"We got a splendid notice in the Spokesman Review and did effective work for this county while there. The 80 box exhibit from Hood River was a splendid token of Hood River's already well established reputation

and although not entered for competition it received a silver cup. L. E. Clarke of Pine Grove had a fine individual exhibit of 10 boxes of Bald wine and 15 boxes of Spitzberg. The Baldwins got the blue ribbon, the prize being two acres of irrigated land in "Opportunity" in the suburbs of Spokane. The Spokane fair was the biggest thing of its kind on earth and was a howling success."

Last Sunday's Journal has an interesting account of the silica mines of the Mosier valley. These mines are said to be exceedingly rich and practically inexhaustible, and the product of the finest quality.

Some careless persons last Sunday amused themselves by rolling rocks off the edge of the bluff, and one huge boulder crashed down into the road and tore off a large section of the embankment, just in front of a wagon containing a man and his wife. Thoughtless is a very mild term to apply to such a prank, which might very easily cause the death of some unwary traveler.

R. A. Byrrett, E. Fish and C. E. Bransman went on a bear hunt last week. They went out Wednesday and got back to town Saturday morning, able to deliver the goods. Accompanied by six dogs, they scoured the country along Major and Catherine creeks, and near the latter stream captured a monster specimen of the tribe of Bears. When these men take to the woods, Mr. Bear might as well throw up his hands. The editor can testify to their skill, as Mr. Byrrett brought to this office some fine steak, which we enjoyed hugely. Many thanks.
