### Better Fruit and Hood River County Map

#### Better Fruit

Hood River's one best advertisement

This best fruit grower's paper in the world

National Map and Publishing Co.'s Multicolored Map of Hood River County

Showing all roads, triangulation lines, ditches, elevations, stream measurements, and giving a complete history of Hood River and its resources.

A year's subscription to Better Fruit and the New Hood River County Map **\$1.25**

### Four Thousand a Year

There has been forty thousand prescriptions filled at this store in the past ten years. We fill prescriptions strictly according to the doctor's orders. No substitutes.

**CHAS. N. CLARKE**  
The Glacier Pharmacy

### Harness and Saddlery

Harness Repaired & Made to order.

Lap Robes, Horse Blankets, Tents, Wagon Covers, Water Bags, Etc.  
**Davenport Harness Co.**

### ADVOCATE MID-SUMMER APPLE EXHIBIT

I noticed in an article in the Oregonian, some time ago, written by Mr. Lonsdale, who is a large fruit grower in Southern Oregon, where he advised the orchardists of Oregon to ascertain the particular varieties of fruit which were suited to their several districts. This was good advice and I have no doubt that it was followed by many people in the orchard business.

The following led me to the thought that the best keeping and finest flavored apples will always command the market's highest price. As yet we have not demonstrated which district in Oregon is the best for the keeping quality of the apple.

True we have many apple shows in the apple season, at which all varieties show to advantage. This is hardly justice, however, to the intending investor who is always in evidence at these shows, but who cannot secure the definite evidence there as to the keeping qualities of the apple.

Hence, I would suggest a Mid-Summer Apple Exhibit. At such a show, the districts that produce the best keeping apples would take first place as such and thus insure the investor of the fact.

Where this method might detract, in some measure, from some districts, the districts of merit that produce the best keepers would inherit their own. We know there are districts that do produce a plus which retain their flavor and keeping qualities until past mid-summer. So why not advance a Mid-Summer Apple Exhibit? It would be a great feature for Oregon as an advertisement, particularly as Oregon apples are today one of the foremost products of our State and destined in the future to lead as such.

It appears to me that an apple show held in one or more of the large cities in mid-summer would create a lively interest, and I do not see any reason why this should not be done. We claim that we have the keeping quality—why not demonstrate it in the season that would prove it and awaken the most interest for our most famous product—the Oregon Apple?—J. K. McGregor, in Mosier Bulletin.

### MR. AND MRS. GEO. GRANTZ OF THE DALLES, OREGON

Writes Letter Which May Be of Great Interest to Skin Sufferers of this City.

I must say your D. D. D. certainly is the only thing a person ought to use. Our children had sores on their heads. The doctors called it eczema ringworm and we couldn't get anything to cure them till we tried D. D. D. We used two bottles of it and I must say our children were cured.

Therefore I commend the D. D. D. Mr. and Mrs. George Grantz. So many convincing statements, similar to the above, have been made to us privately by sufferers from aggravating skin diseases to whom we have sold the D. D. D. Prescription, that we feel bound to give it our unqualified endorsement. By special arrangement with the D. D. D. Company we can furnish anyone who has not tried the remedy with a special size bottle for 25 cents. Keir & Cass.

### Value of Fruit Land.

The Western, a monthly magazine published at Seattle, has the following to say of Oregon's fruit land and their production:

"In Hood River Valley an average of twenty farms a net production of \$976.77 per acre. And this is done beneath 'Italian skies,' without any artificial application of moisture. This average applies principally to fruit, including apples, peaches and pears, but the showing for diversified farming in this wonderfully delightful valley is an average of about 20 per cent per acre upon a value of \$500. It should be remembered that one important element always governing the price of farming land is the distance from the city or shipping center. First-class fruit land cleared and ready for trees, within a few miles of Medford, which is the metropolis of this famous valley of Oregon, are selling now at from \$250 to \$500 per acre. By going farther out, but still upon the main highway, land well suited to the apple, pear, peach and apricot, as well as berries small fruits, can be bought at from \$50 per acre upward. It also should be remembered that the price of land is governed by the value of the improvements upon it, considered aside from the intrinsic value of the land."

