Having secured the agency for the famous Edison phonographs and records, I wish to announce that I have just received the complete line of machines and the entire catalog of records, being all the records made by this company up to January 1, 1908. Also a large stock of disc records in all over three thousand to select from. One of the largest stocks in the state. Call and see and hear them. S. H. SOULE, Prop.

Farm For Sale.

10 acres beautifully located, good level land, half mile from town, one mile from St. Martin's Springs, 5 acres cultivated, 30 walnut trees, young family orchard, good well, good house and barn, household goods, cow, 25 chickens; price reasonable. Address J. L. OLSON, Carson, Wash., box 27 1/2

HAPPENINGS IN OREGON COUNTRY

PORTLAND MAN SHOOTS WIFE

Mind Was Inflamed by Jealousy—Portland Poultry Show—Governor Chamberlain Sued.

Portland—Chester C. Hallway, an expert machinist of Los Angeles, 50 years of age, shot and perhaps fatally wounded his pretty young wife, an operator at the central office of the Pacific States Telephone Company, Saturday night, at the home of the woman's sister, Mrs. Stella Dawson.

Mrs. Dawson and her two small children witnessed the tragedy, and her little 6-year-old son suffered a fractured arm in falling from a chair that was overturned by his aunt as she fell wounded to the floor.

As the woman fell her clothing, which was ignited by the close proximity of the weapon when it was fired, began to burn fiercely. With her bare hands Mrs. Dawson succeeded in extinguishing the burning clothing, but both she and her sister were painfully burned.

The shooting was the result of years of domestic troubles. Ten years ago they were married in Kansas and a little daughter, 5 years old, has added to their difficulties. Each wanted possession of the child and it was through her that once they were reconciled.

Hallway was captured by the police as he was leaving the house.

May Add Poultry Exhibit.

Portland—Poultry fanciers of Portland have opened negotiations with the Country Club and Livestock Association with a view of having the regular annual exposition of poultry embodied in the Pacific National meet to be held here the third week of September. The matter will come up at an early meeting of the executive committee.

As has been announced, the Country Club and Livestock Association will hang up a total prize list of \$40,000 to cover both the harness races and the exposition. The cash prizes announced in the racing card of the early closing events aggregate \$12,000, and a number of specials in addition to the ten scheduled events will probably be added in which large purses will be contested for. It is safe to say that close to \$20,000 in premiums will be given out for the successful contestants in the livestock exposition.

Governor Charged With Graft.

Salem—Charged with having kept \$10,000 state money unlawfully, Governor Chamberlain will be made defendant in an action to recover the money for the state by L. H. McMahon, the Salem attorney, who brought a suit in the circuit court against ex-Secretary of State F. L. Dunbar and secured a judgment for \$103,000 for the state—money paid to the Secretary of State in fees and appropriated to his own use by that official, in defiance of the constitution.

Attorney McMahon promises to bring the action in the October term of court. The Dunbar case is before the Supreme court now on appeal.

Roseburg Men Arrested.

Roseburg—United States Deputy Marshal W. B. Griffith, of Portland, arrested Louis Kohlhagen, Joseph Gilpin and L. S. Shipley on indictments returned against them in Government land-fraud cases last week. In each case the amount of bonds was fixed at \$1000, which were furnished by the defendants.

These arrests are the result of the rush for Jackson and Josephine county lands, which were filed upon at the land office in this city last April. It has later developed that nearly every claim has either a squatter or a mineral contestant, and the result is that nearly all of those who filed upon the land at that time, some 20 in number, are liable to arrest on the charge of perjury, the charge upon which the three Roseburg men were arrested.

Camphor Oregon Product.

Astoria—Dr. Hawley, the forestry expert, who is making an examination of the logged off lands in this vicinity, believes that he has made a discovery that may result in greater benefit than was expected. In distilling the roots of hemlock trees he has produced an appreciable quantity of camphor and while his test, with a very primitive furnace, must be verified by the National laboratory at Washington, yet he is confident that the hemlock roots and stumps carry enough camphor to be of commercial value.

Murder in Sheep Camp.

La Grande—James Moore, the shepherd, who killed Allen Johnson near Telocasset last week, was brought to La Grande Sunday night by Sheriff Childers. The killing took place on a sheep ranch 40 miles from here, following an altercation between Johnson and Moore. Johnson made as if to draw his gun, according to an eye witness, but his apparent purpose was frustrated by Moore getting his machine working first. The victim is a negro and was about 20 years old.

