

Hood River Glacier

Issued Every Thursday by ARTHUR D. MOE, Publisher.

Republican Ticket.

Submitted to the voters of Wasco County at the General Election to be held June 1, 1908: For United States Senator—H. M. CAKE.

Mr. H. M. Cake, who received the majority of the votes cast for United States senator at the primary, both in the state of Oregon and Wasco county, had at all times announced his unqualified allegiance to Statement No. 1, I believe it to be my duty under these circumstances to follow the lead set by the head of the Republican ticket, who was chosen upon this issue.

I therefore announce that if elected to the legislature I will vote for the people's choice for United States senator as provided in Statement No. 1. Respectfully yours, H. C. Dodds.

Needs More Help. Agent Fredrick, of the O. R. & N., said yesterday that he was very much disappointed at not being able to secure additional help, as the growth of the business is getting beyond the capacity of the present working force.

Banks Open Monday Afternoon. The Hood River banks will open from one until three o'clock p. m., Monday, June 1, for the convenience of their customers.

Ferry Pickers Supplied. Strawberry growers wanting pickers and packers will do well to call at the Hood River Fruit Growers' Union office.

Justice of the Peace. I hereby announce myself a candidate for the office of Justice of the Peace, subject to the decision of the electors at the polls. A. C. Buck.

To the Voters of Hood River. I have been requested by friends to run for the office of justice of the peace for Hood River precinct.

There are two candidates for justice of the peace, and as their names do not appear on the official ballot, it will be necessary to write them in.

It begins to look as if the vote for the university appropriation will be almost unanimous, as it should be.

Announcement. Dufur, Oregon, May 8, 1908. Having received the Republican nomination at the recent primaries for representative in the legislature for that honor at the coming election.

O'er shadows the sod where each here reposes, And waits the recall of the true and the brave. When heroes waged the strife, 'mid the din of the battle, How proudly, how bravely, this dear flag they bore!

Then calm be their rest till the last trump shall call them In Liberty's name to arise from the tomb. Till then shall the emblem of freedom float o'er them, Till then o'er their pillows the lilies shall bloom. Then we enthrone them with roses, the fairest of flowers; Oh, give them their garlands—the true and the brave! And o'er them, as o'er this free land of ours, The flag that we cherish forever shall wave.

REFRAIN. Evermore, Evermore, while the flag shall float o'er them, 'Tis here in our hearts they shall live evermore. —Warrendale, May, 1908.

Wedding which will be of great interest here to the many friends of the bride is that of Miss Alvina Headley to John K. Dickey, which was celebrated in the presence of the immediate friends and relatives at the home of Miss Mary Matthews in Portland last Sunday. Although the groom is not known here, his home being in Wolf Creek, Ore., the bride has many friends and the Glacier extends hearty congratulations.

Greatest Life Saver in the United States. This simple little device will rescue from death and destruction and set you down in safety. Almost before the ruins of the Collinswood disaster had quit smoldering, there comes a sense of relief to fathers and mothers in the belief that if these automatic escapes are placed in our school buildings no such fate will ever befall our children.

Men of sympathy and brains here constructed an apparatus for the escape of the automatic fire escape with apparatus heretofore presented to the public. While the device is in the nature of a machine it is simplicity in itself. You have only to turn the handle to the inner wall of the room, place a loop about your body and fasten it with a clasp, step to the window and fall out. It is the only device requiring no exertion when once out of the window. The device does it all—holds you while you descend in safety to the sidewalk.

Child, sick, aged and infirm persons find in this little machine a means of escape from a horrible death. There can be no comparison of the automatic fire escape with apparatus heretofore presented to the public. While the device is in the nature of a machine it is simplicity in itself. You have only to turn the handle to the inner wall of the room, place a loop about your body and fasten it with a clasp, step to the window and fall out. It is the only device requiring no exertion when once out of the window. The device does it all—holds you while you descend in safety to the sidewalk.
