Each of the chief orof the body is a in the Chain of stronger than its weakest link, the body

weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomsch and a strong body.

Pierce, the photographer from Cas-cade Locks, was doing some good work in Underwood Saturday. A party of fourteen Odd Fellows went over Saturday evening to visit the louge at White Salvon. They equals regularly, and is very well returned in the wee smell hours of pleased with the returns. Sunday morning and report having Andy Pearson was an a splendid time at the meeting with the Washington brothers. It will be their turn to come over to the Oregon side, and look across the river, it is the same no doubt with them as some of the brothers on this side. They do not know how their own country looks from the other side.

At the ball game Sunday we hear the score stood 14 to 3 in favor of Hood River. That was not so bad as it might have been considering that most of Mosier's players are beginners. They were cut for practice and experience, and of course got it. Bet A number of the local Odd Fellows ling down the bales which were piled ter luck later.

For the benefit of certain parties who have been trying to make out that the talk of a depot at Underwood is "all a bluft," we beg to quote from a letter from General Sept. J Russel, of the S. P. & S. bearing date of M.y. 4 President Apple Growers Unon. Underwood, Wesh., Dear Sir: I have your favor of April 30th. The construction of the depct has been auth orized and I nope to have it. pleted before the strawberry reason begins. As for the station sign, there is no use erecting that, in view of the fact that a depot will be erected so soon. The depot of course, will have the name of the station printed on each end. Yours truly, J. Kosel.

The White Selmon Irrigation District has been held up for a short time on account of some diseatisfaction among a few of the property owners of the district. The report seems to have been spread among the people that the system can not be in-stalled for \$60,000, the amount voted for bonds at the last election. It will be necessary now for the board of directors to have the preliminary work "one and estimates made showing the cost of installing the proposed plant. If after investigation it is found that the system cannot be installed for the amount voted there is no doubt but what those who have land in the district will be in favor of going abead with the work. The judge gave twenty days in which to secure data and prepare for final bearing -- Enterprise.