AIRSHIP INVENTOR IN TROUBLE.

Morrell Tries to Attach Checks for Bail Money.

San Francisco, June 30.—John A. Morrell, inventor and builder of the big airship which burst on its trial trip in Berkeley recently, and which resulted in 15 members of its crew being injured, was arrested upon a warrant sworn to by Alexander Ota, who charges Morrell with obtaining \$3000 from him by false pretenses.

NEGROES TO DEFEAT TAFT.

Conference Is Called to Meet Democrats at Denver.

Springfield, Ill., June 30.—Colored voters of the United States who are antagonistic to the candidacy of W. H. Taft, Republican nominee for President, will hold a National conference at Denver on Tuesday, July 7, the day the Democratic National Convention opens. The purpose of the gathering, as stated in the call, is to "consider their political affiliations and conditions and develop plans to change the political complexion of states wherein the negro vote is the balance of power."

Consumptive California Girl Gives Sweetheart Property.

San Francisco, June 30.—Miss Maria Bernadine, of San Martin, renounced George C. Mangels after her trousseau had been prepared for their wedding, when she discovered that she had tuberculosis of the lungs, but as an indication of her love bequeathed him all her property in her will.

Pacific Torpedo Fleet.

Washington, June 30.—A Pacific torpedo fleet, to be in command of Commander William A. Bill, of the Solace, the torpedo supply ship of the fleet, has been organized on the Pacific Coast from the various torpedo vessels. It is to be divided into three flotillas.

Anticipating the departure of the Atlantic battleship fleet on July 7, the Navy Department ordered the departure of various auxiliaries, including supply and hospital ships, as follows: Ajax and Glacier, June 29; Panther and Yankton, June 30, and Culgoa and Relief, July 1.

PORTLAND MARKETS.

Butter—Washington cream, 24c per lb; ranch, 20c per lb; 24c per lb.

\$150,000 FOR STRAWBERRIES

ESTIMATED PRICE \$2.40 To \$2.50

Crop Will Be About 100 Cars—and Required Skillful Work in Marketing to Obtain Good Prices Received.

While there is no question that the famous Hood River strawberry crop is growing smaller each year, about 100 cars of this toothsome fruit will be shipped from this point before the season is over.

Had it not been for the adverse weather conditions, interrupted transportation facilities and the accident to the ditch there is no doubt that the berry season this year would have been fully as good as last year as far as prices are concerned and perhaps better. During the early part of the season when berries should have come in plentifully and when there was a great demand for them locally at high prices on account of the Portland loss of berries, the local market was flooded with the presence of the war berries at Seattle, cold weather kept them from ripening. The high prices that could have been received for them would have helped very materially to boost the average of the year, which, it is estimated will this year be in the neighborhood of \$2.40 or perhaps \$2.50. A little later when berries commenced to come plentifully washouts in Montana and at other points between here and the eastern markets made it difficult to place the large shipments that were being sent out daily to advantage. Notwithstanding these difficulties the crop will bring a large amount of money into the valley owing to good management in placing orders both by the Union and the Davidson Fruit Company. It was not expected that the high average price received for berries last year when the crop was a short one everywhere would be realized, but both this year's and last year's prices show that there is a fine profit in Hood River berries and that many who decreased their acreage three years ago and cut about the crop will have made more money in the last two years than they did in the former years when berries sold for less money.

The quality, berries were much better than last year, better developed and of finer flavor. Although the season will still last for a week or ten days it is estimated that the crop will amount in round numbers to about 100 cars. Of this amount 50 cars will have gone out in refrigerated cars and the rest in express shipments. The number of crates shipped will amount to about 60,000 and berry growers are expected to receive \$150,000 which will include practically the whole crop of the valley.

Canned Fruit to England.

The American consul at Liverpool reports that there has been a decided falling off in the importation of canned fruits into England from the United States during the last two years. Berries are still coming in from the lower valley in small amounts, a fact that is unusual and accounted for by the season with which they ripened in the early part of the season. Compared to other years the shipping season this year while it lasted was one of the heaviest ever experienced by berry handlers, although 8 cars were the largest number sent out in any one day and as compared to two years when the record berry shipment from Hood River for a single day, 100 cars, were the heaviest that have been sent out in the last two years.
