

CORRESPONDENCE

ODELL.

James Cook and family left Hood River last Saturday. They will go to Clifton, Arizona, where it is hoped favorable conditions may do much for Mrs. Cook, whose health has been not the best for some time.

Albert Shelley has purchased a ten acre tract from Frank Boardman. This land lies just west of the tract owned by J. J. Krumenacher.

Jolly Shelley started Sunday evening for Corvallis, where he is a student of the Oregon Agricultural College. He has been home for the Thanksgiving vacation.

In last week's notes it should have read J. J. Krumenacher's house is ready for the plasterer. Mr. Krumenacher's house will soon be ready for occupancy.

The E. L. Klemmer bungalow is progressing rapidly and will be ready for the plasterer probably within a short time.

Wm. Ehrck will go to Portland this week to attend the meeting of the Northwest Horticultural Association. Mr. Ehrck has shipped some apples for exhibition.

Last Sunday afternoon, Marie Lockman was taken with a severe chill and Dr. Shaw was called and attended her. At last accounts she was improving and her many friends hope she may soon regain health.

Mrs. C. K. McCoy's sister was here on Thanksgiving.

Mr. and Mrs. Eaton have gone to Michigan. They have been here since last spring and Mr. Eaton has accomplished much in the way of clearing and preparing his land for the setting of fruit trees. Mr. and Mrs. Eaton expect to return here about February next.

The friends of Frank Pearce will be sorry to hear that he met with a serious accident, a log having caught him and held him to the ground. Men dug under the unfortunate man and rescued him and while he was badly bruised, he is recovering.

Leroy Krohn, an account of whose accident appeared in last week's issue, is now at home and improving.

The injury was in the joint at the shoulder and was serious, but the boy is able to be about and all hope that his recovery may be rapid.

Rev. Troy Shelley wishes me to say that he will not be able to preach next Sabbath.

George T. Frather is hard at work on his Odell property and is at home there.

A number of Odell young people are preparing to give an entertainment next Friday night, the principal part of the program being a comedy entitled, "Powder and Patch." Mr. McCoy, our able principal, is directing arrangements and we may expect a good evening's entertainment. Remember next Friday evening in the hall at Odell.

The Correct Time to stop a cough or cold is just as soon as it starts—then there will be no danger of pneumonia or consumption. Just a few doses of Ballard's Morehead Syrup taken at the start will stop the cough. If it has been running on for some time the treatment will be longer, but the cure is sure. Sold by Chas. N. Clarke.

MOSIER. A score or more of friends gathered at the home of Mr. and Mrs. Chas. Graham Tuesday evening and gave their son Gordon a pleasant surprise. A variety of games passed the evening away. About ten o'clock lunch was served by Mr. and Mrs. Graham, after which more games were played. All enjoyed a delightful evening. Among those present were, Messrs. Graham, Parrish and Evans; Messrs. Maie Hudson, Bertha Booth, Maude Evans, Elsie Denny, Nora Hunter, Lurline Fisher, Gertrude Davenport, Messrs. Ernie Evans, Ray Stargess, Guy Wilson, Dick Wilcox, Charles Bennett, Paul Evans, Leslie Root, Gen. Parrish, Chas. Graham, Gordon Graham and Harry Stokes.

Advertisement for The Monarch Malleable Range. Text: 'Every one may know the delight of using a perfect range The MONARCH PAYS FOR ITSELF EVERY woman would like to have a perfect range—that would turn out beautifully browned loaves of bread, cake and pies, baked just as much on one side as another. But some do without this pleasure because they think they can't afford it. It's not economy to keep on using that old range or cook stove—nor buy a range just as good because it costs a few dollars less than a Monarch— Buy a MONARCH Malleable Range and It Will Pay Back It's Own Cost By the use of unbreakable Malleable Iron in the place of the brittle cast iron found in the ordinary type of "Steel Range," the MONARCH is built with every seam practically air tight. The leakage of air that causes excessive fuel waste is done away with so that the MONARCH will require but little more than half the fuel needed by a range of the common sort. With fuel bills cut in two it's easy to see how the MONARCH "Pays for itself." It does better work too—always. We Can Prove These Things to You! LET US show you how the Monarch is built—riveted like a steam boiler. LET US show you how the Malleable Iron in Monarch Ranges will withstand intense heat that would burn up the grey iron in common ranges. LET US explain the Duplex Draft. LET US demonstrate all of these things and the hundred and one other Monarch features that go to make up range perfection. THEN YOU will realize how it is that the Monarch would do your work with less fuel, less time, less labor than is now required.'