### Take Care!

Remember that when your kidneys are affected, your life is in danger. M. Mayor, Rochester, N. Y., says: "My trouble started with a sharp shooting pain over my back which grew worse daily. I felt sluggish and tired, my kidney action was irregular and infrequent. I started using Foley Kidney Pills. Each dose seemed to put new life and strength into me, and now I am completely cured and feel better and stronger than for years." For sale by C. A. Plath.

### WRE YOU EVER?

When I see a foolish youth with his pants turned up and his speckled sock in view; and over his left eye a little flat cap, with a ribbon of red or blue; and fifteen rings and nine pins that he got at his dear prep school, why, it strikes a cord, and I say: Oh, Lord! was I ever such a fool?

### Saved From Awful Death.

How an appalling calamity in his family was prevented is told by A. D. McDonald, of Fayetteville, N. C., R. F. D. No. 8. "My sister had consumption," he writes, "she was very thin and pale, had no appetite and seemed to grow weaker every day, as all remedies failed till Dr. King's New Discovery was tried, and so completely cured her, that she has not been troubled with a cough since. It is the best medicine I ever saw or heard of." For coughs, colds, lagrippe, asthma, hemorrhage, all bronchial troubles, it has no equal. 50c \$1.00. Trial bottle free. Guaranteed by Chas. N. Clarke.

### Most Perfect Apple Ever Seen.

Loyal Oregonians have reason to feel proud because of the tribute to Oregon apples paid by Professor H. E. Vandeman, judge at the Spokane Apple Show, who declared the car of Spitzenbergs winning the sweepstake prize, which were grown at Hood River, were the most perfect apples he had ever seen. Prof. Vandeman is a noted judge of fruit, having awarded the prizes at the Columbian Exposition at Chicago and he has also acted in a similar capacity at the leading fruit shows in the country.—St. Johns Review.

### FURNISH-COE

### DAM IS DONE

The Furnish-Coe dam across the Umatilla river at Coe station, the second largest project of its kind in the state, is completed and will be turned over to the Furnish-Coe company by the contractors with in a day or two. The work of filling the great reservoir formed by the construction of the dam will be started upon the arrival of the flood season. The water thus stored will be used during the summer months in irrigating 10,000 acres of land contained in the Furnish-Coe project in the west end of the county and with Stanfield as the project town.

The dam is 1100 feet long, is fifty feet high, 220 feet wide at its base and 20 feet wide at the top. A concrete core extends from bank to bank and from its bedrock foundation to within five feet of the top of the dam.

Though it extends across the Umatilla river, and will hold the flood waters of that stream until they form a lake nearly a mile wide and nearly two miles long, the water will never be permitted to flow over its top and the normal flow of the river will never be shut off, either summer or winter.

The spillway which has been constructed to carry off the surplus water is as large as the original channel of the river and will therefore be sufficient in size to take care of the largest floods the river has ever seen. The sides of this spillway are concrete to prevent their cutting away the bank on either side.

Three hundred acres of land, including one of the oldest and best fruit and alfalfa farms along the river, will be flooded by the water in the reservoir which will extend up around the famous Horseshoe curve for a distance of a mile and three-quarters. In its widest part the artificial lake will be three-fourths of a mile in width. It started using Foley Kidney Pills. Each dose seemed to put new life and strength into me, and now I am completely cured and feel better and stronger than for years." For sale by C. A. Plath.

### Banks on Sure Thing Now

"I'll never be without Dr. King's New Life Pills again," writes A. Schineck, 647 Elm St., Buffalo, N. Y. "They cured me of chronic constipation when all others failed." Unequaled for Biliousness, Jaundice, Indigestion, Headache, Chills, Malaria and Debility. 25c at Chas. N. Clarke's drug store.

When a woman wears a hat which comes down over her face so far that it is impossible for her to see and a skirt which is so tight around her ankles that she can scarcely walk, one wonders why she doesn't handuff herself.

### For Sale by Owner

200 acres, 60 acres cleared, 11 acres planted, balance unimproved. Price cheap and easy terms.
