STEINHART & KELLEY PLEASED WITH BUY

The following account of the recent big apple deal made by the Hood River Apple Growers' Union with Steinhardt & Kelly taken from the New York Fruit Trade and Produce Journal will prove interesting to gowers here and also indicates what Mr. Steinhardt thinks about his purchase.

J. H. Steinhardt, of Steinhardt & Kelley, returned Monday from Hood River, Oregon, where he consummated the largest box apple deal in the history of the trade, having purchased between 100 and 120 cars of the famous Hood River apples, the bulk of which was bought from the Hood River Apple Growers' Union which has made such an enviable reputation for packing and shipping high grade apples. This firm has been handling these apples in large quantities in former years, but has not been getting them direct from the Union. They have a large fancy fruit trade to supply and naturally, therefore, must have the most fancy apples which are obtainable. The fame of the Hood River apples is so widespread that it was absolutely necessary for them to handle this fruit, and realizing that they had a great outlet for these apples Steinhardt & Kelly decided to go into the deal in earnest, and the large dealers here consider that they got in just at the right time.

The Hood River Apple Growers' Union has also been fortunate in getting in direct touch with a firm that has a direct outlet for their fruit, as it is natural that it will make a better showing when handled in this manner than when passing through several hands. It seems that the Union realizes this fact and they will doubtless make great capital of it for future use. The Hood River apple district is gifted by nature, as far as quality and soil are concerned, but it is to the careful manner of cultivating and to grading and packing their fruit that a large measure of the credit for its high standing is due.

Mr. Steinhardt states that the apples are finer this year than ever before despite the reports to the contrary that have been circulated by interested parties, and clauses in his contract show what assurance he has of careful grading and packing and of being furnished with only the best quality of apples.

The deal has attracted attention all through the apple-producing sections of the west and also in the principal makets in the east as well, because there were many who wanted to get this fruit and also because of the size of the purchase, which is the first really big deal consummated in the far west so far this season.

The Hood River Glacier has an account on its first page of the closing of the big contract which Steinhardt states is authentic, a difference in figures arising partly from the difficulty in making an accurate estimate of what the crop will be and also from the fact that he made some purchases in addition to those made from the Hood River Apple Growers' Union.

Slightly Colder with Snow.

When you see that kind of a weather forecast you know that rheumatism weather is at hand. Get ready for it now by getting a bottle of Ballard's Snow Liniment. Finest thing made for rheumatism, chilblains, frost bite, sore and stiff joints and muscles, all aches and pains. 25c, 50c and $1.00 per bottle. Sold by Chas. N. Clarke.

Compliments Our Union.

Much has been said in the press and elsewhere about the sale of 80 carloads of Hood River apples to a New York firm for the sum of nearly $90,000.

This is certainly a big deal and is a tremendous advertisement for the Hood River district. But more than anything else it is a triumph for the Hood River Apple Growers Union. Had it not been for this organization, which is the strongest and most systematic in the state, such a deal would never have been made. It demonstrates what we have heretofore noted, that more depends upon the marketing of the fruit than upon any other feature of the industry. We wish it were possible to impress this upon every fruit grower in the Rogue River Valley, and especially upon those who are hanging back and fighting shy of the recent organized Fruit Exchange in this city. It is true that the average body of its kind presents a good chance for losses through incompetency or graft but in the local body we have a group of men of experience, of business ability and absolute integrity. Given the cooperation of all the fruit growers in Josephine country, this organization will do for the fruit industry here precisely the same sort of service that the Apple Growers Union has done for Hood River. It is to be regretted that a large portion of the fruit growers of this section apparently prefer to take their chances in "hoeing their own row" rather than take advantage of an organization which if properly conducted will save them many times the price of the shares.—Grants Pass Outlook.

James Conlan, a rancher in Juniper Canyon, in the northern part of Umatilla county, has discovered gold on his farm and filed on 40 acres as a placer claim. This is near the center of the wheat belt and it is the first time that any one has discovered any indication of the existence of the yellow metal in that vicinity.

Suffering intensely from an abscess of the stomach, and with no doctor near, Wesley Harrymen, of Long Creek, was conveyed 80 miles to Heppner for an operation. An improvised ambulance was manufactured from a spring wagon and a feather bed. The long journey was over rough roads and the boy suffered great agony. His condition is critical.

More than Enough is Too Much.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of rheumatism, stomach troubles and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. An Eye on The Future.

Tommy's maiden aunt had called attention to some of that young man's misdemeanors, thereby causing him to be punished. Tommy pondered a while, then asked, "Papa, will little sister Gladys be an aunt to my children when I am a man?"

"Yes, Tommy," answered his father, much interested. "Why do you ask?"

"'Cause she might as well get married and have a home of her own, for I don't intend to 'low any aunts to stay around my house, making trouble for my children."—Womans' Home Companion for August.

One evening on the afrm a little slum child was enjoying his first glimpse of pastoral life. On a little stool he sat, under a tree bent with its load of ripe peaches, beside the cobok, who was plucking a chicken. He watched the plucking operation gravely for some time. Then he said: "Do you take off their clothes evrey night, loidy?"

Why Colds are Dangerous.

Because you have contracted ordinary colds and recovered from them without treotment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but a cold prepares the system for the reception and development of the germs that would not have otherwise found lodgment. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures affected by this preparation have made it a staple artice of trade over a large part of the world. For sale by Kier & Cass.
