

Hood River Glacier

Issued Every Thursday by ARTHUR I. MOE, Publisher.

THE HORTICULTURAL MEETINGS

The two days horticultural meetings which were held here this week under the direction of the faculty of the Oregon Experiment Station were undoubtedly the most valuable and interesting that have taken place at Hood River.

Not the least interesting perhaps was the advice of Prof. Withycomb to plant clover or some other cover crop and keep a cow or two. There is no question that the professor's logic is good in theory, but we doubt its practicability as applied to small holdings particularly.

In his address on "Cover Crops and Irrigation" Prof. Lewis said in opening that the cover crop was one of his hobbies. Testimony is not lacking to support Mr. Lewis in his statement as he has been talking cover crops early and late for several years.

It is always difficult to introduce an innovation particularly where those who are expected to be innovated, if such a term can be used, have secured good results from an old standby.

TEA

Why isn't everything moneyback? Everything isn't good enough.

Your grocer returns your money if you don't like Schilling's Best; we pay him!

ARTHUR CLARKE The Jeweler Wishes you a Merry Christmas and a Happy New Year

could doubt the thoroughness and genuineness of his discoveries. It is also apparent that lime and sulphur as applied under his direction means a considerable saving in time, money and labor.

There is a marked resemblance between William Jennings Bryan and Oliver Twist. He wants more.

Mr. Rockefeller admits getting the drawbacks. The other fellows got the set-backs.

Mr. Carnegie, it appears, is keeping half of Scotland's students in school. By providing Yale locks or just Scotch whiskey?

We protest against Mr. Taft's attributing so much of his success to good luck. It is not respectful to the author of "My Policies."

When Mr. Roosevelt asserts that dealing in oil is a very precarious business it is evident that he is still bent on discouraging competition.

A little reflection ought to cause every citizen to be thankful that the Roosevelt era is about to close without the imprisonment of Congress and the lashing of the supreme court at the whipping post.

If Kaiser Wilhelm can make it convenient to visit the United States, he may be assured of a grand reception, with full permission to do as much talking as he pleases.

Governor Hughes has announced himself in favor of a second term for Mr. Taft. This does not make him the original second term Taft man, however. Mr. Longworth, at least beat him to it.

And now some of the younger steel magnates say "Uncle Andy" has been out of the game too long to appreciate its needs. Perhaps Mr. Carnegie argues the matter somewhat after the fashion of that Turkish Sultan who was willing for his successor's harem to be abolished, but balked at the abolition of his own.

Will Locate Here. M. Edward Williams has secured a lease on suite 8-11 of the Eliot building and is equipping his offices in the most modern fashion to conduct an architectural and engineering practice.

The following patents were issued this week to North Western inventors, reported by D. Swift & Co., Patent Lawyers, Washington, D. C.

Making Arrangements for Annual Banquet. The final meeting of the old board of directors of the Hood River Commercial Club was held Tuesday evening, with a full attendance.

Special Bargains in Ladies Belts. Some Sample Belts that we are selling away under their value.

Copyright 1908 by Hart Schaffner & Marx

RUBBERS

Oil Clothing, Rubber Boots, for Men, Ladies, Boys or Girls. Storm Rubbers of all styles. Rubbers as small as size 3 for children.

Replies to Nishizaki

Hood River, Ore., December 16, 1908.

To the Editor: I saw A. Nishizaki's reply to A. I. Mason's statement. I wish to reply to Nishizaki's statement for the benefit of the laboring class of Americans.

There are plenty of white men to work and will work if a man wants them. A white man cannot live on rice, therefore he has to have fair wages to live, but at the same time he does enough more in a day to more than pay up for the difference between Japanese and Americans.

When Mr. Roosevelt asserts that dealing in oil is a very precarious business it is evident that he is still bent on discouraging competition.

A little reflection ought to cause every citizen to be thankful that the Roosevelt era is about to close without the imprisonment of Congress and the lashing of the supreme court at the whipping post.

If Kaiser Wilhelm can make it convenient to visit the United States, he may be assured of a grand reception, with full permission to do as much talking as he pleases.

Governor Hughes has announced himself in favor of a second term for Mr. Taft. This does not make him the original second term Taft man, however. Mr. Longworth, at least beat him to it.

And now some of the younger steel magnates say "Uncle Andy" has been out of the game too long to appreciate its needs. Perhaps Mr. Carnegie argues the matter somewhat after the fashion of that Turkish Sultan who was willing for his successor's harem to be abolished, but balked at the abolition of his own.

Business for the year were taken

action upon and arrangements put in operation for the close annual banquet. The date set for the banquet is Tuesday, January 5. It is expected this year to make the affair a little better than any of its predecessors and a program will be arranged that will include a number of distinguished out of town visitors.

Grant-d Divorces

Two divorces were granted by Judge Bradshaw last week. Mrs. Mary Henningson was granted a divorce from Peter Henningson on the grounds of cruel treatment. Mr. Henningson did not appear against his wife in the suit.

