places to be cut off by fire. Its capacity is more than can ever get on it. It is the only machine where there is no exertion after once out of the window. No limit as to height of building, just add more cable. A child goes with the same speed as a large person and absolutely safe. See the cut in our paper.

The original can be seen at J. R. Crosby's, as he is agent for Oregon, California and Washington.

The fire alarm ringing out in the quietness of last Sunday evening about 10:30 aroused some of the firemen from their beds and brought others to the fact that they were staying too late talking with their girls and must attend to duty. The fire, which was in Stevens' woodshed, was put out before the men arrived.
