HIGH GRADE AUTO

average means has been waiting to see a high-class automobile placed on the last his wish is about to be gratified. The new car is known as the E. M. F. and represents the combined skill of three of the most expert automobile mechanics in America. The letters E.

M. F. represent the most expert automobile take. It is sold here by Keir & Cass. M. F. represent the names of these men who compose the Everett-Metzterprise the Studebaker Bros. com- ber of the magazine:

vertical cylinder motors cast in pairs a whole.

and developing a liberal 30 horsepower; double ignition system, including quadruple coil, commustor and batquadruple coil, commutator and battery and a magneto, the latter not included in the equipment of any other machine not costing at least \$1,000 to \$1,500 more than the E. M. F. Several types of the new car are being placed on sale and comprise besides the five-passenger touring car with roomy tonneau, the runabout, roadster, single or double rumble, and an innovation of the E. M. F. company known as the demi-tonneau, in which the latter can be detached leaving room for trunks and touring outfit. The weight of the car is 1,800 pounds and its equipment includes two acety and its equipment includes two acety-lene gas lamps, with generator, three oil lamps, horn and kit of tools. In

with all its parts direct from the factory for \$1,400.

Realizing the superior qualities of the E. M. F. car and that it is in a class by itself, the well-known Studebaker Bros. company has joined with the Everett-Metzger-blanders company in its manufacture and will handle the sale of the machine west of the Mississippi river. To cover the big demand for this high-quality, low-priced car the Studebaker company in the Studebaker company in the sale of the machine west of the Mississippi river. To cover the big demand for this high-quality, low-priced car the Studebaker company in the sale of the machine west of the machine west of the Mississippi river. east he visited the factory of the
Everett Metzger-Flanders company at
Detroit, Mich., and made a thorough
examination of the new car. He is so
and 40 feet wide, with a capacity of when completed, will be 400 feet long and 40 feet wide, with a capacity of thoroughly satisfied that it is everything that combines to make the ideal car at a moderate cost that he has ordered a carload of six of the new machines. These were bought on a spot cash order and will be shipped so as to reach a point in the new territory where the most cars are sold about the 15th of October and will be exhibited bo'h here and it the surrounding counties. As they are the first cars of this type to be introduced not only in this section but in the United States, their coming is being awaited with interest. In appearance this litest production in the automobile world has all the beauty of line and smoothness of finish of the standard cars, and with its great combination of improvements, good workmanishing and low price seems destined to fill the long standing demand for a high grade car at a moderate price. A feature that will be much appreciated by purchasers of the E. M. F. is the fact that a complete surply of all parts of the machine will be kept constantly on hand at the Portland wareçooms of the machine will be kept constantly on hand at the Portland wareçooms of the States and constantly on hand at the Portland wareçooms of the machine will be kept constantly on hand at the Portland wareçooms of the States and considerable and the portland wareçooms of the States and considerable and the portland wareçooms of the machine will be kept constantly on hand at the Portland wareçooms of the States and considerable and the portland wareçooms of the machine will be kept constantly on hand at the Portland wareçooms of the state of the States and three railroads.

When the plant will be acapacity of the plant will be acapacity of the proximity of good markets in on hand at the Portland waretooms of the Studebaker Co., thus doing away with the long delay in ordering from Club Booklet.

Hood River Schools.

[By Edward E. Coad, City Superintendent.] The schools of a town or community form a fairly good index to the mental, moral and commercial activi-

some of the more important features of the schools of Hood River.

Within twelve years the teaching force of the Hood River schools has been increased from two to 18 instructors; pupils enrolled have increased from 60 to 650; the value of school property, from \$1,000,000 to \$6,000. been increased from two to 18 instruc-tors; pupils enrolled have increased from 60 to 650; the value of school property, from \$1,000,000 to \$6,000,-000. A full four years' high school course is maintained, and a modern high school building of concrete and brick is at present being erected at a cost of \$30,000.

cost of \$39,000.

Last year the average attendance of the student enrolled was over 96 per cent. Since the high school grades were first established practically all the students fluishing the eighth grade have entered the high school. More than 90 per cent of the hundred students in the high school last year intend to take college, university or technical school courses after graduating from high school. This is but ing from high school. This is but

of the pernicious and irresponsible losting and street rambing so often found in towns. In the spring when school is out boys and girls alike go to work. The nine mouths school term begins the first of September and ends by the middle of May so that the boys and girls may go into the straw herry fields. Then there are the small fruits to pick, apples to thin and a thousand and one other things to do, it is work, toc, but there is no shirking. In the school room these boys and girls work with the same vin and same vin

The resources and industries of the valley and town are so generally known that only a summary is needed to assure one that Hood River homes have a strong foundation. The fine land of the valley—30 miles long and from three to eight miles wide—the exhaustless supply of water for irrigamental, moral and commercial activities of its inhabitants. The aim of this article is to show in a few words some of the more important features of the schools of Hood Elvar.

> Six thousand people now call Hood river valley and town home. The Japanese have found a home, for they are needed to clear the timber from the new land; the Turks because they

natural, for a large percentage of the population of Hood River, city and valley are college men and women.

In Hood River there is very little of the pernicious and irresponsible lacting and atreat rambling an often

ing. In the school room these boys and girls work with the same vim and good will; so the teacher's work is lar ely that of directing energy rather than stimulating it as so often is the case.

There is a common aim and ideal in the minds of parents and teachers for the accomplishment of which all are working in unison. Their desire is

and New Mexico. The members con trol 5,000,000 head of cattle.

"The number of cattle.
"The number of cattle in Texas is decreasing temporarily," Col. Pryor said. "The big ranches are cut up into small ranches, or farms. After the farms have been improved the farmers will raise more cattle in the same territory than the ranchmen raised, but they will be more expen-sive to raise and must bring higher

prices than the range cattle.
"On a big ranch a section of land will take care of 30 or 40 head of cattle. When that land is turned into a farm it will take care ot at least twice as many, besides growing some other farm products. But the farmer can't nected with the School and Home, a afford to sell his steer for the old magazine devoted to the interests price of grass fed cattle, and prices must be such that he can sell at a

Map Peddlers Are Fakers.

Another way of buncoing the people developed last week. Some time ago a man came through Caldwell taking orders for maps of the state of Idaho.

Quite a number of people in that
city agreed to take a map which was to be delivered later. According to agreement and in a short time a man came around delivering maps and all the people who agreed to buy one took one and paid for it, but in a short time another man came slong deliver ing the same map, claiming that the first man was a usurper and that he was the real man to deliver the map and had the original signature of the applicant and insisted upon the person taking his map, which a large number did, thinking the first man was a swindler, when in fact from all that can be gathered the two men were in together to skin the public. As a consequence a large number of people are well supplied with maps.—Caldwell News.
