TO PUT BIG FLEET ON UPPER COLUMBIA

As soon as the river clears of ice, the government boat Umatilla will begin work in clearing the Columbia river channel, above Cellio, of all on-stacles to navigation Captain S V.

The dimensions of the loland Empire sie: Lugh of hell 150 feet, width of beau, 32 feet; depth of hell, 5 feet; gross tourage 475 feet; entry-ing capacity 250 tous; botlets 66 inch-es diameter, 225 lbs. to the square es diameter, 225 lies, to the square 'Pilgrime of the Plain,' Josquin stroke Miller (Srd stauzs.) The Celilo Falls, which will go into 1900, commission soon after the river clears of ice, was designed along the same lines as the leaned Empire, with the exception of her upper cabin and will be somewhat larger. At the request of the Pasco and Kennewick Commercial Citie, the hout will probably be christened "Twin Cities."

In 1863 there were given on the

In 1863, there were plying on the river above Cellis Palls the following boats: Steamers—Col. Wright, 100 tons canacity; Tenino, 150 tons; Okanogan, 150 tons; Nez Perce Chief, 135 tons; Orange, 135 tons; Yakima, 200 tons; Webfoot, 200 tons; Spray, 125 tons; Kyus, 150 tons; Cascadilla, 90 tons; Leaiston, 30 tons; Schooners. tons; Leaiston, 30 tons. Schooners— James Buchanan, 50 tons; Humming Bird, 40 tons; Victorine, 80 tons; Schooner, 80 tens. Sloops-Mount Hood, 60 tens; Sarah F. Gray, 40

tons.
The fuel problem was the greatest to be solved by the navigators in early days for there was not a tree of any size growing on the banks of the Columbia between Deschutes and Priest which gave a name to rapids at that point. There we've three pine trees to United States Hospital corps at Old just below Almota creek, and ten near Tree Kapids, fourteen miles below Lewiston. There was considerable drift wood scattered along the banks which was cut by the Indians and the scattered of the work and continuing quite regularly until 1867, being kept by Jacob Fritz, fath er of Louis Fritz of this city. In 1874, which was cut by the Indians and

Wood was also touted up the Colum-bia to The Dailes from near the Cas-cades, hauled by wagon lifteen miles, to the Deschutes and delivered to the

The boats today do not have this difficulty for oil may be used in place of wood. The people of the inland Empire will have the greatest fleet of boats when the open River fleet gets to operating, that they have had since the early fleet on the river in the '60's. The operation of this fleet calls to mind the boats and the difficulties encountered in the early days. His-tory repeats itself. There was a vast ount of business transacted by the early boats and there will be again, when the Open River line is in full operation, to the relief of the Inland Empire people - Dalles Chronicle.

The Pure Food Law

Secretary Wilson says, "One of the objects of the law is to inform the consumer of the presence of certain harmful drugs in medicines." The law requires that the amount of chloroform, opium, morphine, and other habit forming drugs be stated on the label of each bot-tle. The manufacturers of Chamberlain's Cough Remedy have already claimed that their remedy did not contain any of these drugs, and the truth of this claim is now fully proven, as no mention of them is made on the label. This remedy is not only one of the safest, but one of the best in use for coughs and colds. Its value has been proven beyond question during the many years it has been in general use.
