Ducks Pay. Kate V. Saint-Maur, who has won a reputation by her success in showing people how to make money at home, tells how to make money with ducks in the April Woman's Home Companion.

"Ducks are so profitable," says Mrs. Saint-Maur, "that I cannot understand why so few keep them, unless it is the mistaken idea that they must have a stream or pond in which to swim. It is true that the old-fashioned puddle duck did seem a miserable creature out of water, but the improved strains are almost as much land birds as chickens are. My stock started with two ducks and a drake which cost me seven dollars. The first season I raised fifty-eight, sold forty six, and kept twelve to stock. They were ready for the market when eleven weeks old, and the lowest price was eighteen cents a pound."
