Frederick returned the first of the week from Portland where she has been caring for her parents, Mr. and Mrs. W. P. Jacobs, who are both quite ill. They will be removed to Hood River as soon as they are able so that she can look after them. A glance into the moving picture shows these summer evenings discloses the fact that Hood River residents are becoming addicted to the moving picture habit. Many of them have become regular attendants and can be seen at the performances as often as the program changes.

The new school building is to be built on the west side of the river and has been found to be necessary as a consequence of the increasing population in that district. Mrs. W. D. Rogers, wife of Hood River's picture photographer and a good friend of the Byerlee tribe visited St. Johns last week and was the honored guest of the tribe at their picnic on North Elmore. Mrs. Rogers was very favorably impressed with the appearance of our little city, but thinks Hood River cannot be beat.—St. Johns Review. Members of the Iowa State Association who will hold their annual picnic on Thursday, July 30th, claim that they have brought thunder and lightning to Oregon and that they will have a cyclone at Grange Park on the day of their annual outing. In another column will be found the attractive program and features that have been arranged to give those who attend on that day a pleasant time. D. E. Miller, of the Mt. Hood district, who has been afflicted with rheumatism for some time and has been unable to leave his home until recently, came to Hood River Friday evening and is staying for the present at the Mt. Hood hotel. Mr. Miller although so badly crippled by his ailment could not get about, transacted much of the business in connection with his large strawberry crop this year personally. His ranch has been placed in charge of a man secured for that purpose and he will now endeavor to recuperate with treatment which he has before found successful for the disease with which he is suffering. If there is any one at Hood River who does not know that the Apple Growers Union is building a cold storage plant it is not because they are not making noise enough about it. For a week or ten days clocks have not been necessary to announce Monday and evening meal, for precisely at 12 and 6 o'clock a roar comes from the excavation that is being made for the new plant that makes everybody sit up and take notice that work there is still progressing. As most persons are fully awake at this time of day, a blast or two might be more appreciated say about 7 o'clock in the morning. Mr. and Mrs. S. E. Bartness are entertaining two very interesting Chinese girls this week. They are the daughters of Moy Ling, of Portland, who is in charge of a United Brethren mission in that city, and are both as bright as a brand new dollar. Until recently they were unacquainted with the intricacies of the Chinese language, their parents preferring that they learn the English first. They are now, however, being taught the tongue of their mother country. The elder of the girls is named Qui Lin, the English of which is Rose, and the younger, Qui Ying, which in our language is said to signify Bertha.

Mrs. James Melrose, who is suffering with inflammatory rheumatism, started to Shipperd spring Wednesday, accompanied by her husband where she will receive treatment for her trouble. B. church, who recently arrived Hood River from Spokane will preach his opening sermon at the church next Sunday morning. The new pastor will also conduct services in the evening. Rev. Mr. Emerson, of Moore, Mont., who was recently invited by the congregation of the First Christian church here to preach before them with a view to securing him as pastor, responded by delivering a sermon last Sunday. As yet it has not been decided whether Mr. Emerson will be called here permanently. W. Eugene Knox, the well known impersonator and reader will give an entertainment in the hall of Pine Grove Grange, Thursday evening July 23rd. Mr. Knox has appeared at Hood River before and his performance was most satisfactory. In his impersonations and dialect he is amazingly funny and keeps his audience in a continual roar of laughter. Mrs. V. C. Brock, who has been appointed as delegate to represent the Pythian Sisters at the Knights of Pythias Convention to be held in Boston during the early part of August, will leave for that city July 24th. The party which will include Mr. and Mrs. R. M. Davis, of Union, Judge and Mrs. Bradshaw, of The Dalles and W. M. Cake, of Portland will meet and start from the Rose City on that date. Capt. Henry Crandall returned from a fishing trip to Lost Lake Sunday. In company with G. H. Steinberg, and is evidence that he can catch fish, sent to the editor of a pamphlet that must have weighed 100 pounds when pulled out of the water. The editor has had some doubts as to the Captain's skill as a fisherman but these doubts are forever dispelled. A party who could be no friend of the Captain's tried to tell us that the fish was pulled out of the ditch on his ranch, but we do not believe such a base slander. We will wager that Capt. Crandall can catch as many fish as Stewart or any other expert.
