Mrs. Carson informs the Glacier that she has found a remedy for radish worm that has proved successful. It is well known that it is hard to raise radishes here free from worms, and this year just as the young plants were up, she poured a solution of the tobacco leaf dip over the plants, letting it soak into the ground. It did not injure the plants in any way, and as the radishes attained the size for the table, they are entirely free from the pests. So far as we know it is a new experiment, and has proved successful. Miss Helen M. Stafford, daughter of Mr. and Mrs. G. W. Stafford, came up from Portland Tuesday morning. The log crib put in by the Oregon lumber Co. a few years ago to turn the course of Hood River toward the old mill site, was emptied of rock this spring, and anchored by a cable. Monday the water was high enough to tow it above the old railroad bridge, and a small rise will be sufficient to tow it above the wagon bridge, where it will be used to turn the water back in its old channel under the wagon bridge, and save the bank and track of the Mt. Hood railroad from being washed away at the next freshet in Hood River, as well as save the approaches of the wagon bridge. The using of this crib will save considerable expense in making a new crib and dam. The concert given at the opera house last Saturday evening was pronounced a great success by all who heard it. So many of the jubilee singers who are traveling around from place to place, generally turn out fakes, these were the real jubilee singers. The ladies' trio was composed of three voices which blended beautifully together and the men's quartette was without exception one of the finest the reporter has ever listened to. The chorus, composed of all the members of the company sang some very touching songs. Their "Send Away to Jesus," was certainly appreciated by the whole audience, and the last number on the program, sung by the entire troupe which was Thompson's, "Good-Night," song, closed an evening full of inspiration and great pleasure to all.