Burglary at The Dalles

B. A. Gilford's photograph gallery was robbed Sunday night of \$125. When Mr. Lamb went to the studio Monday morning, he found the outer door unlocked. Upon investigation, Mr. Gilford and Mr. Lamb discovered that \$125 which was hidden in the dark room Saturday afternoon, was gone.

Mr. Gilford states that he believes the burglar climbed a ladder that leaned in the hall in the Chapman building, went out through a skylight and opening a window in the roof of the studio, gained entrance that way.

It is the opinion of the photographer and the police department that the work was done by some one thoroughly familiar with the premises and by some one who knew where the money was hidden.

Mr. Gilford states that he is not in the habit of leaving money at the gallery, but that Saturday he cashed several notes and sent the money to the gallery, to deposit the money at the police case.

Rabbi Wise knows of Hood River. Dr. Stephen S. Wise, Rabbi of the Free Synagogue of New York City, retains a deep affection for the Pacific Northwest, his residence for several years. In commenting on the prize apples recently sent to European rulers and exhibited in New York, he writes: "Why is this fruit sent to such indifferent Oregonians as Edward, Wilhelm, Nicholas and Mr. Fallieres? If you really want Oregon apples to count, don't waste them on European monarchs, but get them into the systems of Oregonians who love and treasure every thing Oregonian from little Mount Hood to big Hood River apples. But the apples couldn't be kept long on exhibition in our homes here—they would vanish as the mist hovering over the summit of Mount Hood before the morning sun."

Convention of Electric Light Men. The Northwest Electric Light & Power association, embracing Oregon, Washington, Idaho, and Montana, held a two days' session in the Convention Hall of the Portland Commercial Club last week. Every state had numerous delegates and the meeting was one of the best they have ever held. The Northwest has attracted the brightest men from the technical schools of the country.

Northwestern Inventors. The following patents were issued this week to North Western inventors, reported by D. Swift & Co., Patent Lawyers, Washington, D. C.

Montana. W. H. Harris, Stark, automatic railway signal. Washington. J. Ames, Seattle, book; J. B. Crans, Ellensburg, temporary sleigh runner; F. P. Cook, Spokane, automatic switch thrower; G. W. Herben, Seattle, artificial fuel; A. R. Iskan, Seattle, current meter; I. McAllister, Edmonds, chalk and eraser holder; W. A. Mix, Walla Walla, fire-armor.

Oregon. C. Dewesse, Portland, automatic vehicle box and frame lift; W. W. Edmisten, Pendleton, rubber-tire setting device; J. E. O'Neil, Tillamook, tone modulator for graphophones; M. Pavletz, Conby, elevators. Copies of any of the above patents will be furnished to any of our readers at ten cents each, by D. Swift & Co., Washington, D. C., our special patent correspondents.

Some latter day philosopher has summed up life's interest as follows: If you save your money, you're a rascal.

LAKE MANGISHLAK.

Its Strongly Perfumed Waters Are Mauve in Color.

"Grasse, clinging to its Alp, high above the Mediterranean, is supposed to give the stranger a headache on account of its perfume," said a perfume. "Grasse makes the world's perfumes. You see mountains of flowers there, as in a milling country you see mountains of wheat. The odor is powerful, but as far as headaches are concerned, it is not so strong as you think it is. In the Caspian district there is a lake so strongly perfumed that if the stranger boats on it or swims in it he really gets a headache. This lake's banks are of white salt crystals, its waters are mauve in color, and from it an odor of violets is exhaled.

"It is Lake Mangishlak. I visited it to see if I couldn't bottle it up and put it on the perfume market. No go. "You see, it is the presence of the seaweed Polydictya violacea that gives the lake its hue and smell. When you bottle the waters the seaweed atoms after a few days die and rot. Then the odor changes from violet to—pink!"

"But if you are ever in the Caspian visit the Mangishlak peninsula and take a look at the lake. It is in its way as curious as the asphalt lakes of South America."—New Orleans Times-Democrat.

SHE WAS INSULTED.

The Sting in the Letter That Came For Her Husband.

"Harry, love," said Mrs. Knue to her husband when he entered his home a few evenings ago, "I've been dreadfully insulted."

"Insulted? repeated Mr. Knue indignantly. "By whom?" "By your mother."

"My mother, Flora? Nonsense, dear. She's the kindest woman in the world. And how could she insult you? She isn't here; she's miles away."

"But, Harry, she did insult me," persisted Flora, "and it was done in a letter."

"Show it to me." "I'll tell you about it. A letter came for you this morning addressed in your mother's handwriting, and so, of course, I opened it."

"Of course," said Mr. Knue dryly. "It was written to you all the way through, you understand?" "Yes, I understand that, but where does the insult to you come in?"

"In the postscript. When I read along to that it said, 'Dear Flora—Don't fall to give this letter to Harry; I want him to have it.' Now, tell me, wasn't that an insult?"—Pearson's Weekly.

COFFEE

Schilling's Best is a business-like name; you know what it means; and it means what you want.

Your grocer returns your money if you don't like it; we pay him.
