McCasline Guilty in Second Degree. J. H. Heilbronner Heppner-Convicted of murder in the second degree and sentenced to the penitentlary for life is the fate of Webb McCaslin, who killed E. F. Zaspell in Morrow county last September. This case has been one of unusual interest here and has been the theme of much comment during

the trial. "The Reliable Dealers" Owing to the well-known circumstances surrounding the case, public sentiment was strongly against the defendant. McCaslin was indicted HOOD RIVER for murder in the first degree and the Davidson Bl g verdice came as a surprise and is con-sidered as a victory for the defense. Three days were occupied in securing the jury and 37 men were ex-amined before the 12 were secured. DR. JONES McCaslin, who confessed to killing Dentist Zaspell, practically had no case to work upon. The chain of circum-

stantial evidence was without a break in showing that McCaslin drove out of town with Zaspell, that he shot him in the back of the head, took his money and made a fast get-away. The case of Dan Doherty, convicted

of the killing of Oscar Allen, will be continued until July 7, when the mo-tion for a new trial will be argued. Careless Motorman Causes Wreck. Interstate Commerce Commission Decides that Coast Shippers Shall Have Lower Rates.

Washington, D. C., June 22 .-Opinions rendered today by the Interstate Commerce Commission in five Northwestern lumber rate cases are decidedly favorable to the luming of the Oregon State Medical As- bermen. While in no case did they sociation will assemble at Portland get all they asked for, most of their requests were complied with, and in no instance did the Commission sustain the advances which the railroads

put into effect on November, 1907. The advance of 10 cents on lumber shipped from the Pacific Coast to points east is completely knocked out in territory west of the Missouri conductor and motorman and \$35 in River, and in eastern territory the advance is reduced 50 per cent or more. The advance of \$1.90 on ship-ments from Willamette Valley points to San Francisco is practically wiped out, only sufficient increase being allowed to offset the recent advance in water rates from Portland to San Francisco. The Inland Empire is reliev d from what the Commission terms "excessive and unreasonable rates on lumber" fixed by the railroads last fall, and is given a scale of d'aerentials more favorable than

the roads were willing to concede. Along with these five cases, the Commission temporarily opens the Portland gateway to Western Washington lumber consigned to Utah territory, but declines to make a routing via Portland on Washington lumber to any other points east of the Cascade Mountains.

in all cases, the Commission stipu-lates that the existing advanced rates shall be discontinued "on or before August 15, 1908," and decrees that the new rates and orders which go into exect on that date shall continue for two years thereafter. Except in the Portland gateway case, however number of intoxicated individuals these new rulings are not intended to be temporary, but under the law in this condition, the Marshfield the Commission cannot fix rates for council has just passed an ordinance a longer period than two years.
