ANNOUNCEMENT To Subdividers of Fruit Land

WILL sell any two of the following fruit tracts on specially casy . terms to people who will satisfy me they intend to substivide

them and get new people here. I will sell half of all the land I own in this section, and sell it at the lowest market price in order to get new blood in here. I am able to make easier terms than stated below if the buyers satisfy me they are "the goods." If you are honest, and have the ability to sell a few 10-acre tracts to the right people, you and I can trade, even though you have but little money. In the price of land and in the nature and variety of dis resources, Goldendale is where Hood River was ten years ago. 1 bought this land with reference to soil and air drainage quality and depth of soil, and relation to markets. I feel sure it will bear the closest scrutiny. In case you want's small tract, I have subdivided one large tract into 10-acre tracts, and we are selling them at \$100 an acre and upward on easy terms. This large tract is not for sale except in small tracts. 150 acres have been taken to date and is being planted to apples and pears. [This 1360-acre tract is called Wahkiakus Heights and is 24 miles from Wahkiakus station.

I have known and studied the west and south for several years, and feel pretty certain that here one can find more for, his money than can be found anywhere else in the country. Until the railroad was built recently we were so little known and advertised t/ at the best of fruit and farm land is ridicuously cheap. 1 offer the following:

240 Acres on Railroad.

240 acres on Bowman creek, 5 miles NE of Wahkiakus station, between Goldendale and Lyle. This place has a riparian water right and good domestic water from a pipe line new across it. 220 acres of the finest kind of fruit and truck soil with gentle slope toward the west and the creek. 30 acres cleared. Small house and barn. Lays well to subdivide. Nearly 2,000,000 feet yellow pine. 2 miles from the immense Wahkiakus Heights Orchard Co's, orchard. Near the Klickitat river with its mountain tront and beautiful scenery.2340 an acre. \$1500 cash, balance on easy terms to subdividers. Bearing orchards joining.

160 Acres, Part Clear.

160 acres two miles north of Goldendale-right in the apple belt. Between 40 and 50 acres clear, ready for trees. Creek runs through 3 mile of place. 20 acres truck land, some of which lies on each of five 10-acre tracts. Already cut into 10-acre tracts with big white posts. County road on west and north. Each 10-acre fronts on county road. Sold in 10 acre tracts on easy payment plan they should average \$125 per acre. You can buy it for \$50 an acre with only \$1000 cash. Balance on easy terms at 6 per cent interest.

300 Acres, Close In.

300 scres 31 miles north of Goldendale on main county road. 90 acres cleared, 50 of which is in orchard, standard commercial varfeties as follows: 4 acres 6-year-old trees; 1 acre 2-year-old trees; 10 acres 4-year-old trees; 1 acre pears; 34 acres 1-year-old trees-all apples but the acre of pears. 10 acres celery and truck soil cleared." 100 acres more partly cleared.
