Does Not Stimulate

Ayer's Sarsaparilla does not stimulate. It does not make you feel better one day, then as bad as ever the next. It is not a strong drink. No reaction after you stop using it. There is not a drop of alcohol in it. You have the steady, even gain that comes from a strong tonic and alterative. We wish you would ask your doctor about this. He knows. Trust him. Do as he says. J. C. Ayer & Co., Lowell, Mass.

What are Ayer's Pills? Liver Pills. How long have they been sold? Nearly sixty years. Do doctors recommend them? Ask your doctor and find out.

but we don't—not in the Plumbing business. We claim to do the most thorough, perfect, clean and satisfactory work of any concern in town and we back up our assertion by proving it! We construct new Plumbing work, of course, whether it be for a single room or a row of houses; but we are also expert repairers, and we don't give the joke-maker an opportunity to have fun at either delays or charges. "Honest work at an honest price" is our motto.

The division of the county is a question that is a foregone conclusion in the future, has been brought to the front by the action of the Bristol Development Club taken at a recent meeting. The size, shape and topography of the country, all furnish arguments in favor of a division, but whether it is wise to agitate the question at the present time is a question.

The prospect of a railroad up the White Salmon Valley has caused a tremor in the village on the mountain, which points to the necessity of further digging into their pocket in order to ward off the over hanging shadow, which coupled with heavy street improvement assessments, water and irrigation bonds and other incidental improvements, makes a great burden to bear. It is reported that \$25,000 has been offered if the company will stop at the White Salmon dock and not come to Bingen. Of course if the railroad company go to the dock they will have to stop or else go into, or bridge the river. The road may not come to Bingen, but if it does it is a bona fide one, White Salmon is at least to be considered for its enterprise, and its strenuous efforts to overcome an unfortunate location.

J. Christensen, who Intel sold his ranch at Cones Prairie, and purchased property on Long Beach, Pacific county, was here on business a couple of days this week.
