Sunday evening Mr. F. R. Absten met with a serious accident on the narrow gauge road below Ruthton. As he was returning from marking the evening local, it being so dark he could not see, he drove off the grade into the river bed some ten or fifteen feet below. Miss Lulu, who was with him, jumped out as she felt the carriage going over. Mr. Absten had to extricate himself from the wreck but outside of bruises and a good shaking up they were not injured. This makes the third accident on this and the planer hill in the past eight months. We wonder how many more there will have to be before the people are alive to the fact that both of these places should be fenced. Taxpayers, wake up and assert your rights.

HARRIMAN MERGER NOW IN EFFECT

Much like the passing of the old year and the coming of the new, the O. R. & N. company ceased to exist and the Oregon-Washington Railroad & Navigation company was born last week.

In announcing the merger officially the company will send out 10,000 copies of a neatly printed card, lithographed in dark colors and embossed with letters of gold. In the lower right hand corner of the front page is a handsome design of a steamboat, the smoke rising from the funnels and forming a cloud in the upper left hand corner with the figures "1910" dimly visible through the cloud. The cloud is broken by a golden circle through which appears a passenger train with Mount Hood majestically in the background.

Above the picture in the circle are the words "The New Name," with the title of the new company, also in gilt letters with the figures "1910" directly above. The back bears the shield of the Union Pacific with the name of the new company. The inside carries a map showing the lines of the merger and the following announcement:

"The Oregon-Washington Railroad & Navigation company, traffic department, announcement:

"The Oregon-Washington Railroad & Navigation company has incorporated for the purpose of taking over the following: Oregon & Washington Railroad & Navigation company, Oregon & Washington, North Coast, Idaho Northern and Ilwaco railroad.

The change occurs December 23, 1910, at 11:30 o'clock, Pacific time, on and after which date the lines mentioned will be operated in the name of the Oregon-Washington Railroad & Navigation company."

The signatures of C. C. Stubbs, director of traffic; R. B. Miller, traffic manager; F. W. Robinson, general freight agent; William McMurray, general passenger agent, and W. D. Skinner, general freight and passenger agent, are attached.
