Ever touch off a firecracker on July 4th--Expect a big explosion--get only a "fizzle?" You were disgusted, said the thing had no powder in it, was badly made, or old and stale. Then you tried another cracker and that went off with a roar that brought the neighbors to the windows. There's a lot of Boys' and Mens' Clothing made--without the powder. Merchants buy it, offer it to their customers, tout it as "cheap" and a bargain; but it doesn't make a stir. Business drags along like a wet fuse, without success in any way. They get to thinking the Clothing Department is a sort of fizzle. There's been a Revolution in the manufacture of Boys' and Men's Clothing in the last few years; a revolution brought about by the powder--better workmanship, materials, style and quality--put into Clothing by a few leading makers,--We sell that kind. Alert merchants must, to maintain their leadership, handle only the best. We never falter, or hesitate over the kind that's "just as good." The public is aroused. It sees and admits the difference, makes the business of the Reliable merchant a success. Buy your Suit from the line with the powder; that means our line. Don't take any chances on a "fizzle."

Briggs-Ament Land Company, room 6, Davidson building, Hood River. Fatal Accident. Last Tuesday afternoon while John Loon and a Korean, who was working for him, were coming around by the school house, near Higgins' new house, the horses became frightened and started to run away. As there was no box on the wagon, they expected to haul some lumber, it was very hard for the men to hold on and when Johnny saw the danger he turned to the man and said "jump." Immediately after this Loon jumped and although he hurt his leg badly, it was not serious, but his companion did not seem to understand and when the wagon crashed into some lumber it knocked the man off and under the wagon, breaking his neck. He was taken to the hospital and died that evening. The deceased had been in Hood River for over two years, but had only been in Loon's employ for about two weeks. Johnny said that he did not seem to understand any Chinese or English language and it was most difficult for him to make him understand anything. He believed that he could converse in the Japanese language. Johnny has no means of ascertaining, although he hopes to be able to find some old letters to aid him. The body was taken to Nichols' undertaking parlors and the funeral is expected to take place today. The horses were both caught and sustained no injury, but the wagon was badly damaged.
