CITY'S SPRING THE BEST PLAN.

Another bond election has been called by the city council, and the water company as usual has come forward with a plan for furnishing the city with water, with which they seem to hope to sidetrack the people who want to get pure and ample supply of water.

In giving what it claimed was the "business side of the water question" the News would lead the people to believe that it is in a position to secure information which would greatly aid the council and citizens in a wise solution of the water question.

The water company, in the first place, asks for something that cannot possibly be granted them, that is, that the city protect them from competition. They cannot be given exclusive rights, and they seem to think that they cannot furnish pure water without them.

It does not seem probable that citizens would buy water of doubtful purity which was brought to them through an old and worn-out system of wooden mains when it was possible for them to secure water from the city of unquestioned quality served to them by the most up to date and sanitary method through a new system of iron mains.

It is unquestioned by anyone that the water brought in by the city from the City's spring would meet the needs of Hood River in every particular. The water would be pure and there would be plenty of it. The city would be able to furnish it at a low price to the consumer and the present rates would make a return sufficient to pay operating expenses, interest on the bonds and pay for the plant.

On Monday, October 11, the glacier office was visited by a deputy state factory inspector (we forgot to save his card) and he spent 10 minutes inspecting our "factory." We are now in receipt of a bill from the state inspector informing us that we owe the state treasurer \$3 for "professional services rendered."

The firm of Fleming & Taft has been dissolved by mutual consent, W. H. Taft having bought the interests of Mr. Fleming. The business will be conducted under the firm name of L. E. Taft & Co., who will pay all bills and collect all accounts due to the firm of Fleming & Taft, and thanking the public for the liberal patronage given the old firm, ask a continuance of the same, and with the assurance that every endeavor will be made to give prompt service and fair treatment.

Mrs. Robert H. Kemp, of Odell entertained Friday afternoon with a plate shower for Miss Lottie Howard. The rooms in the home were prettily decorated with cut flowers and bridal suggestions.

The patrons of the Gem moving picture theater were treated to excellent programs during the last week and the managers have arranged for some especially fine films to be shown during the next few days.

Last week the News said the Glacier was "browsing indifferently at the public crib" and they spoke as if they thought we should be getting pretty fat. In our opinion the News should know no hunger as long as they are fed from the hand of private corporations, which may not be indigent with their dependents but they are at least careful.

The Paris Fair The Store You Can Rely Upon

WOMAN'S EXHIBIT AT FRUIT FAIR

In the woman's department at the Fruit Fair prizes have been offered for the best work in painting, needle work, canned goods, etc., and the committee consisting of Mesdames Laraway, Custner, Deem, Strafford and Miss Blythe request that all exhibits be at the opera house by Thursday morning of the fair.

Embroidery sections will be offered as prizes for the best work in colored embroidery, white embroidery, needlework, tatting, and lace. Starling spoons will be given for the best exhibits of china painting, oil painting, water color painting, canned fruit and jelly. A cut glass vase is offered for the best cut flowers and a sack of flour for the best loaf of bread.

The executive board of the fair held a meeting Monday evening in the Commercial Club rooms and perfected many plans for the exhibition. There will be many fine apples on display and a shed will be built on the south side of the opera house in order to accommodate all exhibitors. The streets will be especially illuminated for the occasion and low rates have been made to Hood River on all boat lines and railroads.

Eugene H. Buchanan died Saturday at the home of his parents, Mr. and Mrs. V. Buchanan. Mr. Buchanan was 25 years old and his death was caused by tuberculosis from which he had been suffering for some time. For the past five years he had been employed as a route agent for the Portland Oregonian.

He was a member of the Assembly of United Artisans of Portland and Mrs. John Selmon, of Seaside, Miss Florence Buchanan, of this city, and Miss Avis Buchanan, of Estacada.

The firm of Fleming & Taft has been dissolved by mutual consent, W. H. Taft having bought the interests of Mr. Fleming. The business will be conducted under the firm name of L. E. While returning from Underwood to his home in the valley Sunday night Henry Anderson became tired and lay beside the road to sleep. He kicked over his lantern, spilled oil on his legs and was awakened by the flames which were consuming his clothing. He was brought to the Hood River hospital and will suffer no serious permanent results.

Cole-Kidder

On Sunday evening, at the new home of Rev. and Mrs. O. J. Nelson, Ernest Cole, a prominent business man from Kansas, was married to Mrs. Judith Kidder. Rev. Nelson performed the simple ceremony in the presence of a few immediate friends and relatives. Mrs. Nelson presided at the piano. Mrs. Cole is well and favorably known here having made her home with Mrs. E. L. Smith for the past few years. The bride and groom have been acquaintances for many years. They expect to reside in Hood River.

A deal was closed last week whereby Charles Bell sold his drug store to Carl A. Plath, formerly of Cincinnati for the past twenty years, where at the time he sold out he owned two stores. For the past six months he has been traveling over the states of California, Arizona, Oregon, Washington and Idaho, looking for a location and Hood River looked the best to him of any place he saw. Mrs. Plath arrived Tuesday from Spokane.

Mr. Hall has extensive hotel, building and extensive land interests and he intends to now devote his entire time to their development.

Oh Riley on Water I don't I would attend the council meeting to see how they operated. I tell you they have some spokers for such a small town. Every thing went smooth till the spokers from the civic league came in and then things went smoother.

The first speaker to interject the council report was the Sheriff (without the rest of the national guard) I tell you he is a fine orator, he had the mayor and every one of the council moved to the weeping point, they acted like they had laked something. That was a fine speech, to think any man could love the papies interests so (without the papie).

This came the Demosthenes of the hospital. He swayed the audience from here to Philadelphia. He told them how much the water company had cost the people in the past, and barely mentioned the prizes to be drawn in the near future from the assets. He did not name them. How could he tell what they will be till he saw them? I tell you the water company was the greatest medicated lectur that was ever unspung in Hood River on finance, pumps, wells, the water company and their intentions.

I hear that the chairman of the water company's committee ran the councilman last winter and they billed the town and their platform that they stood for a municipal water plant. He want illicited. He still after fifteen long excruciating year of probation. What an intidicting giant!

That difference do it make to Nale Evans if the idittr and the News do belong to the water company? I sverdy body know that. Maybe he is afraid they will illicit him to some office and he don't kno it, to git even wid him for talking back to him. If he don't kno still, and stop trim to be smart, he may git hurted.

Some people are skeered of him and some other people had lither be careful, if they make the water company and some of the first citizens much sicker, they may vom 1 tory all over them. What a prize that would be.

I see by the paper that the Mayor drew one prize from the state board of hills. Howing, that is that the iditor of the News boliered at the iditor of the Glacier anyho? Is it the water company's illicion bolier, or the name of their com-tee's report? Phativer it is, I'll bet it kicks.
