

ICE FOR SALE

At The New Ice Plant

THE HOOD RIVER APPLE GROWERS UNION has Ice for sale. We are manufacturing two grades of Ice, both of them good.

Our Crystal Ice is First Class

In every respect—fine clear Ice, made from the city water purchased from the Water Company. It is equal in every way to any ice ever sold in Hood River.

Our London Smoke Grade of Ice

Is not quite so clear as the Crystal, but it requires close inspection to detect any difference in the appearance. This grade of Ice is made from water taken from the Wilson reservoir on the hill. It is frozen by the same method, and is just as good as the Crystal Ice for refrigerators and freezers, and in fact for all cooling purposes. And it is cheap.

OUR PRICES On Crystal Ice will also please you. We are selling both grades of Ice at lower prices than you have been accustomed to paying. You can afford to buy Ice from us, and everybody can afford to use Ice at our prices. **WE HAVE ICE BOOKS** to sell, and will deliver the Ice at your residence or place of business as desired. Delivery in residence section in the afternoon; be sure to get orders in before 2 o'clock P. M.
